Phone No: 03662-231149

PREFACE

The *District Disaster Management Plan (DDMP) – Dhubri* serves as a comprehensive document that outlines the district profile and clearly delineates the roles and responsibilities of the District Administration and other key stakeholders in disaster preparedness, response, and recovery. The plan is structured to ensure timely and coordinated action in the face of both natural and human-induced disasters, with a particular focus on floods—an annual and recurring hazard in the district.

As an integral component of the DDMP, the *District Level Flood Action Plan (DLFAP)* provides operational guidelines for key Government Departments that function as first responders before, during, and after flood events. The plan emphasizes the importance of high-resolution vulnerability mapping and aligns with international best practices, including the priorities set forth in the **Sendai Framework for Disaster Risk Reduction** and the principles of **climate change adaptation**.

This document also details the responsibilities of various stakeholders—Government Departments, Local Bodies, Private Agencies, and Non-Governmental Organizations (NGOs)—in addressing flood-related emergencies. It is intended to serve as a practical and reliable reference for government officials, field personnel, and members of the public during the flood season.

Dhubri district is particularly vulnerable to annual flooding during the monsoon period, mainly due to the Brahmaputra River and its tributaries, including the *Gaurang, Tipkai, Champabati, Gadadhar and Sonkosh*. These rivers often become overburdened with high water volumes—especially from upstream regions such as Bhutan—frequently leading to breaches, widespread inundation, and significant damage to life and property.

To effectively mitigate the impact of these recurring disasters, a well-structured and proactive action plan is essential. The DDMP has been developed through collective and coordinated efforts, aiming to provide timely relief and support to affected communities through the dedicated involvement of the District Administration and associated agencies.

I extend my sincere appreciation to all line departments, partner agencies, and organizations whose support and collaboration have been instrumental in the preparation of this plan. Their contributions have made this document a functional and action-oriented tool for comprehensive disaster management in Dhubri.

District Commissioner,
Cum Chairman, DDMA, Dhubri

CHAPTER–I

MULTI-HAZARD DISASTER MANAGEMENT PLAN

1.1 DISASTER MANAGEMENT – WHY IS IT NECESSARY?

Natural disasters are an inherent part of the Earth's system. While they cannot be entirely prevented or avoided, their impacts can be significantly reduced through a systematic approach involving disaster management. Effective disaster management can save lives, minimize human suffering, and mitigate damage to property and infrastructure.

1.2 INTRODUCTION – CONCEPT OF DISASTER MANAGEMENT

Definition of Disaster

The word *disaster* originates from the French term *désastre*, meaning "bad star" or "evil star." However, in the context of disaster management, the term refers to any sudden disruption of normal life within a community that results in widespread damage to life, property, and the environment.

Typology of Disasters

Disasters are broadly classified into two categories:

- **Natural Disasters:** These include rainstorms, floods, cyclones, storms, landslides, earthquakes, and volcanic eruptions.
- **Man-made Disasters:** These include war (including biological warfare), arson, sabotage, riots, accidents (train, air, maritime), industrial mishaps, fires, bomb explosions, nuclear events, and ecological disasters.

Historically, drought and famine were among the most devastating disasters in India prior to independence. With the development of irrigation and food security measures, the focus has shifted to managing recurring natural disasters such as floods, cyclones, droughts, landslides, avalanches, and earthquakes.

Vulnerability

Vulnerability refers to the extent to which a community, structure, service, or geographic area is likely to be damaged or disrupted by a specific hazard. This is influenced by factors such as location, construction standards, and proximity to hazard-prone areas.

In 1989, the United Nations General Assembly declared the 1990s as the International Decade for Natural Disaster Reduction (IDNDR). During the 1994 World Conference on Natural Disaster Reduction in Yokohama, Japan, the *Yokohama Strategy and Plan of Action for a Safer World* was adopted. It emphasized that while natural hazards cannot be eliminated, their impacts can be minimized through early warning systems and community preparedness. Disaster management is increasingly being recognized as a vital component of good governance.

1.3 BASIC CONCEPTS OF EMERGENCY MANAGEMENT

The fundamental concept of emergency management is that similar strategies can be applied to manage all types of emergencies. Emergencies do not arise suddenly—they have a life cycle. Management strategies must correspond to these phases to effectively mitigate, prepare for, respond to, and recover from disasters.

There are four key phases in emergency management:

1. **Mitigation**
2. **Preparedness**
3. **Response**
4. **Recovery**

These phases are interconnected and often overlap. They are typically represented as part of a continuous cycle—known as the **Emergency Management Cycle**.

1.4 EMERGENCY MANAGEMENT CYCLE

1. Mitigation

Mitigation refers to efforts aimed at reducing or eliminating the risks or impacts of disasters. It begins with two critical steps:

- **Hazard Identification:** Determining which hazards have the potential to affect a population.
- **Vulnerability Analysis:** Assessing how people, property, and infrastructure may be impacted by these hazards.

Effective mitigation forms the basis for planning all other phases of disaster management.

2. Preparedness

Preparedness is the state of being ready to respond effectively in the event of a disaster. This involves:

- Creating a response plan
- Identifying and organizing available resources
- Training personnel
- Ensuring the plan is practical and adaptable in real-time emergencies

Preparedness actions are based on the severity of identified hazards and the vulnerability of affected populations. While some hazards like floods and cyclones offer early warnings, others such as earthquakes or explosions do not, making proactive planning essential.

3. Response

The response phase involves immediate actions taken to ensure public safety, minimize damage, and provide emergency support. The five critical stages of response include:

1. **Warning**
2. **Immediate Public Safety**
3. **Property Security**

4. **Public Welfare**
5. **Restoration of Critical Functions**

4. Recovery

Recovery refers to efforts undertaken to restore the community to normal—or improved—conditions after a disaster. It includes:

- **Short-term Recovery:** Restoration of vital services and infrastructure to minimum operational standards.
- **Long-term Recovery:** Reconstruction and rehabilitation that may span months or years, ultimately aiming to improve resilience and reduce future risks.

FIG.1: PHASES OF DISASTER MANAGEMENT CYCLE

1.5 DISASTER AND ITS CHALLENGES:

Along with perennial floods, Earth quake pose a possible threat, particularly due to the fact that its time, location and magnitude can't be accurately predicted. Moreover, entire North East region of India is located in a seismically active zone (zone-v). The region has been witnessed to several violent earthquakes in the past.

Challenges created by disasters particularly by the natural disaster such as flood, cyclones and high intensity earth quake are –

- To rescue and evacuate trapped people.
- To provide first Aid to the injured people.
- To make care of children, woman and disable people.
- To transfer the seriously injured and people needing urgent medical attention to hospitals.
- To restore communication network and essential services.
- To clear debris, blocking roads and communication network.
- To provide shelter and relief to homeless people.
- To arrange for food and drinking water to the affected people.
- To take immediate measures for disposal of dead bodies and animal carcass as to prevent the outbreak of epidemics.
- To take urgent measures for maintaining law and order.
- To take people to safer places in-case of change of course of river due to flood.

It is a fact that natural disasters can not be avoided and prevented, but only by our sincere efforts we can mitigate it through advance preparedness. Preparedness means development, rehabilitation, restoration on one side and mitigation, rescue and relief on other side.

1.6 FORMULATION AND PREPARATION OF DISTRICT DISASTER MANAGEMENT PLAN:

The district disaster management plan of Dhubri, hereafter will be referred to as the plan which is a multi-hazard disaster management plan that assists and equips the district administration to organize its emergency preparedness for the pre, during and post disaster, so that response and mitigation functions timely and in an efficient manner within the district and also to extend the necessary support to the State and Central Governments. The District Disaster Management Plan includes the facts and figures that have been collected from various official and informal sources with a view to meeting the challenges during any natural and man-made disaster.

Collection and classification of data are to be updated twice in May and November every year. The plan has been prepared with the following viewpoints.

1. Contingency plan is a continuous process.
2. All are not equal in a crisis situation, giving emphasis on special vulnerable groups like economically weaker, sick and ailing, pregnant and lactating mother, old aged etc.
3. During relief measures social auditing ensures transparency.
4. Involvement of women is a must in the entire process.
5. Mitigation plan reflecting need based approaches from the grassroots level.
6. Well defined preparedness and response plan for the entire district.

1.7 OBJECTIVE:

The objectives behind the preparation of the District Disaster Management plan are:

1. To mitigate impact of natural and man-made disasters through preparedness at District level, Blocks, Gram Panchayat and Village level.
2. To provide effective support and resources to all the concerned individuals, groups and departments during disasters.
3. To assist the line department, Block administration, communities in developing compatible skills for disaster management.
4. To disseminate factual information in timely, accurate and tactful manner while maintaining necessary confidentiality.
5. To develop immediate and long term support plans for vulnerable people in/during disaster.
6. To create awareness among the people about hazard occurrences and increase their participation and preparedness, prevention, development, relief, rehabilitation and reconstruction process.
7. To have response system in place, to face any eventuality.

1.8 NECESSITY OF THE PLAN:

The plan establishes an administrative structure for a systematic, coordinated and effective response at the district level. The purpose of the plan is to-

- Define a system of coordination at the district level.
- Identify all the responder agencies at the district level, and assign functional responsibilities to each of them.
- Establishment of a central facility in the district, which enables all the responder's agencies to interact and coordinate their efforts.
- Suggest hazard specific preparedness, response and mitigation measures.
- Plan resource requirements and coordinate with state government for requisitioning more resources.
- Provide an inventory of resources, key facilities and addresses for deployment and assistance towards preparedness and mitigation.

Responding to an urgent call of society to paradigm change from the traditional practice of giving relief towards reducing the risk of disaster, the Govt. is emphasizing that at all level; primary role of Administration should be the preparedness, mitigation, reduction and response to a disaster based on community participation.

1.9 OVERVIEW OF THE DISTRICT:

GENERAL DESCRIPTION OF THE DISTRICT: DHUBRI

Overview

Dhubri is the administrative headquarters of the Dhubri District in Assam, India. Nestled on the banks of the mighty **Brahmaputra** and **Gadadhar** rivers, Dhubri is a historically significant town. Established as a **Municipal Board in 1883**, the town lies approximately **280 kilometers west of Guwahati**, the state capital. Historically, it was a prominent commercial hub, especially known for its busy river port handling **jute exports** during the British era.

Often referred to as the "**Land of Rivers**," Dhubri is uniquely surrounded by rivers on three sides, a blessing for trade and agriculture but also a source of recurrent floods.

Demographics

As per the **2011 Census of India**, Dhubri had a population of **109,234**:

- **Males:** 51%
- **Females:** 49%
- **Literacy Rate:** 74% (Male: 79%, Female: 68%)
- **Children under 6 years:** 11% of the total population
- **Religious Composition:** Approximately 75% of the population are **Muslims**, making Dhubri one of the **minority-concentrated districts** of India.

The population primarily comprises **Desi Goalpariya** people, both Hindu and Muslim. In Dhubri town, **Bengalis constitute about 50%** of the population. Historically, this region was a part of the **Koch Kingdom**.

Geographic Coordinates & Elevation

- **Latitude:** 26.1° N
- **Longitude:** 89.5° E
- **Elevation:** 34 meters above mean sea level

Education Institutions (Colleges)

1. **Bholanath College (B.N. College)** – Established in 1946, it is the oldest and most prestigious college in Western Assam.
2. **Dhubri Law College**
3. **Dhubri Girls' College**
4. **Dhubri B.T. College**
5. **College of Advanced Technical Studies (CATS)** – Established in 2009 to provide professional higher education.

Waterways & River Port

Historically, Dhubri hosted a **major river port** on the Brahmaputra, which served as a trading hub, especially during the British period. Although the port is currently inactive, it holds significant potential for future development in inland water transport and regional trade.

Transportation

Airport

- **Rupsi Airport**, located 23 km from Dhubri, was built during **World War II** for military purposes.
- After decades of dormancy, it resumed **commercial operations in 2021**, offering **daily flights** to **Guwahati** and **Kolkata** with 60-seater aircraft.

Railway

- Dhubri's railway connectivity declined after the **1947 partition**, but was restored in **2010** with new routes to **Siliguri** and **Guwahati**.
- **Originating trains:**
 - Dhubri–New Tinsukia Express (Tri-weekly)
 - Dhubri–Siliguri Intercity Express (Daily)
 - Dhubri–Guwahati Express (Daily)
- **Passing trains:**
 - Alipurduar–Silghat Rajya Rani Express (Tri-weekly)
 - Siliguri–Dhubri–New Bongaigaon DEMU Express (Daily)

Tourist Attractions

1. **Gurdwara Sri Guru Tegbahadur Sahib Ji**
2. **Panchpeer Dargah**
3. **Mahamaya Dham**, Bogribari
4. **Chakrasila Wildlife Sanctuary**
5. **Florican Garden**
6. **Matiabag Palace**, Gauripur
7. **Netai Dhubuni Ghat**, Dhubri Town
8. **Chandardinga Hillock**
9. **Dudhnath Mandir**, Salkocha
10. **Ramraikuti**, Satrasal
11. **WWII Airport at Rupshi**
12. **Soreswar Beel**, Rupshi
13. **Dhubri Match Factory**

Cultural Significance

Dhubri is often referred to as the "**Gateway of Assam**" and has been a melting pot of various **ethnic groups and cultures**. It boasts a rich heritage of **blended language, art, and religious practices**, influenced by local communities, invaders, and migrants over centuries.

Flood-Prone Areas

Dhubri is among the **most flood-prone districts** in Assam. The **monsoon season** annually brings widespread damage, particularly to low-lying areas.

Worst-Affected Areas:

- **South Salmara–Mankachar Subdivision:**
 - Especially **South Salmara Revenue Circle** and **Sukchar (Mankachar Circle)** face severe flooding and erosion.
- **Golakganj Revenue Circle:**
 - **Golakganj town** and **Pub-Kanuri** village suffer frequent flood and erosion from the **Gangadhar River**.
- **Bilasipara Subdivision:**
 - Repeatedly affected by **flash floods** from the **Gaurang River**, originating in Bhutan.

Location & Boundaries

- **Latitude:** 25°28' N to 26°01' N
- **Longitude:** 89°59' E to 90°28' E
- **Elevation:** 35 meters above sea level

Boundaries:

- **North:** Kokrajhar District, Assam
- **South:** Bangladesh and Meghalaya
- **East:** Goalpara and Bongaigaon Districts, Assam; Garo Hills, Meghalaya
- **West:** South Salmara-Mankachar District

Geographical Area

- **Total Area (Pre-BTAD reorganization):** 2838 sq. km (~19,06,643 Bighas)
- **Post-BTAD reorganization Area:** 2012 sq. km (~15,04,177 Bighas)

Land Classification:

1. **Char (Riverine) Areas:**
 - Located along the Brahmaputra in Dhubri Subdivision.
 - Most vulnerable to floods and erosion.
2. **Kaim (Permanent) Areas:**
 - Middle regions of the district, along **NH-31**.
 - Moderately flood-prone.
3. **High Land and Hilly Areas:**
 - Northern parts and border areas near **South Salmara**.
 - Least flood-prone regions.

ADMINISTRATIVE SETUP: DHUBRI DISTRICT

The **Dhubri district** is administratively divided into **Two Co District and one Sardar Sub-Divisions**. The district comprises a total of **8 Revenue Circles** and **983 Revenue Villages**.

Revenue Circle	Number of Revenue Villages
1. Dhubri	104
2. Gouripur	80
3. Golakganj	102
4. Agomoni	98
5. South Salmara (pt)	164
6. Chapar	115
7. Bilasipara	196
8. Athani	124
Total	983 Revenue Villages

1.10 LOCATION AND DISTRICT MAP OF DHUBRI

1.11 DEMOGRAPHIC PROFILE OF DHUBRI DISTRICT (Census 2011)

Description	Value
Actual Population	15,60,589
Population Growth	24.40%
Area (Sq. Km)	2,176
Population Density (per Sq. Km)	896
Proportion to Assam's Population	6.25%
Sex Ratio (Females per 1000 Males)	953
Child Sex Ratio (0–6 Age Group)	968
Average Literacy Rate	49.86%
Source	Internet (Census 2011)

1.12 COMMUNICATION NETWORK (ROAD / RAILWAY / RIVER / AIR)**1.12.1 ROAD NETWORK**

- **National Highway 31 (NH-31)** passes through Dhubri district from **Chapor to Chagolia**, covering approximately **112 km**.
- The district is connected to the **South Bank Subdivision** (South Salmara–Mankachar) through road and **ferry services** via Goalpara, facilitating the movement of people and essential commodities.

District-wise & Category-wise Road Length (PWD - Dhubri Rural Road Division)

Category	Length / Number
Total Length of Rural Roads	1,459.847 Km
Total Length of Urban Roads	59.08 Km
Total Length of New / Extension Roads	Nil
Total Road Length in Dhubri District 1,519.027 Km	
Total Number of Bridges	85 Nos.
RCC Bridges	Existing: 113 Nos. Under Construction: 20 Nos.
	Total RCC Bridges: 133

1.12.2 RAILWAY COMMUNICATION

- The **Northeast Frontier Railway (N.F. Railway)** line passes through both **Dhubri** and **Bilasipara subdivisions** via the **Parbatjhora Subdivision** of Kokrajhar district.
- The district is served by **5 Railway Stations**, covering a total **broad gauge (B.G.) track length of 59 km**.

1.12.3 ROAD MAP OF DHUBRI DISTRICT:**1.12.4 TIME/DISTANCE CHART FOR MOVEMENT BY LAND/RAIL**

	To (from Dhubri)	Distance (in Kms)		To (from Dhubri)	Distance (in Kms)
1	Gauripur	10	14	Golakganj	28
2	Panbari	23	15	Agomoni	39
3	Bilasipara	33	16	Bakshihat	55
4	Sapatgram	44	17	Cooch bihar	90
5	Kokrajhar	62	18	Alipurduar	100
6	Chapar	70	19	Siliguri	243
7	North salmara	97	20	Mankachar	293(via. Goalpara)
8	Bongaigaon	123	21	Mankachar	100 (by boat)
9	Goalpara	135	22	Hatsinghimari	258 (via. Goalpara)
10	Barpeta road	155	23	South Salmara	230 (via. Goalpara)
11	Barpeta	171	24	South Salamar	30 (by boat)
12	Nalbari	211	25	Sukchar	40 (by boat)
13	Guwahati	290	26	Fakirganj	25

1.12.5 AIR COMMUNICATION:

Rupshi-airport (now under BTAD) is situated about 15 km away from Dhubri town which was constructed during the last World War-II by the British Govt. exclusively for military operation. Number of private companies operated regular flights (Decota) carrying passengers as well as goods between Calcutta/Dhubri via Jalpaiguri/Coochbehar (West Bengal) after Independence. The Indian Airlines also operated regular air flights between Calcutta/Dhubri. At present the Airport is under the National Airport Authority of India and operational with regular flight to Guwahati and Kolkata.

DETAILS OF TEMPORARY HELIPAD IN DHUBRI DISTRICT:

Sl. No.	TEMPORARY HELIPAD (DROPPING ZONE)	CO-ORDINATE		NEAREST POLICE STATION
		LONGITUDE	LATITUDE	
1	BSF Panbari	26° 08' 44" N	90° 02 '47" E	Gauripur PS
2	Jhagrarpar Stadium	26° 01' 59" N	89° 58' 26" E	Dhubri Ps
3	Mela Ground	26° 01' 18" N	89° 59' 27" E	Dhubri Ps
4	Pratima Pandey Baruah Filed, Bilasipara	-	-	Bilasipara PS
5	Kamakhyabari Field, Near BSF Camp Kamakhyabari	25° 31' 26" N	89° 52' 35" N	Mankachar

1.12.6 RIVER ROUTE:

Communication with South Bank (South Salamara-Mankachar District) is river route and road via adjacent Goalpara district.

- A. Treasury Ghat B. Jogomaya Ghat C. Panchu Ghat D. Mahamaya Ghat
E. Free India Ghat

A river port is under construction under Inland Water Way Authority of India (IWWAI) Near Panchu Ghat, Dhubri Town.

Major Rivers in Dhubri District are Brahmaputra, Champabati, Gourang, Gadadhar, Gangadhar, Tipkai, Sankosh, Silai, Jinjiram

CHAPTER-II**TOPOGRAPHICAL DETAILS**

The unique geo-climatic condition of Dhubri district has made it a unique district compared to other districts of Assam. The mighty Brahmaputra flows through the district separating it into two parts- South- Salmara-Mankachar district in the South, Dhubri and Bilasipara Sub Division in the North Bank. The tributaries of the river Brahmaputra are Gangadhar, Gadhadhar, Gaurang, Tipkai, Champamoti in the North and Jinjiram, Jinari and Kaloo in the South bank which are the major contributors of high flood along with massive erosion in the district. Major Beels of the district are Sareswar, Tally, Dheer, Dhaka, Diplai etc. the Brahmaputra flows through a total length of 720 Km in Assam of which 88 Km lies in Dhubri district itself. The great river carries water collected by it from its up-streams from China and its tributaries of Arunachal and Assam through this district before it enters into Bangladesh in south-west.

2.1 CLIMATE AND RAINFALL:

The climate of the District is very damp and humid due to heavy rains and high temperature. June and July are the months with highest rainfall. Generally the period from May- end to October is considered as flood season.

Climate data for Dhubri													
Month	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Year
Average high °C (°F)	23 (73)	26 (79)	30 (86)	31 (88)	30 (86)	30 (86)	30 (86)	30 (86)	29 (84)	29 (84)	27 (81)	23 (73)	28.2 (82.7)
Average low °C (°F)	12 (54)	13 (55)	17 (63)	21 (70)	23 (73)	24 (75)	26 (79)	26 (79)	25 (77)	23 (73)	18 (64)	13 (55)	20.1 (68.1)
Precipitation mm (inches)	8 (0.31)	18 (0.71)	46 (1.81)	130 (5.12)	373 (14.69)	605 (23.82)	434 (17.09)	343 (13.5)	368 (14.49)	117 (4.61)	8 (0.31)	3 (0.12)	2,453 (96.58)

2.2 TEMPERATURE:

The temperature in the region begins to increase from end of February and reaches highest point during June and July. January is the coldest month of the year. The air is highly humid throughout the year and winds are light in the district. But some of the cyclonic storms and depressions from Bay of Bengal occur in the monsoon and post monsoon periods causes heavy rain. Thunder storms occur during the period from March to May. Fog occurs in the winter months. The complex physical features of this district also contribute a great extent to the occurrence of flood

Dhubri District Average Temperature in summer : 28.65 deg C

Dhubri District Average Temperature in winter : 17.82 deg C

2.3 MAJOR RIVERS AND TRIBUTARIES:

Major Rivers: Brahmaputra, Champabati, Gourang, Gadadhar, Gangadhar, Tipkai, Sankosh, Silai, Jinjiram

Name of the River/Tributaries	Origin	Length in Dhubri	Danger Level	Maximum Water Level
Brahmaputra	Tibbet	88 Km.	28.62 mtr. At Dhubri	29.91 On 30-06-2013
Gangadhar	Bhutan	33 KM,	29.94 mtr at Golakganj	30.80 On 20-07-2013

Name of the River/Tributaries	Origin	Length in Dhubri	Danger Level
Gadadhar	Bhutan	39 K m	--
Tipkai	Bhutan	28 Km	32.26 mtr. At Khoraghat
Gaurang	Bhutan	20 Km.	33.60 mtr. At Bilasipara
Champaboti	Bhutan	24 Km.	33.95 Mtr. At Bahalpur
Kaloo	Garo Hills	22 Km.	--
Jinjiram	Garo Hills	49 Km.	28.70 mtr. At Molakhowa

2.4 STORMS / CYCLONES:

The district often shares cyclonic storms with neighboring country Bangladesh which situated in the Bay of Bengal especially in the month of March, April & May. In recent past more than ten people lost their lives in 2010 due to cyclonic storms in the month of April and May.

CHAPTER-III

FORMULATION OF DISTRICT DISASTER MANAGEMENT AUTHORITY (DDMA) AND OTHER CRISIS MANAGEMENT TEAMS

3.1 DISTRICT DISASTER MANAGEMENT AUTHORITY (DDMA), DHUBRI:

Sl.no.	Designation	
1	The Deputy Commissioner , Dhubri	Chairman
3	The Additional Deputy Commissioner, DM, Dhubri	Chief Executive Officer
4	The Superintendent of Police, Dhubri	Member
5	The Joint Director, Health Service, Dhubri	Member
6	The Executive Engineer, PWD (RR), Dhubri	Member
7	The Executive Engineer, WR, Dhubri	Member
8	The District Agricultural Officer, Dhubri	Member

Besides, the following heads of departments are also nominated as co-operated members to attend the meetings of the Disaster Management Authority, Dhubri as special invitees.

1. The Chief Executive Officer, Zilla Parishad, Dhubri
2. The Project Director, DRDA, Dhubri
3. The Deputy Director, F.C.S. & C.A., Dhubri
4. The Deputy Controller, Civil Defence, Dhubri
5. The Sr. Manager, APDCL, (ASEB), Dhubri
6. The Executive Engineer, Irrigation, Dhubri
7. The Executive Engineer, PHE Division, Dhubri
8. The District Sports Officer, Dhubri

3.2 DISTRICT DISASTER MANAGEMENT TEAMS (DDMT), DHUBRI:**3.2.1 EARLY WARNING TEAM:**

Sl.No.	Designation	Department/Agency
1	ADC, D.M.	District Administration
2	S.P. Dhubri	Police
3	Project Director, DRDA, Dhubri	DRDA
4	Executive Engineer	Water Resource
5	DIPRO, Dhubri	DIPRO
6	IMD, Dhubri	IMD, Dhubri
7	S.D.O. (Civil), South Salmara-Mankachar-Hatsingimari	Sub-Division

DISTRICT DISASTER MANAGEMENT PLAN 2025

8	S.D.O. (Civil), Bilasipara	Sub-Division
9	C.O., Dhubri Rev. Circle	Revenue Circle
10	C.O., Golakganj Rev. Circle	Revenue Circle
11	C.O., Agomani Rev. Circle	Revenue Circle
12	C.O., Chapar Rev. Circle	Revenue Circle
13	C.O., Bilasipara Rev. Circle	Revenue Circle
16	O/C APRO, Dhubri	APRO

LIST OF NODAL OFFICERS CONCERNED LINE DEPARTMENTS

<i>Sl No.</i>	<i>Name Of The Nodal Officer</i>	<i>Department</i>	<i>Designation</i>	<i>Contact Number</i>
1	Atabur Hussain	Ex. Eng Dhubri Golakganj Division Irrigation	Asstt Ex- Engineer	8811896320
2	Farek Uddin Ahmed	Dist Depity Registrar Of Co-Op Societies, Dhubri	Sr. Insp/Auditor Of C.S	7002947209
3	Anupoma Gohain	Social Welfare	Icds Dhubri Town & Birsing - Jaerua	9365019863
4	Minu Bala Brahma	Social Welfare	Icds Gauripur	6900654075
5	Jytoshna Swargoyary	Social Welfare	Icds Golakganj	9101620157

8	Ratul Roy Choudhury	Social Welfare	Icds Chapor-Salkocha	8638381907
9	Jeni Marme	Social Welfare	Icds Gauripur Town	8134012575
10	Raj Pratim Das	Water Resources	Asstt Engineer	6000911845
11	Abu Bakkar Siddique	Executive Officer, Municipal Board Golakganj	Financial Management Officer Golakganj Municipal Office	9957797447
12	Manash Pratim Goswami	Executive Officer, Municipal Board, Dhubri	Urban Technical Officer	8447988212
13	Ashit Kumar Sarkar	Co-District Commissioner, Bilasipara	Asstt Engineer	7002956633
14	Asharaf Uddin Ahmed	Executive Engineer,Pwd Tr Division, Dhubri	Asstt Ex- Engineer	9435126456
15	Khorsing Engti Kathar	Deputy Controller,Civil Defence,Dhubri	Assistant Deputy Controller Cd (Jr)	6003481877
16	Mithun Roy	Sr. Station Officer, Fire & Emergency Services, Dhubri	Senior Station Officer	8638529355
17	Jyotimay Barua	Executive Officer,	Urban Technical	7002403858

		Municipal Board , Gauripur	Officer	
18	Narayan Medhi	Aee,Iwt,Dhubri	Sectional Officer	9859105180
19	Nur Islam	Executive Engineer,Pwd Tr Division, Bilasipara	Asstt Engineer	8638799562
20	Hirok Jyoti Roy	Agm, Apdcl, Gauripur	Sde Dhubri	9864318744
21	Priyam Protim Bhuyan	Executive Engineer, Phe, Dhubri	Asstt Executive Engineer (Phe),Dhubri Sub Division	7002745960
22	Pulak Basak	Executive Engineer, Phe, Dhubri	Asstt Executive Engineer (Phe), Bilasipara Sub Division	9706600404

3.2.2 SEARCH & RESCUE TEAM:

Sl.No.	Designation	Department/Agency
1	S.P. Dhubri	Police
2	District Commandant, Home Guard, Dhubri	Home Guard
3	Deputy Controller, Civil Defence, Dhubri	Civil Defence
4	Station Officer, Dhubri Fire Station	Fire Service
5	Station Officer, Chapar Fire Station	Fire Service
6	Station Officer, Bilasipara Fire Station	Fire Service
7	Executive Engineer, PWD (RR), Dhubri	PWD (RR)
8	Executive Engineer, PWD (B), Dhubri	PWD (B)

3.2.3 FIRST AID TEAM:

Sl.No.	Designation	Department/Agency
1	Joint Director, Health Services, Dhubri	H & FW
2	Deputy Controller, Civil Defence, Dhubri	Civil Defence
3	District Social Welfare Officer, Dhubri	Social Welfare
4	District Veterinary Officer, Dhubri	Veterinary

3.2.4 SHELTER MANAGEMENT TEAM:

Sl.No.	Designation	Department/Agency
1	ADC, D.M., Dhubri	District Administration
2	Project Director, DRDA, Dhubri	DRDA
3	C.O., Dhubri Rev. Circle	Revenue Circle
4	C.O., Golakganj Rev. Circle	Revenue Circle
5	C.O., Agomani Rev. Circle	Revenue Circle
6	C.O., Chapar Rev. Circle	Revenue Circle

7	C.O., Bilasipara Rev. Circle	Revenue Circle
8	Addl. S.P., Dhubri	Police
9	District Transport Officer	Transport
10	Inspector of Schools, Dhubri	Education
11	District Elementary Education Officer, Dhubri	Education
12	Executive Engineer, PWD (B), Dhubri	PWD (Buiding)
13	Executive Engineer, ASEB, Dhubri	Electricity

3.2.5 WATER & SANITATION TEAM:

Sl.No.	Designation	Department/Agency
1	Chief Executive Officer, Zila Parishad, Dhubri	Zila Parishad
2	Project Director, DRDA, Dhubri	DRDA
3	Executive Engineer, PHE, Dhubri	PHE
4	Executive Engineer, Irrigation, Dhubri	Irrigation
5	E.O., Dhubri Municipal Board	Municipality
6	Chairman, DMB	-do-
7	Chairman, DGDA	-do-

3.2.6 RELIEF COORDINATION TEAM:

Sl.No.	Designation	Department/Agency
1	ADC, D.M., Dhubri	District Administration
3	S.D.O. (Civil), Bilasipara	Sub-Division
4	S.P. Dhubri	Police
5	Deputy Director, F.C.S. & C.A., Dhubri	F.C.S. & C.A.

11	District Transport Officer	Transport

3.2.7 DAMAGE ASSESSMENT TEAM:

Sl.No.	Designation	Department/Agency
1	ADC, D.M., Dhubri	District Administration
2	ADC, Revenue, Dhubri	District Administration
3	Project Director, DRDA, Dhubri	DRDA
4	S.D.O. (Civil), South Salmara-Mankachar-Hatsingimari	Sub-Division
5	S.D.O. (Civil), Bilasipara	Sub-Division
6	C.O., Dhubri Rev. Circle	Revenue Circle

7	C.O., Golakganj Rev. Circle	Revenue Circle
8	C.O., Agomani Rev. Circle	Revenue Circle
9	C.O., Chapar Rev. Circle	Revenue Circle
10	C.O., Bilasipara Rev. Circle	Revenue Circle

3.2.8 TRAUMA COUNSELING TEAM:

Sl.No.	Designation	Department/Agency
1	Joint Director, Health Services, Dhubri	H & FW
2	Deputy Controller, Civil Defence, Dhubri	Civil Defence
3	District Social Welfare Officer, Dhubri	Social Welfare
4	Indian Red Cross Society, Bilasipara	Indian Red Cross Society

3.2.9 CARCASS DISPOSAL TEAM:

Sl.No.	Designation	Department/Agency
1	S.P., Dhubri	Police
2	C.E.O, Zila Parishad, Dhubri	Zila Parishad
3	Chairman, DMB,	Development Authority
4	Chairperson (Gauripur, Bilasipara, Chapar & Chaptgram T.C)	Town Committee
5	Chairman, DGDA	Development Authority
6	District Veterinary Officer, Dhubri	Veterinary
7	District Fishery Dev. Officer, Dhubri	Fishery

3.2.10. PATROLLING TEAM:

Sl. No.	Designation	Department/Agency
1	S.P., Dhubri	Police
2	District Commandant, Home Guards	Home Guards
3	C.O., Dhubri Rev. Circle	Revenue Circle
4	C.O., Golakganj Rev. Circle	Revenue Circle
5	C.O., Agomani Rev. Circle	Revenue Circle
6	C.O., Chapar Rev. Circle	Revenue Circle
7	C.O., Bilasipara Rev. Circle	Revenue Circle

3.2.11 SUB-DIVISIONAL RELIEF COMMITTEE

Sl.No.	Designation	Department/Agency	
1	The Deputy Commissioner, Dhubri	District Administration	Chairman
2	The Addl. Deputy Commissioner (DM), Dhubri		Member Secy
3	The Superintendent of Police, Dhubri	Police	Member

DISTRICT DISASTER MANAGEMENT PLAN 2025

4	The C.E.O., Zila Parishad, Dhubri	Zila Parishad	Member
5	The Project Director, DRDA, Dhubri	DRDA	Member

17	The Executive Engineer, Irrigation, Gauripur	Irrigation	Member
18	The Asst. Executive Engineer, Irrigation, Bilasipara	Irrigation	Member
19	The Executive Engineer, PHE, Dhubri	PHE	Member
20	The Divisional Forest Officer, Dhubri	Forest	Member
21	The Circle Officers of the respective circle	Civil Administration	Member
22	The BDOs of respective developments block	Civil Administration	Member
23	Local MLAs of respective LACs		Member
24	The President of Zila Parishad	Zila Parishad	Member
25	The ZP Members of the respective MDCs	Zila Parishad	Member
26	The Chairman, Dhubri- Gauripur Development Authority, Dhubri	Development Authority	Member
27	The General Manager, FCI, Dhubri	FCI	Member
28	The Hony. Secy. Indian Red Cross Society, Dhubri	Indian Red Cross Society	Member
29	The Chairman, Municipal Board, Dhubri	Municipality	Member
30	The Chirman of respective Twon Committies (four)	Twon Committee	Member
31	The District Youth Co-ordinator, NYK, Dhubri	NYK	Member
32	The Sectional Officer, IWT, Dhubri	IWT	Member
33	Representative of leading NGOs	NGO	Member

CHAPTER-IV**HAZARD, RISK, VULNERABILITY AND CAPACITY ANALYSIS**

Dhubri is a multi-hazard disaster prone district. The history reveals that flood is a recurring disaster of Dhubri but presently along with flood massive erosion is occurring every year. Moreover, cyclone and thunder storms also lead to great losses in this district. As per the Vulnerability Atlas of India developed by Ministry of Urban Development and Poverty Alleviation and BMTPC, India, the whole Dhubri district is situated in the wind and cyclone high damage risk zone ($V_b = 47$ m/s). Moreover, some parts in the middle and south corner of the district are in wind and very high cyclone damage risk zone-A ($V_b = 53$ m/s). In addition to that, the whole district is located in zone V i.e. earthquake very high damage risk zone (MSK IX or more) and also liable to high flood.

Under Golokganj Revenue Circle, Golokganj Town and Pub-Kanuri village are affected by flood and erosion of river Gangadhar. Bilasipara Sub-Division is mostly affected by flash floods of River Gaurang originating from Bhutan.

This can be evident from the incidents of natural disaster, which have occurred in Dhubri district since last fifty years. The recurring occurrence of natural disaster almost in every year causes a great havoc and disrupts the normal function of the district.

4.1 SOME MAJOR CYCLONIC STORMS OCCURRED IN RECENT PAST**(I) GREAT CYCLONE OF KALDOBA**

This massive cyclonic storm took place on 5 Baishakh, Friday, 1370 Bangla Year (1964, April) at around 4 P.M. which affected Kaldoba and nearby villages of Agomoni Revenue circle. As per unofficial source the death toll of that disaster was around three thousand.

(II) CYCLONIC STORMS OF 2010

Several cyclonic storms rocked the district in the month of April 2010 in which thousands of houses collapsed and twelve (12) persons lost their lives.

4.2 DISASTER SPECIFIC HISTORY OF THE DISTRICT:

Sl. No.	Disaster Events	Year of Occurrence
1	Earthquake	1870, Great Assam Earthquake 1950, Dhubri Earthquake 1930, 2011
2	Flood	1950, 1954, 1957, 1962, 1968, 1974, 1980, 1984, 1987, 1988, 1998, 2002, 2003, 2004, 2011
3	Cyclone & Thunder Storms	2003, 2010
4	Draught	2006, 2009
5	Fire Accident	2011
6	Boat Accident	2012 (30-04-2012) Medartary.

HISTORY OF FLOOD IN DHUBRI

Year of occurrence	Intensity of Disaster
1950	Very high flood with severe earthquake.
1954	High flood.
1957	High flood.
1962	High flood.
1968	High flood with severe landslides from Bhutan.
1974	Very high flood, semi famine condition. His Excellency the President of India visited Relief Camps.
1980	High flood.
1984	High flood.
1987	High flood.
1988	Highest flood level recorded (30.36 mtre.)
1998	High flood (29.98 mtrs.)
2002	High flood (30.11 mtrs.)
2003	Cyclone and Thunder storms
2004	High flood (30.07 M on 13-07-2005).
2010	Severe thunder storms.
2011	Flood {29.02 (24-07-2011)}
2012	High flood (29.91 Mon 30-06-2012).
2013	29.30 M date 10-09-2013
2014	29.75 M date 29-08-2014
2015	29.66 M date 05-09-2015
2016	29.91 High Flood
2017	Brahmaputra(29.87 date:16.8.2017), Gangadhar(30.60 date: 10.7.2017)
2018	29.96
2019	Highest flood level recorded (30.37 mtre.)
2020	High flood (30.02)
2021	29.52
2022	29.60
2023	29.48
2024	29.95

4.3 FLOOD HAZARD MAP OF DHUBRI DISTRICT

4.4 SEASONAL HAZARD ANALYSIS / HAZARD CALENDER:

Type of Hazard	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Flood					←	←	←	←	←	←		
Bank Erosion					←	←	←	←	←	←	←	
Earthquake	←	←	←	←	←	←	←	←	←	←	←	←
Cyclone/Storms			←	←	←	←	←	←	←			
Drought					←	←	←	←	←	←		
Fire Incident	←	←	←	←	←	←	←	←	←	←	←	←
Landslide						←	←	←	←			

4.5 LIST OF WEAK AND VULNERABLE EMBANKMENTS:

- Protection of Dhubri Town by constructing 5 Nos. of stone spurs and 13 Nos. of timber spurs constructed in the year 1970-75.
- Dhubri-Patamari Road cum bund for a length of 10.50 km. in the year 1965.
- Molakhowaghat to Kathalbari for a length of 3.00 km. in the year 1999.
- Ringbund at Kumarganj
- Three nos. of land spurs at Agomani.
- Golakganj to Bishnodoi

CHAPTER–V**MITIGATION PLAN**

Pre-disaster planning consists of activities such as disaster mitigation and disaster preparedness. Disaster mitigation focuses on the hazard that causes the disaster and tries to eliminate or drastically reduce its effects. The best example of mitigation is the construction of embankments and construction of proper drainage system in flood prone areas to avoid floods.

The other example includes retrofitting of weak buildings to make them earthquake resistant. Preparedness focuses on plans to respond to a disaster threat or occurrence. It takes into account an estimation of emergency needs and identifies the resources to meet the needs. The first objective of the preparedness is to reduce the disaster impact through appropriate actions and improve the capacity of those who are likely to be affected most. The second is to ensure that ongoing development continues to improve the capacities and capabilities of the system to strengthen preparedness efforts at community level. Finally it guides reconstruction so as to ensure reduction in vulnerability. The best example of preparedness activities are the development of community awareness and sensitization system through community education and administrative preparedness by way of stockpiling of supplies, developing emergency plans for rescue and relief.

5.1 SPECIFIC DISASTER MITIGATION MEASURES:**5.1.1 EARTHQUAKES MITIGATION:**

Dhubri district falls under earthquake zone-V so following mitigation measures should be taken to reduce the impact of earthquake:

- Adoption of building codes for new construction in various areas.
- Public utility buildings must be located in stable areas or stiff soil.
- Retrofitting of weak structures.
- Relocation of people settling in the steep slope areas and near the river bank.

5.1.2 FLOOD MITIGATION:

Flood mitigation refers to the measures aimed at prevention and preparedness. It reduces the actual or probable impact of floods on the people and their environment. The objective of flood mitigation is to control changes in the volume of run-off, peak stage of the flood, time of rise and duration of floodwaters, and location of flooding. The mitigation measures should be oriented to take proper care of these problems and thus will automatically reduce the impact of flood in the district. The various measures adopted for flood mitigation may be categorized in two groups structural and non-structural.

STRUCTURAL

- Construction of embankments/floodwalls along the river bank and improvement of the channel (by WRD).
- Construction of drainage system in the Dhubri town and other parts of the district (by PWD/UD).
- Diversion of flood water (by WRD).
 - Careful location of new facilities, particularly community facilities such as schools, hospitals and other important infrastructure away from flood prone areas.

NON-STRUCTURAL

- Collection of daily rainfall data (by WRD).
- Flood forecasting and warning (by WRD & General Administration).
- Prepare detailed floodplain map of the district, based on extent of land submerged, and assessment of damages. Analyze how the pattern of flooding has changed over a period of time (by WRD & GA).
- Plantation in the catchment areas to check soil erosion (by forest dept),
- Preparation of DDMP and awareness programme.

5.1.3 CYCLONIC STORM:

Dhubri district is frequently strike by cyclonic storm during pre-monsoon season causing widespread damage to the crop and other properties. The main mitigation strategies for storm hazards are a well informed public and an effective warning system. The following mitigation measures can be adopted to reduce the impact of cyclonic storm.

- ❖ Location of key facilities in leeward sides of hill/less vulnerable areas (by District Administration and Land Management).
- ❖ Planting wind breaks in the most vulnerable locations (by DFO).
- ❖ Construction of strong wind safe public buildings which can be used for community shelter in settlements (by UD & PWD).
- ❖ Crops can be protected by introducing agricultural practices and cultivation of those crops which are more resistant to high winds.
- ❖ Compilation of meteorological data for forecasting of storm (by Deptt. concerned).
- ❖ Public dissemination of information through mass media, poster campaigns and village meetings (by Dist. Administration).

5.1.4 FIRE ACCIDENT MITIGATION:

The following mitigation measures may be taken up to contain fire accident:

- ❖ Installation of fire extinguisher cylinders in all institutions (by concerned institute).
- ❖ Construction of fire hydrant in fire prone areas (by PHED/Police/DA).
- ❖ Installation of fire warning systems in community facilities such as in school and hospitals (by concerned institute).

- ❖ No attachment of thatch houses in govt. buildings (by DA).
- ❖ Awareness about the causes of fire accident in rural areas and motivate the villagers to construct their houses at sufficient distance from one another (by DA).

5.1.5 EPIDEMICS:

The Health Department and veterinary Department are the nodal agency responsible for monitoring and control of epidemics. Mitigation measures for control of epidemics would include:–

- ❖ Identification of areas prone to certain epidemics must be updated to access field requirements (by DMO & DVO).
- ❖ Testing laboratories in district hospital must be well equipped and updated (by DMO).
- ❖ Regular flow of data from both govt. establishment and NGOs run hospitals (by DA).
- ❖ Analyzing and collating the data at regular intervals to access epidemiological monitoring requirements (by DMO/DVO).
- ❖ Awareness campaign to the PRI members and the villagers about various kinds of disease and their causes that are prevalent in the area (by DMO/DVO/DA).

5.1.6 ROAD ACCIDENTS:

Many lives were lost and casualties are reported annually due to road accident, which is cause due to reckless driving and poor road conditions. The following measures may be adopted to mitigate road accidents: -

- ❖ Opening of traffic model school in every district.
- ❖ Installation of speed monitoring machine in busy areas (by Transport Department, police).
- ❖ Strict implementation of motor vehicle Act (Transport Department, Police).
- ❖ Installation of traffic sign boards (by Police).
- ❖ Carry of First Aid Box in every vehicle must be made mandatory (by Police/DTO (transport)).
- ❖ Insurance of all vehicles must be updated (by Police).
- ❖ Awareness about traffic rules should be imparted to all drivers and commuters through IEC (by police).

CHAPTER-VII

7.1 CO-ORDINATION STRUCTURE AT DISTRICT LEVEL

INCIDENT RESPONSE SYSTEM

(EARLY WARNING & DISSEMINATION)

1.2 EMERGENCY RESPONSE STRUCTURE:

Sl.No.	Officials	Responsibilities
1	Deputy Commissioner	• Emergency meeting • Overall disaster management • Fixation of responsibilities to different officials • Instruction to block level officials
2	Superintendent of Police	• Interaction with Deputy Commissioner and other official regarding situations • Placement of Forces for relief operations
3	Joint Director, Health	• Stock & storage of medicine at different points as well as in sub points. • Charge distribution & deployment of staff for speedier health services. • Temporary distribution points as well as setting up of delivery mechanism. • Vehicle deployment and establishes of mobile Vans/Ambulances.
4	Emergency Officer	• Control Room and allied functions. • Collection of statistics & compilation of reports and returns.
5	C.S.O	• Collection & diversion of food and other materials for affected area. • Stock position and different locations.
6	Fire Officer	• Deployment of Fire Brigade in case of fire accident.
7	DTO/MVI	• Requisition of vehicle • Allocation of duty to vehicle and issue POL
8	DIPRO	• Information and communication facilities. • Warning dissemination. • Setting of temporary installation of communication.
9	DDO/DSWO	• Allocation of duty to area to voluntary organization after consultation with collector. • Organizing relief materials for resource tracking.
10	DFO	• Information sharing to line officials.
11	EE, PHE	• Updation of the situation.

CHAPTER-VIII

CHECKLIST FOR EFFECTIVE DISASTER MANAGEMENT
(DISTRICT EMERGENCY OPERATION CENTRE, DEOC)

8.1 CHECKLIST FOR DEPUTY COMMISSIONER / EMERGENCY OFFICER:**8.1.1 PREPAREDNESS & MITIGATION:**

1. Once in a quarter checks that the data base for multi hazard district DM plan is updated. The ADC, (Rev) / DEOs to update & report to collectors on 10th of April, July, October & January every year.

2. Once a month check that all equipment in the District Control Room (presently renamed as DEOC) is functional & the maintenance is carried out as per the maintenance manual of each equipment (each equipment like SAT phone, VHF-radio set, FAX, computer with printer & E-mail, generator, telephone, mobile phone & any other equipment in DCO must have a maintenance manual & all records on maintenance up to date duly authenticated with of DEO). All the boards, maps, charts, registers & documents are laid out as per the SOP (SOP must give out every aspect of DCO in great details including duties & responsibilities of each functionaries, clear guide lines for handling & maintenance of all equipment, check list of all maps, boards & charts, registers, documents & manuals etc). An inspection register will be maintenance for this purpose & the DEO after each inspection will enter the date of inspection, name & sign.

3. Monthly review meeting of all line deptt in respect of all disaster preparedness & mitigation activities like strengthening of embankments, construction/strengthening of vulnerable roads, construction of multi purpose safe shelters, installation / renovation/ repair of tube wells with raised platforms for drinking water, arrangements for stocking of relief materials, medicines, hygiene& chemicals before flood season.

4. Fresh Training for all newly posted /refresher training of all old officials in disaster management, who are part of DMC & DMT to be carried out in a planned manner once a year. A register will be maintained in the DMIC where the names of trained personnel will be recorded giving the dates of training duly signed & authenticated by the DEO. Whenever the officer is posted out a note to this effect will be recorded in his/her relieve order giving the details of training attended so that the person is available in the new location for disaster management duplication of effort for training is avoided.

5. Training of officials who will man the DMIC in the 24-hour cycle for the entire disaster season to be completed in time

6. The NGO/volunteers/NCC/NSS/NYKS/Zilla Sainik Board meetings are held every month & their activities especially for DM is fully co-ordinated based on their experience & expertise. The area

of each NGO should be clearly known to each NGO as well as dist admin. The activities to be co-ordinated right upto village level. The list of NGOs/specialized NGOs/Volunteers to be available in the area of operation from village to dist a master list giving details of each area to be maintained in the DMIC.

7. Lat-Long of vulnerable areas, schools/shelters, helipads& dropping zones should be available with the DCO.

8. Awareness campaign strategy before the disaster season in terms of warning dissemination procedures, individual/house hold safety tips etc planned.

9. Co – ordination meeting of stockists is held every quarter emergency level of stocks to be maintained by each stockist for food stuff, medicines, blood, kerosene, diesel, petrol, house hold goods of daily use like candles, match boxes etc are updated in the data base.

10. Meeting of transporters is held every quarter & database of transport requirement, the minimum number of vehicles to be provided by each transporter is up dated.

11. Media Management awareness Campaign Strategy meeting to be reviewed every six months for co-ordinate & implemented before every disaster season actual disaster periods.

8.1.2 PRIOR TO COMMENCEMENT OF DISASTER SEASON:

1. The multi hazard disaster management plans of the dist to be completed in all respects with latest up to date database. Certified reports to be submitted by BDOs that all village, GP & block DM plans with up to date database are ready.

2. Fully equipped & operational DMIC equipments are checked for functionality. Communications tested & established with IMD, Revenue DMIC or SRC DMIC, Blocks. All batteries are fully charged & generator sts at DMIC/DCO put to trial run for atleast continuous 2 to 4 hours. Report to the extent that all actions are complete the DMIC & its equipments are fully operational is given to Collector by ADC(Rev.)/ DEO.

3. All members of dist DMC & DMT are fully trained made aware of their roles responsibilities as per the DM plan. Certified report from BDOs to collectors on the above for the villages, GPs Block.

4. All persons to man the DMIC are fully trained & aware of their responsibilities.

5. Duty roaster for DMIC prepared all concerned informed.

6. All storage godowns & safe shelters of all the vulnerability pockets are cleaned, maintained, fully stocked as per the DM plans. Certified fortnightly reports to this effect given by BDOs to the collector in respect of all villages, GPs blocks.

7. Meetings of dist, block, GP village DMCs are conducted all functionaries fully apprised of their roles as per the DM plans.

8. All equipments like boats, dozers, earthmovers, road clearance equipment setc are operational placed at most vulnerable points by the concerned line departments/DEO in consultation with the collectors as per the appreciation carried out in the DM plan

9. Preparedness activities of all line departments like strengthening of embankments, sinking/repair of tube wells & ensuring raised plat forms/raised grounds so that they do not get submerged, stocking of medicines allocation of medical/para-medical staff as per the DM plan, operationalization flood gauges rain gauges with communication facilities etc are completed in all respects certified completion report submitted to the collector.

10. Mock drills conducted at all levels report furnished to dist collector.(some Govt officers are designated for each mock drill who supervise & report to the authority with recommendations for any additions /deletions.)

11. Co-ordination with the NGO is complete each NGO is aware of their areas of operation level of participation.

12. Co-ordination meeting of all the stockiest held & each one given the level of emergency stocks that they have to maintain during the disaster season (dry foods, kerosene, patrol, diesel.,medicines,blood,candles,match boxes, daily house hold items etc.

13. Awareness campaign launched as per plan.

8.1.3 ON RECEIPT OF WARNING:

72 HOURS PRIOR (All are warned, normal activities to continue, movement of vulnerable community like fisher men are restricted if special warnings issued)

1. DMIC activated made functional on 24-hour cycle. Message IN OUT registers are maintenance collectors kept informed on minute-to-minute basis.

2. Exact details of the implications of the warning checked from the IMD Revenue DMIC.

3. Warning with clear directions for the Govt officials, PRI members, the communities especially for the vulnerable community like the fishermen are passed through the fastest means of communication checked back for accuracy at the other end.

4. Duplicated communication is established with the Revenue DMIC, SRC, and IMD all the blocks.

5. Meeting of the DMC, line depts. & PRI members involved in DM is held clear directions for each one's responsibilities are spelt out as per the DM plan

6. Warning issued to disaster managers to check their men, material & equipments as per the checklist vulnerable communities check their response mechanism as per the household & individual checklist in accordance with DM plan.

7. Stocking of all safe shelters is checked & those NOT stocked are immediately stocked.

8. Strengthening of all individual & community houses completed.

9. Areas for animals cleaned & re earmarked if required. Animal fodder & feed stocking done.

8.1.4. 48 HOURS PRIOR TO DISASTER:

(Preparation to move by disaster managers& vulnerable community commences& out door movement in most vulnerable areas restricted if warnings received)

1. All the equipments of the DMIC especially the communication equipments are thoroughly checked all back-up battery fully charged positioned. Generator sets are re checked for functionality fuel checked stored properly.

2. Connectivity status of each block, vulnerable point's rechecked chart at DMIC up dated with information to Revenue DMIC. Duplicated communication including police channels tested.

3. All the stockiest are warned to keep assured level of stocks to move at short notice.

4. All transporters warned to keep the assured vehicles to be hired at short notice.

5. All rescue & Evac eqpt moved to most vulnerable pockets located in far-flung areas.

6. All disaster managers complete preparations to move. Disasters managers with men, materials & eqpt moved to inaccessible pockets.

7. All preparations for move to safe shelters by vulnerable community completed.

8. All dist admin for mutual aid scheme complete preparations as per checklist to move men, material & eqpts.

2. All NGOs/volunteers/NCC/NSS/NYKs/Dist sainik board personnel briefed about their area of operations & ready to move. Move to inaccessible pockets starts.

8.1.5. 12 HOURS PRIOR:

(Move to safe shelters by vulnerability community, move of disaster managers & volunteers with complete eqpt, material& men completed to designated vulnerable areas & out door movement restricted).

1. All vulnerable personnel are asked to shift to safe shelter.

2. All the task forces are put into operation.

3. All the NGOs & volunteers are put into operation as per their area of responsibility & their activities monitored through the concerned Govt officials.

4. The stockiest warned to keep their stocks ready to move at short notice.
5. Media/public briefing systems activated on 6hourly basis.
6. The transports as per the plan are hired as per requirement. Other transport is kept warned in a state of readiness.
7. The progress is constantly monitored.
8. The dist not likely to be affected & planned to provide mutual aid during disaster stage forward their resources & operationalise their support process.
9. In case of a warning that the cyclone has abated or changed course the same should be confirmed from authentic sources like the IMD or Revenue Control room & information passed to all to stand down.
10. In most vulnerable pockets OIC disaster site/incident commanders notified.

2.2 ACTIONS ON DISASTER:

1. Nominated incident commanders/OIC disaster site at each of the sites start operations to supervise rescue& Evac, relief & restoration operations
2. Co-ord all activities through incident commanders/OIC disaster site.
3. Those requiring immediate medical treatment are moved to dist/medical college hospitals as per the priority of evacuation spelt out by the attending doctors.
4. The incident commanders/OIC disaster site assisted by the PRI members/ NGOs carry out an immediate assessment after reconnoiter & survey to identify the damages, casualties, gaps/short falls in terms of food, water, medical aid, clothing, shelter & send the demand to the DMIC.
5. The men, material & resources are moved as per the requirements & priority laid out by the OIC/ incident commander & short falls are moved from the other dists/state..
6. Temporary shelters, kitchens, water points are organised & operationalised.
7. Sanitary checks & disease surveillance are put into operation.
8. Arrangements for animal camp & fodder organised.
9. Carcass disposal teams if required are activated.
10. A detailed assessment is carried out for damage, casualties, resource shortfall by deploying additional officers with support from the NGOs/Volunteers, PRI &community after reconnoiter & survey.
11. Continuous flow of information & State authorities kept informed of latest details.

2.3 POST DISASTER ACTIVITIES:

(Depending on the situation but preferably after three days)

1. Community encouraged returning to their houses at the earliest.
2. Assistance in terms of food material, medicines, and clothing, cooking utensils provided to the affected population controlled through DMIC & incident commander/OIC of the disaster site.
3. All stores & materials are moved as per the detailed assessment & distributed under the supervision of Govt officers, volunteers, PRI members & responsible representatives from the community.
4. All drinking water sources are disinfected & activated.
5. Disinfections of the disaster site carried.
6. Disease surveillance to check occurrence of epidemic if any & preventive measures.
7. Trauma counselling if required is carried out for affected population.
8. A team of Govt officials, PRI, NGOs/ local senior citizens consisting of specialists from all fields is immediately asked to prepare a detailed report starting from the activities from pre disaster season to the disaster & post disaster period bringing out all aspects of preparedness, response, restoration, rehabilitation, the detailed causes of damages &, casualties & deficiencies noticed in the plan. The detailed report must be completed in all respects & submitted within 30 days

8.4 POINTS FOR CONTINUOUS PLANNING, INNOVATIVE THINKING & IMPLEMENTATION:

1. All developmental plans approved by dist/block authorities are checked from disaster mitigation angle.
2. Continuous planning & execution of plans for providing sustainable livelihood for most vulnerable communities.
3. Implementation of the coastal eco system management is continuously monitored & all violations checked.
4. Alternate safe housing technology along with rainwater harvesting structures is constantly encouraged & mainstreamed for long-term vulnerability reduction.
5. Continuous Awareness campaign & encouragement for Disaster proof Habitat planning at community level including shifting from low lying areas to safe raised grounds.(with some incentives if feasible).
6. Disaster management including first-aid & rescue & evacuation as a compulsory part of school, college, educational institutions (both techno-tech) curriculum starting from primary level.
7. Equipping each PHC/CHC/District hospitals to provide training in first-aid round the year & making it compulsory for all citizens to learn first-aid. (Test on first-aid compulsory for any entrance

exam including entry into +2 level college/school, as part of test for driving license for two wheeler up wards etc)

8. One centre school/college in each GP, two at block & four at dist equipped to provide training in rescue & evacuation round the year.

CHAPTER-IX

STANDARD OPERATING PROCEDURE (SOPs)

9.1. EARLY WARNING MEASURES BY WATER RESOURCES DEPTT. : **PRE-DISASTER**

- 1) Visit to generally flood affected areas and classify the different areas and localities of the district on the basis of vulnerability.
- 2) Re-prepare and update the map if there be any change in classification of areas shown in the map prepared for generally flood affected areas and location of flood protection structures.
- 3) Digging of link drains and other drains to prevent water congestion in localized depressions.
- 4) Construction of bunds or repair to bunds to protect agricultural lands against floods.
- 5) Prepare detailed plans and estimates for works as per requirement.
- 6) Render necessary technical assistance to the District Administration in execution of works.
- 7) Prepare tentative list of flood control personnel for flood fighting, patrolling on embankments, dykes and other flood protection structures.
- 8) Arrange Tools & equipments and other flood fighting articles and store in suitable places.
- 9) Arrange materials for erecting temporary sheds at the worksites for the workers and keep all departmental vehicles, boats and launches in fit-foroperation condition.
- 10) Complete short-term, emergent flood protection measures such as drains, closing of breaches, construction of retirement bunds, anti-erosion measures etc.

DURING-DISASTER

- 1) Follow the flood warning system as per ARM-1976.
- 2) Start vigorous patrolling along embankments, dykes and other flood protection structures as soon as the river reaches one meter of the danger level.
- 3) Keep close touch with the District Administration.
- 4) Examine physical conditions of the embankments, dykes and ensure any leakage, seepage are promptly attended to.
- 5) Take protective measures without loss of time in case of any sign of breach.
- 6) Digging of link drains and other drains to drain outstanding floodwater after floodwater recedes.
- 7) Finalize and start labour oriented departmental works for test-relief in consultation with the District Administration.

POST-DISASTER

- 1) Restore tools, equipments, vehicles and other stores.
- 2) Collect materials, vehicles etc. lent to the District Administration.
- 3) Repair and replace damaged tools and equipments.

9.2 FIRST AID AND HEALTH MEASURES BY HEALTH DEPARTMENT:

PRE-DISASTER

- 1) Visit to the generally flood affected areas on the basis of vulnerability.
- 2) Prepare a list of hospitals, PHCs, CHCs, dispensaries and other institutions located in the area.
- 3) Prepare list of doctors and paramedical staff already available in each of the areas and the number of additional hands of each category that may be required in each of the areas in case of acute floods.
- 4) Prepare list of doctors and paramedical staffs of different category who can be withdrawn from their places of work and their services utilized for emergency relief work.
- 5) Ensure that adequate stock of medicines, vaccines and disinfectants likely to be necessary are kept at the district and sub-divisional headquarters.
- 6) Keep ready materials for augmenting the hospital beds by at least 10 in case of necessity and opening one camp dispensary for each of the very vulnerable areas.
- 7) Arrange for mobilizing at short notice two medical relief teams at the district HQ so as to rush them for relief work.
- 8) Prepare a detailed plan for utilizing the doctors and other Voluntary organizations in the district if so required.
- 9) Take measures for prevention of epidemic and arrange vaccinations against small pox, cholera, typhoid etc. of the people in these areas.

DURING-DISASTER

- 1) Alert all doctors and paramedical staff on receipt of warning.
- 2) Check personnel, equipment and medical stores.
- 3) Arrange for necessary vehicles, ambulances in consultation with the district administration.
- 4) Immediately visit the affected areas along with one medical relief team.
- 5) Start measures for health relief in an institution located conveniently in the affected area.
- 6) Make immediate arrangements to open additional camp dispensaries, if necessary.
- 7) Decide immediately on isolation of certain patients, if necessary and arrange for isolation wards.
- 8) Utilize the services of Red Cross and other VOs.
- 9) Frequently visit the flood affected areas and ensure effectiveness of health measures.

POST-DISASTER

- 1) Restore equipment and stores.
- 2) Repair or replace damaged equipments.
- 3) Arrange for disposal of unutilized medicines and disinfectants.

9.3 WATER & SANITATION MEASURES BY PUBLIC HEALTH ENG. DEPARTMENT: (EE, PHED)

As a part of its routine works, PHE Department has been taking up steps for IEC activities to motivate the masses about the importance of clean drinking water & sanitation. The institutional setup under SBM will also be utilized to enhance the disaster preparedness of the masses with a saturation approach.

Leaflets on disinfection & purification process of water during disaster period will be distributed among the disaster affected people, in addition to practical demonstrations at relief camps or public places on sanitation and different way to disinfect water and use of water purification packets.

The Executive Engineer (PHE) will ensure the supply of drinking water and will also have the plan to undertake the repair of any water supply facility that may be disrupted due to any disaster. He

will also ensure the regular cleanliness/chlorination of all water sources in the district and will maintain sufficient stores required to maintain/restore the drinking water supply. Moreover, details of manpower and materials available in the district at different locations who be deployed within the shortest possible notice will be maintained including details of Quick reaction teams (QRT).

Public Health Engineering Department

Institutional /Organizational setup of the Department :

The District is looked after by the Dhubri Division which will co ordinate all disaster related activities and will act as the nodal office in the district with respect to water supply and sanitation.

For taking up emergency / appropriate measures during disaster, a well organizational set up has been made as follows ---

(A) Dhubri (PHE) Sub-Division with H.Q. at Dhubri will keep contact with Deputy Commissioner, Dhubri along with the Division office.

(B) Bilasipara (PHE) Sub-Division with H.Q. at Bilasipara will keep touch with SDO(Civil) , Bilasipara Civil Sub-Division..

The entire Sub-Divisional disaster relief works will be looked after by the concerning AEE(PHE)s.

For better management & smooth tackling of the situation, each of the PHE Sub-Divisions will keep close liaison with their section / sectional officers (PHE).

9.4 AGRICULTURAL MEASURES BY AGRICULTURA DEPARTMENT

Standard operating procedure (SOP):

1. Assessment of Crop damage

To assess the actual area affected and extend of damage.

	Action Points	Responsible Officer	Time frame
1	To visit the affected area and collect information	VLEW with PRI members and local Headman	Within 7 days of occurrence of events
2	Supervise the work of collecting information.	ADO & SDAO	Within 10 days of occurrence of events
3	Compiling the information and submission the same to DAO.	ADO	Within 12 days of occurrence of events
4	Preparation of data base and onwards submission of the same.	DAO	Within 20 days of occurrence of events

2. Regulating the use of chemical fertilizers & pesticides

To check the use of adulterated fertilizers and banned pesticides.

	Action Points	Responsible Officer	Time frame
1	To visit retailers and wholesale for collecting samples	ADO, SDAO & DAO	1 st weak of every alternate month
2	Sending samples to state H.Q.	DAO	Within 7 days of collection of sample
3	Appropriate action taken on getting analysis	DAO	Within 7 days of getting analysis

	report		report
4	Enforcement of Seed, Fertilizer Act.	DAO, SDAO, ADO	Throughout the year

3. Monitoring of Soil Health

To maintain soil health for sustainable Agril. production.

	Action taken	Responsible Officer	Time frame
1	Collection of Sali sample	VLEW with PRI members and villagers Headman	Sept-Nov
2	Sending of soil sample to laboratories for analysis	DAO	Nov-Dec
3	Distribution of Soil analysis report to concerned farmers.	ADO & VLEW	Jan-feb
4	Preparation of Cropping pattern at farmers level based on analysis report with recommendation practice.	ADO & VLEW	Feb-April

4. Buffer stock of Paddy Seed

To make available submergence, drought tolerance and late sown winter paddy, flood escaping paddy varieties.

	Action taken	Responsible Officer	Time frame
1	Calculation of requirement of Seed of each type.	ADA & Sr. ADO	By 20 th January
2	Placing indent for the same with requisition of fund to DA, Assam.	DAO	30 th January
3	Arranging place for storing Seeds.	DAO & SDAO	15 th February
4	Purchase of Seeds.	DAO & SDAO	10 th March

5. Implementation of Rabi schemes in post flooded area

To mitigate the loss occurred due to flood massive Rabi programme to be chalked out and implemented.

	Action taken	Responsible Officer	Time frame
1	Preparation of suitable scheme based on No. of farm families and Crop area affected.	ADA & Sr. ADO	August
2	Requirement of seeds of different crops and placing indent for the same to higher authority.	ADA, DAO, SDAO	15 th September
3	Soil pulverization to start Rabi programme immediately after flood.	E.E. (Agri.), J.E., ADO, SDAO	15 th September to 15 th October
4	Distribution of seeds	VLEW & ADO with PRI Members and village headman	15 th September to 15 th October
5	Monitoring of Schemes	Sr. ADO, SDAO, DAO, E.E. (Agri.)	15 th September to 15 th March

9.5 WARNING DISSEMINATION BY PUBLICITY DEPARTMENT : (DIPRO)**PRE-DISASTER**

- 1) Visit to generally flood affected areas by 30th April.
- 2) Make an assessment of the publicity requirements of the compact zones (depending on extent of vulnerability) in the district.
- 3) Make a list of requirement of staff for deployment of publicity units in the zones for publicity works.
- 4) Keep the departmental vehicles in good running condition for publicity works.
- 5) Keep close liaison with the district administration and all concerned heads of departments for giving advance publicity.
- 6) Ensure that facilities for press communications remain undisturbed during disaster season.

- 7) Utilize the Police radio channel for transmission of urgent and important press messages whenever necessary.
- 8) Maintain close liaison with the local press and all media heads etc. stationed in the district.

DURING-DISASTER

- 1) Alert the staff for floods on receipt of warning and maintain close contact with the district administration.
- 2) Check for personnel and equipment and arrange publicity through available means regarding flood warning and instructions for evacuation etc. if necessary.
- 3) Immediately visit the flood affected areas and ascertain publicity requirements.
- 4) Deploy fully equipped publicity units in the affected areas.
- 5) Install PA systems in the evacuation/relief centers as may be required by the district administration.
- 6) Issue press messages by all available means timely and regularly to the AIR, newspapers etc.
- 7) Frequently visit flood affected areas to ensure effectiveness of the publicity measures.

POST-DISASTER

- 1) Restore equipment etc. and take necessary steps for repair or replacement of damaged tools and equipment.
- 2) Arrange for publicity materials in consultation with concerned departments regarding matters of health, sanitation, cattle epidemic etc.
- 3) Arrange for mobilizing, at least four self supporting publicity units for the affected areas.
- 4) Arrange for photography and news reel coverage of flood situation wherever necessary.

9.6 VETERINARY MEASURES BY A.H. & VETERINARY DEPARTMENT:

PRE-DISASTER

- 1) Visit to generally flood affected areas by 30th April.
- 2) Assess requirement of veterinary measures to be taken in affected areas and arrange for VAS, VFA and other staff, equipment, medicines, Vaccines, disinfectants etc., materials for opening first aid centers and camp dispensaries.
- 3) Locate suitable high places for sheltering livestock.
- 4) Mobilize two or more veterinary teams at the district HQ for emergency relief work.
- 5) Keep at prescribed scales or essential equipment, medicines, vaccines, disinfectants in every hospital, dispensary, first aid center in the affected areas.
- 6) Arrange for fodder from livestock fodder farms or from other sources.
- 7) Arrange for prevention of wide spread disease in epidemic form amongst animals.
- 8) Assist the district administration in arranging with local traders for supplying animal feed at reasonable price if require.
- 9) Prepare, veterinary map showing hospital, dispensaries, first aid center, AI sub centers, and cattle population, covered by each of these institutions.
- 10) Arrange for short duration, training course in veterinary medical care and prevention of epidemic, among animals for staffs.
- 11) Arrange for sufficient IEC materials for Public awareness.

DURING-DISASTER

- 1) Alert the subordinate Officers and field staff on receipt of warning.
- 2) Check and arrange personnel, stores, equipment, vehicles etc. and draw up tentative programme of emergency relief works.
- 3) Visit the flood affected areas immediately with a veterinary relief team and start relief measures.
- 4) Arrange with the help of district administration shifting of livestock to suitable high grounds.
- 5) Open additional first aid centers and camps, dispensaries if necessary.
- 6) Constantly visit the flood affected areas and ensure effectiveness of the measures taken.

POST-DISASTER

- 1) Restore equipment and stores.
- 2) Repair or replace damage equipment.
- 3) Arrange for disposal of balance medicines or replenished stock of medicine and stores.
- 4) Take steps for repair of damaged veterinary buildings.

9.7 COUNSELING MEASURES BY SOCIAL WELFARE DEPARTMENT:

During any disaster situation, the weakest and the neglected viz., children, old and infirm, handicapped and expectant/nursing mothers suffer most. The community has a special responsibility for providing them overall assistance. The Social Welfare department is entrusted with this responsibility.

PRE-DISASTER

- 1) Visit to generally flood affected areas by 30th April.
- 2) Make arrangement for mobile units of maternity and child welfare centers wherever necessary.
- 3) Draw up nutrition programme for the children below 6 years and expectant/ nursing mothers in disaster prone areas.
- 4) Make arrangements for taking care in the relief centers of orphans, infirm and destitute.
- 5) Assess requirement and arrange for milk powder, baby food etc.
- 6) Make a list of facilities of voluntary social welfare organizations located in the district.
- 7) Make list of personnel for rendering services in the relief centers.
- 8) Other measures as per Assam Disaster MM-

DURING AND POST-DISASTER

- 1) Alert personnel for floods on receipt of warning and kept constant touch with the district administration.
- 2) Ensure that orphans, infirm and destitute accommodated in the relief/ evacuation centers are properly taken care of.
- 3) Shift the destitute to destitute homes wherever necessary.
- 4) Arrange for milk powder baby food etc. as per nutrition programme.
- 5) Other measures as per ARM- 1976.

9.8 IRRIGATION DEPARTMENT

- (i) Head Quarter Leave permission without information will be strictly controlled. It will be ensured that all employees remain present in the Head Quarter.

- (ii) Every Grade-IV staff required to be in constant vigil before, during and after the disaster period and they will report every abnormal finding to their higher ups.
- (iii) They will look after the Barges and Machineries and the river protection work etc. and report to the higher ups immediately if any symptom of any damage is observed.
- (iv) They will see whether the Electrical polls & Electrical lines are in order and report, if any abnormality occurs to his in-charges, who will eventually to the Nodal Officer notified.
- (v) Section Assistants keep contacts with Grade-IV staff and take up necessary arrangements for restoration works if needed in consultation with the Section Assistant and Section Officers.
- (vi) After recession of Disaster, employees will make detailed inspection of all the Schemes under their jurisdictions and report the damages, observed, to their immediate higher ups for taking up necessary action.
- (vii) Minor damages will be repaired by Departmental staff immediately.
- (viii) If the damages are of bigger nature involving both man & materials, then field officers will prepare estimates based on detailed survey which will be put up to appropriate authority in the Govt. for accordance of Fund for taking up repair works afterward to resume supply line of the Irrigation Network.
- (ix) Department is contemplating for procurement of Mobile Pump-Sets to provide Irrigation facilities to the disaster effected public outside the purview of Irrigation Schemes to suffering farmers who remains outside the jurisdiction of the existing Schemes under the Department.

9.9 TOWN & COUNTRY PLANNING STANDARD OPERATING PROCEDURES (SOP)

Deputy Director, T&CP, Dhubri- 9435043804

Preparedness phase:-

This phase will include taking all necessary measures for planning, capacity building and other preparedness so as to be in a state of readiness to respond, in the event of a natural and manmade disaster. This Stage will also include development of Quick Response Teams, mobilization of resources and taking measures in terms of equipping, providing training, conducting of the process and also to ensure that all actions are closely and continuously coordinated. A mock practice is a must to ascertain the value of this SOP in real disastrous situation.

Early Warning Phase :

This phase will include all necessary measures to provide timely, qualitative and quantitative warnings to the disaster managers to enable them to take pre-emptive measures for preventing loss/damage of important urban infrastructure and service facilities in the town.

Response Phase:

This phase will include all necessary measures to provide immediate support to the affected people by undertaking immediate restoration measures of communication system. In case of adverse situation, alternative communication methodology to be identified to facilitated rescue and rehabilitation process.

Restoration Stage:

This phase will include all necessary measures to carry out permanent restoration measures of all important urban infrastructures and life line buildings, surface communication, drainage, etc. Removal of debris and other solid waste is the most essential to restrain from spreading of epidemic and to provide a liveable environment in the urban agglomerates including the surrounding sub-urban areas.

Preparedness :-**EMERGENCY OPERATIONS CENTRES (EOCs):-**

Control rooms will be set up at the District level.

The objectives of the control room shall be to:

1. Receive and process of disaster alerts and warnings from both the towns of the district and other sources and communicate the same to all designated authorities.
2. Monitor emergency operations in and the town areas.
3. Facilitate Coordination with various Organisations, Departments & Agencies during emergencies.
4. Issuing disaster/incident specific information and instructions specific to all concerned.
5. Consolidation, analysis and dissemination of damage, losses and needs assessment data.
6. Forwarding of consolidated reports to all designated authorities.

Location of control room:

The Control room will be set up in a suitable location preferably in a multi-hazard resistant building at the District level. Control Rooms will be connected with the respective District Control Room of DDMA, State Control room at the Directorate of Town & Country Planning, Assam. Well trained personnel will be engaged in the operation of Control Rooms.

INCIDENT RESPONSE SYSTEM (IRS):-

As per the Government of India policy on disaster management, IRS will be integrated into the existing system and Incident Response Teams (IRTs) shall be put in place in the District level by imparting training in different facets of incident management. The emphasis will be on the use of technologies and contemporary systems of planning and execution with connectivity to the joint operations room at all levels.

The members of the IRTs will be imparted specialized training in collaboration with the DDMA, Dhubri

Pre-contract for Essential Materials/Machineries :-

This Department is not having any equipments / machinery needed for establishing rescue and rehabilitation process and hence the department will enter into pre-contract with the suppliers / contractors for supply of such machineries as and when required. A designated officer will be nominated for this purpose.

PREPAREDNESS FOR RESPONSE:-**Vulnerability assessment:-**

The department will make vulnerability assessment and identify potential hazards in and around the towns and will be informed to the local community about their vulnerability to potential hazard through urban local bodies.

Contact details:-

A comprehensive list of officers involved in disaster management at various levels will be prepared in the District level giving their names, addresses, telephone numbers, mobile numbers, e-mail address, Fax numbers. The list will be circulated among all concerned.

Review:-

Annual review of the preparedness measures will be done by the Deputy Director, Town & Country Planning, District Office, Dhubri. Annual review will ensure that all loose ends are tied up so that response during disasters is efficient, effective and time bound.

Mock Drill:-

Mock exercises will be carried out for testing the effectiveness of all the preparedness measures including manpower, equipments etc.

AWARENESS GENERATION:-

The department will carry out Awareness campaign by various means.

Early Warning :-

There are various Nodal agencies for early warning

Cyclone/Storm	Indian Meteorological Department
Heat and Cold Waves	Indian Meteorological Department
Floods	Central Water Commission, State Emergency Operation Centre, North Eastern Space Application Centre, Dist. Emergency Operation Centre
Forest Fires	Department of Forest

The Control Room Personnel will keep close coordination with these agencies/departments for receiving early warning. They will also regularly check the websites of the above organizations. On receipt of early warning, the personnel will inform to all concerned.

EARTHQUAKE:-

Early warning or prediction of earthquake is not possible. However it is possible to detect and monitor the earthquakes and the aftershocks. Indian Meteorological Department is the nodal agency of Government of India responsible for monitoring seismic activity in and around the country. Indian Meteorological Department is also responsible for estimating the earthquake source parameters immediately on occurrence of an earthquake and disseminate the information to all the user agencies.

The appropriate flow of early warning system from the source to the targeted stakeholder is very important. The dissemination of early warning should be institutionalized so that it reaches the Town and Ward level in minimum possible time. The flowchart for dissemination is as follows :

Trigger Mechanism:-

The objective of having a trigger mechanism for natural disasters is to have a suo-motto activation mechanism for spontaneous response to set in motion command control and management of the situation. There shall be two types of situation with different trigger mechanisms for natural disasters

(I) Situation-I - Where Early Warning signals are available

(II) Situation-II- Where Disaster occurs without early warning

Situation-I Where Early Warning signals are available

1. As soon as the watch/alerts/warning has been issued by the Nodal Agencies, the control room shall be fully activated.
2. District Control Room shall activate the response mechanism to respond to the situation with available manpower and resources.
3. Follow up action shall be undertaken by all concerned at all levels as envisaged under Response Phase.

Situation II- Where Disaster occurs without early warning

The following procedure shall be followed in disastrous situations

1. The field functionary at Ward level shall inform the Control room/DD/Chairman concerned.
2. Control room shall be fully activated for managing the incident.
3. Quick Response Teams (QRTs) shall be deployed.
4. Deputy Director/Responsible Officer shall review the situation and activate coordination, command and control.
5. IRTs shall be deployed.
6. Meeting of DMC shall be convened to review the situations.
7. Technical Team for rapid assessment of damage shall be deployed.
8. IRT shall begin works for immediate restoration of damaged communication linkage, arrangement of safe drinking water, etc.

RESPONSE TO NATURAL DISASTERS:-**District management Committee:-**

1. DMC shall assess the situation and give directions to the concerned ULB regarding measures to be taken by IRT in response to any specific threatening disastrous situation or disaster.
2. DDMA shall take such other actions as may be necessary for coordinated response to natural disasters. These may include the following-
 - a) Assessing situations based on reports received from various sources and giving directions to the IRTs for immediate response and restoration of critical roads.
 - b) Reviewing the resources and capacities of different agencies/contractors/suppliers to deal with the situations and giving directions for pooling available manpower equipment, and resources available with them for speedy and effective response.
 - c) Coordinating with civil society and Non-Governmental Organizations for supplementing the efforts of the department.
 - d) Monitoring and reviewing the situations on a regular basis.

First Information Report:-

Control rooms shall send First Information Report (FIR) immediately regarding disaster to all designated authorities/agencies. FIR shall invariably give an account of the severity of the disaster damage and loss caused, locally available capacities, priority. The FIR shall briefly summarize:

1. Severity of the disaster.
2. Actions being taken locally.
3. Local coping capacities (including locally available resources).
4. Forecast of possible future developments including new risks.

The FIR should be sent within 24 Hrs to District Emergency Operation Centre and State Control Room.

Daily Situation Report:-

A standardized form for reporting of situation report on daily basis has been prepared for the District. This format will be used at all levels.

Rapid Damage Assessment

Preliminary assessment shall be carried out immediately by Field Workers within 24 hours for planning the restoration of damaged infrastructures.

Tools for Rapid Assessment

- Photographs, video graph/film of the affected area
- Field reports
- TV/Press coverage
- Visual Inspection Checklist: _
- ✓ Camera
- ✓ Laptop
- ✓ Notebook
- ✓ Map

Immediate Repair of Infrastructures:

Technical team will repair the damage caused by the disaster and will take immediate steps to restore damaged infrastructures like road linkage so that rescue and relief operations are conducted smoothly.

Specific Roles to be performed by the IRTs:

District IRT:

- Provide a Work team carrying essential tools, equipments, vehicles, etc. such as cranes, excavators, dumper
- Networking with private suppliers/contractors for supply of excavators/dumpers, etc.
- Establish priority list of infrastructures which will be immediately repaired first
- Prepare and send reports to DC, DDMA, Director, T&CP, Assam
- Coordinate with other Departments to finalise the provisional estimate and send it to DDMA
- Monitor and supervise the response works
- Guide the repair works of IRT at Ward Level.

ULB Level IRT

- Emergency Clearing of Debris and solid waste
- Clearing of Roads and cross drainage works
- Construct temporary sheds for relief camps
- Provide First Aid through DDMA
- Maintain hygiene in and around the Camps to restrict chances of epidemic.
- Clear the roads connecting to helipads, airports, railway stations etc.
- Identification of infrastructure for immediate repair
- Submission of provisional estimate.
- Requisition of vehicles, materials, contractors/suppliers

Ward Level IRT

- Establishment of transit camp at incident site for materials and manpower
- Arrangement of food and drinking water for response workers
- Assemble Casual Labour and distribute them

- Distribution of vehicles, materials, tools & equipments

STANDARD OPERATING PROCEDURE (S.O.P)

A. Response of Employees :

The Officer/ staff details are as follows:

(A) Office of General Manager, District Industries & Commerce Centre, Dhubri, Gauripur :

(B) Office of Assistant Director of Cottage Industries , Hatsingimari, South Salmara:

The team of officers and staff assist the General Manager/ Assistant Director of Cottage Industries for all official works for implementation of various schemes of the Department in team spirit. The G.M/ A.D.C.I Co-ordinates. The activities. The Project Manager/ Functional Manager directly supervise the ongoing activities, plan for the programmes, take help of sub-ordinate officers, staff to execute the works with approval of the G.M. Thus A.D.C.I also controls the Sub-divisional activities of the Sub-division and supervise the work under guidance of the G.M.

For Disaster Management Programme, the roles of the officers/ staff will be as follows:

The Project Manager/ Functional Manager will lead the team of District Industries & Commerce Centre, Gauripur, assign duties to sub-ordinates as required to meet the demand of the hour of disaster. The Assistant Manager will keep liaisoning with different support groups, Department, NGOs, SHGs, individuals. The Extension Officers will be in direct touch with victims, sufferers at grass root level who will assess the situation and give feed back to A.Ms/ F.Ms/P.M. Thus the superident of Industries, Extension Officers in Hatsingimari will perform duties during disaster time directly being involved for all grass root level activities with feed back to Assistant Director of Cottage Industries, Hatsingimari. A.D.C.I will keep liaisoning the activities taking help from all officers and staff. The G.M will take control of the situation as per suggestion, feedback from F.M/ P.M/ A.M/ E.O & staff including Grade-IV

9.10 ASSAM POWER DISTRIBUTION COMPANY LIMITED

SOPs and checklists should be prepared for various personnel for effective response to emergencies and disasters. The above SOPs and checklists must be maintained and updated to reflect any changes in procedures, technology and equipment.

The following are some SOPs currently being followed in APDCL, Dhubri for Emergency Management.

Administrative Procedure to be adopted at the time of Emergencies (AP1)

1.All leaves sanctioned to the officers and workmen stand suspended once emergency is declared. The officers and workmen on leave shall report back to their respective controlling officers immediately.

2.All officers responsible for operations shall work for 24 hours and make their sub-ordinate officers/officials who are required for the emergency to work round the clock.

3.The employees who are eligible for drawing overtime allowances/double wages can claim as per rules during the emergency period.

4.Special delegation of powers to the officers for purchase of materials, obtaining services of man power and execution of works are given as per Annexure to AP1.

5.The Nodal Officer shall take into account the materials in stock in various stores in their jurisdiction and make necessary arrangement to mobilize the materials from the available stores to

the emergency work spot..

6. Once the APDCL, Dhubri declares closure of emergency, the field officers have to furnish necessary certificate regarding purchase of material and non-availability of the same in the store houses, work executed etc., and the Accounts Officers who are responsible for passing of bills, closure of accounts and making payment shall ensure to complete the same within 15 days from the date of closure of emergency.

7. The expenditure incurred shall be booked under appropriate heads of account.

8. After 15 days from the date of closure of emergency, field officer shall furnish the certificate for the works carried out during the emergency period. If any officer deviates from this, the same will be viewed seriously and further action will be initiated.

1) List of Works to be carried out during Emergency for Restoration of Power Supply

1. Rectification of fallen poles.
2. Re-conducting/re-stringing of snapped conductors.
3. Replacement of faulty distribution transformers.
4. Rectification of fallen LT/HT lines.
5. Clearing of fallen trees/branches.

2) List of Materials that can be purchased
Works listed in A subject to guidelines

1. Poles
2. Insulators
 - 1.1 KV Pin insulator
 - a) - 8 KV strain
 - b) H.T Guy Disc Ins 45KN
 - L.T Pin Insulator /shackle
 - c) insulator
3. Guy wire
4. Fuse wires of different ratings
5. PG Clamps etc.,

Operational Guidelines and Checklists for Emergencies

The following points list some of the more common problems and the actions that should be taken to restore power at the earliest.

1) General Power Failure

In the event of any power failure, personnel are informed through the APDCL, Dhubri customer care centre and public address system .

1.1. Failure of 11 kV line

1. First check for 11kV line failure via physical inspection (it will keep tripping if there is ANY problem).

2. If 11kV failure is indeed the problem, try and shift load through any other Ring Main Unit (RMU) that may be available, and recommend maintenance procedure.

If 11 kV failures are not the problem, follow the procedure in {1), 1.2}

1.2. Failure of Distribution Transformer Centre (250kVA, 500 KVA etc. or consumer relevant transformers only)

1. Check incoming (HT) and outgoing (LT) protection mechanism. If the problem is in the incoming (HT), refer to {1}, 1.1}. If not, proceed further.

2. If the outgoing (LT) protection has failed, first shift load to other DTC (if available). Next, recommend repairing or replacing DTC as per best practices. If the problem is not DTC (LT), follow the procedure for verifying proper functioning of fuses and poles and LT cables. See {1}, 1.3}.

1.3. Failure of Fuses, Poles and LT Cables

1. Follow Standard Operating Procedures for restoration of power from failure of fuses, poles and LT cables.

2) Tree Collapse on Lines

First, keeping safety paramount, clear debris (including chopping branches, sweeping leaves and informing local municipal authorities). Refer to point {1) General Power Failure} for procedure for the restoration of power.

3) Hail-storms

Hail-storms mainly affect transformers, usually causing damage to insulation which may lead to oil leakage. Clean any oil leakages as per procedure to prevent environmental damage. Refer to point {1) General Power Failure} for procedure for the restoration of power.

Standard Procedure for Preventive Maintenance (including Monsoon)

1.1. Procedures outlined in the Distribution Maintenance Manual are to be followed regularly.

1.2. It is recommended that a monsoon-specific list of activities and a schedule of those activities should be compiled and followed.

Preparedness Measures

1.1. All efforts as prescribed in the Distribution Maintenance Manual must be carried out and a checklist of tasks completed at every level must be available to the APDCL, Dhubri Disaster Management Cell.

1.2. A system to view inventory and list of equipment available should be available to section officers during an emergency or disaster.

1.3. Preparedness for an emergency/disaster for which warning has been received

- D-24 hours: Alert from **Nodal Officer** must go to all APDCL, Dhubri personnel. Testing and availability of emergency equipment must begin.

- D-12h: All communication equipment must be tested at this time.

- D-4h: All personnel must be at their designated positions, and all required response equipment must be assigned to the teams.

- D+ zero: Turn off power of the “Line” based on reported failure complaints and local knowledge (usually by Unit Officer or higher).

- D+2h: Based on the seriousness of the event, continue execution of response effort, including isolating vulnerable points, detecting problems and mobilizing relief efforts.

9.11 BARPETA S.C. DIVISION, BARPETA (FOR DHUBRI DISTRICT) STANDARD OPERATING PROCEDURE FOR VARIOUS CRISIS SITUATIONS:

Preparedness phase:-

This phase will include taking all necessary measures for planning, capacity building and other preparedness so as to be in a state of readiness to respond, in the event of a natural and manmade disaster. This Stage will also include development of Quick Response Teams, mobilization of resources and taking measures in terms of equipping, providing training, conducting of the process and also to ensure that all actions are closely and continuously coordinated

Early Warning Phase :

This phase will include all necessary measures to provide timely, qualitative and quantitative warnings to the disaster managers to enable them to take pre-emptive measures for preventing loss/damage of departmental development works.

Response Phase:

This phase will include all necessary measures to provide immediate succour to the affected people by undertaking immediate restoration measures of departmental development works.

Restoration Stage:

This phase will include all necessary measures to carry out permanent restoration measures of departmental development works such as RCC Check Dam, Gully Control Project, Boulder Pitching, Boulder Rivetment, Boulder Spur, Land Development Project, Agri Bund, Nulla Bund, Drainage Channel, Guide Bund, Protective Afforestation, Nursery Raising, Horticulture Plantation.

Preparedness :-

Emergency Operations Centres (EOCs):-

Control rooms will be set up at the Divisional and District level.

The objectives of the control room shall be to:

7. Receive and process disaster alerts and warnings from nodal agencies and other sources and communicate the same to all designated authorities.
8. Monitor emergency operations.
9. Facilitate Coordination with various Organisations, Departments & Agencies during emergencies.
10. Issuing disaster/incident specific information and instructions specific to all concerned.
11. Consolidation, analysis and dissemination of damage, loss and needs assessment data.
12. Forwarding of consolidated reports to all designated authorities.

Location of control room:

The Control room will be set up in a suitable location preferably in a multi-hazard resistant building at the Division and District level. Control Rooms will be connected with the respective District Control Room of DDMA, Control room of Soil Conservation Directorate and with all other Soil Conservation Divisions, Range Offices and Center Offices. Suitable personnel will be selected and imparted training in the operation of Control Rooms. They will be posted to these Control Rooms.

Incident Response System(IRS):-

As per the Government of India policy on disaster management, IRS will be integrated into the

existing system and Incident Response Teams (IRTs) shall be put in place in the Division and District level by imparting training in different facts of incident management. The emphasis will be on the use of technologies and contemporary systems of planning and execution with connectivity to the joint operations room at all levels.

The members of the IRTs will be imparted specialized training in collaboration with the DDMA, Dhubri.

Pre-Contract For Essential Materials/Machineries :-

This Department will ensure storage and availability of essential materials including machineries in the Beat Office well before the monsoon period. The department will also enter into pre-contract with the suppliers /contractors. A nodal officer will be nominated for this purpose.

PREPAREDNESS FOR RESPONSE:-

Vulnerability assessment:-

The department will make its vulnerability assessment and identify potential hazards in regards to the departmental development works. The local community will be informed about their vulnerability to potential hazard/disasters through various sections of the department.

Contact details :-

A comprehensive list of officers involved in disaster management at various levels will be prepared for Divisional and District levels giving their names, addresses, telephone numbers, mobile numbers, e-mail address, Fax numbers. The list will be circulated among all concerned.

THE DISASTERS ARE CATEGORIZED AS FOLLOWS:

PREDICTABLE DISASTERS :

• Rain/Floods :

It is expected due to heavy downpour and cloud bursts during peak rain periods and may happen due to cyclonic storm.

• Preparedness :

This department will open control rooms to get direct link with the District control room of District Disaster Management Authority to know how the stages of disaster. Men and Material will be equipped and taskforce will be kept ready to coordinate with District Disaster Management Authority with departmental control room. In order to dewater the rain flood/inundation the motor pumpset and Generator will be kept ready and in the event of power failure in order to maintain uninterrupted water supply, the Generator will be kept ready for deployment.

○ Operation :

During rain/flood time, the Task force will be put on 24 hours duty under the control of one SCD (Sr.). The control rooms will also run 24 hours and the event of happening/accident/incident, immediately it will be conveyed to the Taskforce deployed in the concerned region of Dhubri and in turn the action taken will get reported back to control room so as to appraise the Government.

• Cyclone :

○ Preparedness :

The stage/veracity/speed of cyclone/depression location and other details will be obtained from the Department of Revenue and disaster Management and Indian Metrological Department, and the

divisions will be informed about the movement and expected zone of crossing/attack.

○ **Operation :**

During the cyclonic storm, which coupled with rain, the Taskforce will be engaged on duty for 24 hours and the control rooms will also run for 24 hours. The fallen trees will be removed within the maximum possible time space on receipt of the event.

○ **UNPREDICTABLE DISASTERS :**

• **Earth quake :**

Earthquakes are caused by natural tectonic interactions. Earthquakes strike suddenly without warning and thus unpredictable. Therefore, preventive measures for ensuring safety are of utmost priority. It is also mentionable that this region falls in a severe seismic zone-v.

Preparedness :

The regions are now categorized as Zone -V according to the latest zoning map and expects the highest level of seismicity/seismically active zone. All the government structure like buildings/bridge/culvert/cross drainage work are designed as earthquake resistant to minimize the impact of earth quake. This event could not be predicted earlier, considering other disasters.

• **Operation :**

On the Earth quake attack, immediately all the field staff/officers will be called for duty to survey the damages and fire service and police service will also be called for co-operation.

In department, high level meeting will be convened to assess the damages and to sort out rescue operations.

• **Fire :**

○ **Preparedness :**

This will happen only in Buildings/huts/dwelling units/market places and wherever the disaster happens, the services of the fire personnel will be resorted to.

○ **Operation :**

Such disaster happens in Government buildings, concerned Divisional Officer/Staff will cooperate with fire service and immediate arrangement for assessment of damage shall be taken up and the structural safety will be ascertained and reported to Government.

• **Lightning :**

○ **Preparedness :** As mostly this is expected not only during cyclonic/monsoon periods but also during monsoon period and thunder storms. All tall Government buildings/OHTs have been provided with lightning arresters.

○ **Operation :**

On receipt of damage, immediately the structural soundness and damages will be assessed and reported to Government and at the earliest, the building/OHT will be restored for normal operation.

• **Accidents :**

This is not dealt by the department but will take up with the nature of accidents by co-ordinating with line departments and very few have already explained in the above and following events. However as this event is unpredictable, the preparedness shall be oriented with operation.

Chemical Disaster :

OPERATION :

The water supply units/pumping stations will be inspected and the water quality will be checked

to all parameters with reference to Central Public Health and Environmental Engineering Organisation, World Health Organization norms and the portability of water will be maintained. In the event of water supply get polluted, the supply will be terminated from the polluted source and alternative arrangement will be made and the matter will be reported to Government. If such disaster happens Engineers/staff/task force of this will cooperate with concerned department and immediate arrangement for assessment of damage shall be taken up and the safety of the disaster will be ascertained and reported to Government.

- **Epidemics :**

- **OPERATION :**

The water supply units/pumping stations will be inspected and the water quality will be checked to all parameters with reference to Central Public Health and Environmental Engineering Organization ,World Health Organization norms and the portability of water will be maintained. In the event of water supply get polluted, the supply will be terminated from the polluted source and alternative arrangement will be made and the matter will be reported to Government and this division will cooperate with the DDMA to manage the crisis.

TERRORIST ATTACK

Preparedness measures:

No incidence of terrorist attack has been experienced by this district so far. In view of the information from Government of India regarding the possible attack from the terrorists, this District unit of Soil Conservation Department will play a constructive role to avert such incidents. Formal instructions will be issued to the staff engaged to be vigilant in protecting the resources and prepare to face any eventuality triggered by the terrorists. Further, they will be instructed to have touch with the nearby police stations for succor if they notice any strange persons and odd things in their surroundings so that untoward situations can be eliminated with the help of the police force. Water sources can be properly protected from any eventuality of terrorist attack and police protection can be tapped at any time and security can be beefed up given that Police stations are available at an accessible distance. Hence the co-operation of Police Department/DDMA, Soil Conservation Department will be resorted to as and when required.

Post attack sequence of action - Notification response and restoration:

No instance of terrorist attack has been experienced previously. Government of India guidelines, in this regard is required.

OTHER DISASTER :

In addition to this the department SOP is required in the contingency of Bomb Blast/Ethnic Violence, where this department has to co-operate with Police Department/DDMA of the district, for which a separate procedure is drawn and appended.

RESPONSE TO NATURAL DISASTERS:-

District Management Committee:-

3. DMC (IRT) shall assess the situation and give directions to the concerned Range

Officer/Center Officer regarding measures to be taken by IRT in response to any specific threatening disaster situation or disaster.

4. DDMA shall take such other action as may be necessary for coordinated response to natural disasters. These may include the following-

e) Assessing situations based on reports received from various sources and giving directions to the IRTs for immediate response and restoration of works.

f) Reviewing the resources and capacities of different agencies/contractors/suppliers to deal with the situations and giving directions for pooling available manpower equipment and resources available with them for speedy and effective response.

g) Coordinating with civil society and Non-Governmental Organizations for supplementing the efforts of the department.

h) Monitoring and reviewing the situations on a regular basis.

First Information Report:-

Control rooms shall send First Information Report (FIR) immediately regarding disaster to all designated authorities/agencies. FIR shall invariably give an account of the severity of the disaster damage and loss caused, locally available capacities, priority. The FIR shall briefly summarize:

1. Severity of the disaster.
2. Actions being taken locally.
3. Local coping capacities (including locally available resources).
4. Forecast of possible future developments including new risks.

The FIR should be sent within 24 Hrs to District Emergency Operation Centre and State Control Room.

Daily Situation Report:-

A standardized form for reporting of situation report on daily basis has been prepared for the District. This format will be used at all levels.

Rapid Damage Assessment

Preliminary assessment shall be carried out immediately by SCD(Jr.)/SCFW within 24 hours for planning the restoration of damaged roads.

Tools for Rapid Assessment

- Photographs, video graph/film of the affected area
- Field reports
- TV/Press coverage
- Visual Inspection Checklist: _
- ✓ Camera
- ✓ Laptop
- ✓ Notebook
- ✓ Map

CENTRAL CONTROL ROOM

➤ Every year this Department will chalk out working plan and contingency plan to handle the predictable and unpredictable disasters by its own and as well by co-ordination with

District Disaster Management Authority.

➤ The timely flow of early warning system from the source to the targeted stakeholder is very important. The dissemination of early warning should be institutionalized so that it reaches the Range Office/Center Office level in minimum possible time. The flowchart for dissemination is as follows-

RESPONSE TO NATURAL DISASTERS:-

District management Committee:-

1. DMC (IRT) shall assess the situation and give directions to the concerned sub-ordinate committee regarding measures to be taken by IRT in response to any specific threatening disaster situation or disaster.
2. DDMA shall take such other action as may be necessary for coordinated response to natural disasters. These may include the following-
 - i) Assessing situations based on reports received from various sources and giving directions to the IRTs for immediate response and restoration of critical roads.
 - j) Reviewing the resources and capacities of different agencies/contractors/suppliers to deal with the situations and giving directions for pooling available manpower equipment, and resources available with them for speedy and effective response.
 - k) Coordinating with civil society and Non-Governmental Organizations for supplementing the efforts of the department.
 - l) Monitoring and reviewing the situations on a regular basis.

First Information Report:-

Control rooms shall send First Information Report (FIR) immediately regarding disaster to all designated authorities/agencies. FIR shall invariably give an account of the severity of the disaster damage and loss caused, locally available capacities, priority. The FIR shall briefly summarize:

1. Severity of the disaster.
2. Actions being taken locally.
3. Local coping capacities (including locally available resources).
4. Forecast of possible future developments including new risks.

The FIR should be sent within 24 Hrs to District Emergency Operation Centre and State Control Room.

Daily Situation Report:-

A standardized form for reporting of situation report on daily basis has been prepared for the District. This format will be used at all levels.

Rapid Damage Assessment

Preliminary assessment shall be carried out immediately by SCD (Sr.)/SCD (Jr.) within 24 hours for planning the restoration of damaged roads.

Tools for Rapid Assessment

- Photographs, videograph/film of the affected area
- Field reports

- TV/Press coverage
- Visual Inspection Checklist: _
- ✓ Camera
- ✓ Laptop
- ✓ Notebook
- ✓ Map

Immediate Repair of Roads

Technical team will repair the damage caused by the disaster and will take immediate steps to restore damaged works so that rescue and relief operations are conducted smoothly.

Specific Roles to be performed by the IRTs:

District IRT:

- Provide a Work team carrying essential tools, equipments, vehicles etc.
- Networking with private suppliers/contractors for supply of equipments.
- Establish priority list of works which will be immediately repaired first
- Prepare and send reports to DC, DDMA, Joint Director, Director and Secretary & Commissioner to the Govt. of Assam.
- Finalizing the provisional estimate and send it to DDMA.
- Monitor and supervise the response works.
- Guide the IRT in repair works.

RESPONSIBILITY OF THE CONTROL ROOM :

The control rooms under the jurisdictions of various line departments/local bodies will be responsible for coordinating and facilitating the performance on disaster management. Every control room of the respective line Department has to be headed by a Senior Officer not below the rank of Group-B who is conversant with the activities of their department.

SOP FOR CRISIS MANAGEMENT

DEPARTMENT CONTROL ROOM

The Division Office Control rooms will function under the direct control of the Joint Director (HQ) and the Division Office Staff will be put on day and night duties to communicate the events/messages.

The District will run their control room under the direct control of the Divisional Officer and the District Staff will be put on day and night duty to attend the messages/ reports and communication to the higher levels and field level (Task force Group).

TASK FORCE GROUP

There will have a Task Force Group under the Control of Range Officer/Center Officer and under his Control SCD(Sr.), SCD(Jr.) etc. will function to attend the emergency work.

All the task forces will be under the Control of One SCD (Sr.).

1.Thus this department will have a systematic arrangement to attend to the emergency call during any disaster time. All the Control room and Task forces will be identified before the monsoon starts.

2.In order to attend/manage/control/restore all the activities this department has not been allocated with fund exclusively for the disaster management plan. So far, this department had been

managing with its regular plan fund for such works, thereby facing hardship in implementing its regular action plan and budgetary works.

Hence this Department shall have to be allocated with appropriate fund.

POST - CRISIS ARRANGEMENTS

A comprehensive Budget flow will have to be notified by the Department of Revenue and Disaster Management before the onset of Monsoon and to meet out the likely expenditure on day-to-day activities. In order to monitor the same, the Joint Director (HQ) of Soil Conservation may be provided with powers to control and audit the expenditure and sanction the required amount to meet out the contingencies.

The Department of Revenue and Disaster Management proposed to have State Executive Committee & Disaster Management Authority which should be convene meetings to sort out the following:-

- a. Before the monsoon period to ascertain the preparedness and to allocate more powers to the Joint Director's.
- b. To review the action taken in the mid/on the way of disaster during the monsoon period.
- c. To review the restoration process and adjustment of accounts.

In the event of Disaster except rain/flood/cyclone, the recommendation/Assessment of High Level Committee chaired by the Director will be submitted to Government and also the Director shall be authorized to take up all expected rehabilitation/restoration works and the expenditure towards the same shall be released earliest considering the nature of disaster.

Thus the Soil Conservation Department Management Plan on the disaster system may be revamped and notified by the Department of Revenue and Disaster Management.

9.12 MASS CASUALTY PLAN FOR MEDICAL INSTITUTIONS.(FOR CIVIL HOSPITAL,DHUBRI)

DHUBRI (SADAR) SUB-DIVISION.

Civil Hospital, Dhubri will be the Base Hospital for Management of mass casualty during disaster. The same plan will be executed for Temporary Medical camps. Alternative arrangement will be made in the temporary camps, if the Hospital itself is damaged.

- (a) When the Hospital itself is damaged:
 1. There are 2(two) plots of vacant land in Dhubri Civil Hospital Campus.
 2. Where 20/25 Nos. tent can be used for Casualties. Size of one Tent:10'X10'
 - 4 beds can be provided in a single tent. Therefore, 80 beds can be provided in 20 Nos. of tent.
 - 3.5 Nos. tent can be provided for Reception/ Doctors/ Para-medical staff/ Preliminary check-up etc. in the campus of Civil Hospital, Dhubri
 4. A separate tent can be provided for announcement time to time to control the situation.
 5. A police booth may be established near the Reception counter to control the Chaotic situation.
 6. Two Nos. toilet for Male and two nos. toilet for female may be constructed Temporarily in the campus of Civil Hospital, Dhubri
 7. Makeshift Camp will be based on the rush of Casualties.

8. There is another provision for mass Casualties at Stadium field, Dhubri. Distance from Dhubri Civil Hospital to Stadium is approximately 200 Mtrs. More than 60 tents can be used in the stadium field. Therefore, 240 beds can be provided in 60 Nos. of tent. All the temporary facilities can be provided at stadium field (like Reception/Treatment/ Medicine store/ Parking place of Ambulance etc) Map and approach of stadium attached here with.

9. There is only one Private Hospital, at Gauripur. The Gauripur Hospital can be used as per necessity of casualties.

10. All the private Ambulance of local N.G.O's can be engaged for shifting of Casualties immediately.

11. The services of Private Doctors may be engaged on emergent basis.

12. Mobile Phone No. of all Doctors, Para-medical staff, Driver of Ambulances, N.G.O's and all Head of the Departments will be exhibited in a place to fulfill the crisis, if any.

13. There should be one spoke person for Media, which will be decided by the Disaster Management Committee of Health Department.

In this regard, the respective Departments may be requested for Tent, Tube-well, transportation, making of temporary toilet etc.

CHAPTER-X

DEVELOPMENT INITIATIVE / LINKAGES**10.1 MOCK DIRLL PLANS:**

Time Schedule	Process	Responsibility of Govt. Dept.
In every quarter	District level: Concerned Govt. line Deptts + District Administration (Disaster Management), Dhubri. Block/ULB level: Concerned Govt. line Deptts + Circle Officers/BDOs/ULB officers. GP /Urbanward/village level: The elected representatives + GP Secrearies + GS + Grassroot level Govt. functionaries. Will organize mockdrill in scheduled time.	• Fire Brigade • Home Guard • Health • Police/VDP • Social Welfare • Public Health Engineering • Animal Husbandry & Veterinary • Army/ Paramilitary forces

10.2. TRAINING OF VOLUNTEER / COMMUNITY PEOPLE:

Time	Division of District in different zones	Formation of various teams/task forces	Process	Responsible Govt. Department
January to June	Basically there will be 14 nos. of zones for Rural areas with 14 nos. of Zonal Officer(the BDOs) and 8 nos. of Supervising Officer (the Circle Officers). Moreover, there will be five zones for urban areas with five Zonal Officer from 5 ULBs.	Ten types of teams/ Task forces i) Early Warning & Dissemination ii) Rescue & Evacuation iii) Shelter Management iv) Health & First Aid v) Water & sanitation vi) Relief Coordination/Management vii) Patrolling viii) Trauma Counselling ix) Carcass Disposal x) Damage Assessment	A high powered committee consists of ADC (Rev.), CEO (ZP), PD, DRDA etc. under the Chairmanship of DC, Dhubri---- Circle Officers-- /Sr.BDOs/BDOs— Elected representatives/ NGOs/CBOs/ Grassroot level Govt. functionaries/ community people etc.	FireBrigade HomeGuard Health Police/VDP SocialWelfare Public Health Engineering Animal Husbandry & Veterinary Revenue/Circle/ Block/ULB offices Army/ Para military forces

10.3 INTEGRATION OF DM WITH DEVELOPMENT PLANS:

Review of disaster management activity in every monthly District Development Committee meeting with prior importance to find out the possible ways to integrate the both.

CHAPTER XI

SFDRR 2015-2030:

The SFDRR 2015-2030 was adopted by UN member states at the UN World Conference on DRR (WCDRR) in Sendai, Japan. The framework is built on elements which ensure continuity with the work done by states and other stakeholders under the predecessors, the HFA, and introduces a number of innovations as called for during the consultations and negotiations. The SFDRR has 7 targets and 4 priorities.

The scope and purpose of the framework will apply to the risk of small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters, caused by natural or man-made hazards as well as related environmental, technological and biological hazards and risks. It aims to guide the multi-hazard management of disaster risk in development at all levels as well as within and across all sectors. The expected outcome is substantial reduction of disaster risk and losses in lives, livelihoods and health and in the economic, physical, social, cultural and environmental assets of persons, businesses, communities and countries and the goal is to prevent new and reduce existing disaster risk through the implementation of integrated and inclusive economic, structural, legal, social, health, cultural, educational, environmental, technological, political and institutional measures that prevent and reduce hazard exposure and vulnerability to disaster, increase preparedness for response and recovery, and thus strengthen resilience.

Sendai Framework Indicators

Global target A: Substantially reduce global disaster mortality by 2030, aiming to lower average per 100,000 global mortality between 2020-2030 compared with 2005-2015.	
A-1 (compound)	Number of deaths and missing persons attributed to disasters, per 100,000 population.
A-2	Number of deaths attributed to disasters, per 100,000 population.
A-3	Number of missing persons attributed to disasters, per 100,000 population. The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risk.
Global target B: Substantially reduce the number of affected people globally by 2030, aiming to lower the average global figure per 100,000 between 2020-2030 compared with 2005-2015.	
B-1 (compound)	Number of directly affected people attributed to disasters, per 100,000 population.
B-2	Number of injured or ill people attributed to disasters, per 100,000 population.
B-3	Number of people whose damaged dwellings were attributed to disasters.

B-4	Number of people whose destroyed dwellings were attributed to disasters.
B-5	Number of people whose livelihoods were disrupted or destroyed, attributed to disasters.
Global target C: Reduce direct disaster economic loss in relation to global gross domestic product (GDP) by 2030.	
C-1 (compound)	Direct economic loss attributed to disasters in relation to global gross domestic product.
C-2	Direct agricultural loss attributed to disasters. Agriculture is understood to include the crops, livestock, fisheries, apiculture, aquaculture and forest sectors as well as associated facilities and infrastructure.
C-3	Direct economic loss to all other damaged or destroyed productive assets attributed to disasters. Productive assets would be disaggregated by economic sector, including services, according to standard international classifications. Countries would report against those economic sectors relevant to their economies. This would be described in the associated metadata.
C-4	Direct economic loss in the housing sector attributed to disasters. Data would be disaggregated according to damaged and destroyed dwellings.
C-5	Direct economic loss resulting from damaged or destroyed critical infrastructure attributed to disasters. The decision regarding those elements of critical infrastructure to be included in the calculation will be left to the Member States and described in the accompanying metadata. Protective infrastructure and green infrastructure should be included where relevant.
C-6	Direct economic loss to cultural heritage damaged or destroyed attributed to disasters.

Global target D: Substantially reduce disaster damage to critical infrastructure and disruption of basic services, among them health and educational facilities, including through developing their resilience by 2030	
D-1 (compound)	Damage to critical infrastructure attributed to disasters.
D-2	Number of destroyed or damaged health facilities attributed to disasters.
D-3	Number of destroyed or damaged educational facilities attributed to disasters.
D-4	Number of other destroyed or damaged critical infrastructure units and facilities attributed to disasters. The decision regarding those elements of critical infrastructure to be included in the calculation will be left to the Member States and described in the accompanying metadata. Protective infrastructure and green infrastructure should be included where relevant.
D-5 (compound)	Number of disruptions to basic services attributed to disasters.

D-6	Number of disruptions to educational services attributed to disasters.
D-7	Number of disruptions to health services attributed to disasters.
D-8	Number of disruptions to other basic services attributed to disasters. The decision regarding those elements of basic services to be included in the calculation will be left to the Member States and described in the accompanying metadata.

Global target E: Substantially increase the number of countries with national and local disaster risk reduction strategies by 2020.	
E-1	Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030.
E-2	Percentage of local governments that adopt and implement local disaster risk reduction strategies in line with national strategies. Information should be provided on the appropriate levels of government below the national level with responsibility for disaster risk reduction.

Global target F: Substantially enhance international cooperation to developing countries through adequate and sustainable support to complement their national actions for implementation of this framework by 2030.	
F-1	Total official international support, (official development assistance (ODA) plus other official flows), for national disaster risk reduction actions. Reporting of the provision or receipt of international cooperation for disaster risk reduction shall be done in accordance with the modalities applied in respective countries. Recipient countries are encouraged to provide information on the estimated amount of national disaster risk reduction expenditure.
F-2	Total official international support (ODA plus other official flows) for national disaster risk reduction actions provided by multilateral agencies.
F-3	Total official international support (ODA plus other official flows) for national disaster risk reduction actions provided bilaterally.
F-4	Total official international support (ODA plus other official flows) for the transfer and exchange of disaster risk reduction-related technology.
F-5	Number of international, regional and bilateral programmes and initiatives for the transfer and exchange of science, technology and innovation in disaster risk reduction for developing countries.
F-6	Total official international support (ODA plus other official flows) for disaster risk reduction capacity- building.
F-7	Number of international, regional and bilateral programmes and initiatives for disaster risk reduction- related capacity-building in developing countries.

F-8	Number of developing countries supported by international, regional and bilateral initiatives to strengthen their disaster risk reduction-related statistical capacity.
Global target G: Substantially increase the availability of and access to multi-hazard early warning systems and disaster risk information and assessments to the people by 2030.	
G-1 (compound G2-G5)	Number of countries that have multi-hazard early warning systems.
G-2	Number of countries that have multi-hazard monitoring and forecasting systems.
G-3	Number of people per 100,000 that are covered by early warning information through local governments or through national dissemination mechanisms.
G-4	Percentage of local governments having a plan to act on early warnings.
G-5	Number of countries that have accessible, understandable, usable and relevant disaster risk information and assessment available to the people at the national and local levels.
G-6	Percentage of population exposed to or at risk from disasters protected through pre-emptive evacuation following early warning. Member States in a position to do so are encouraged to provide information on the number of evacuated people.

SFDRR Priorities:

Priority 1. Understanding disaster risk

Disaster risk managements hold be based on an understanding of disaster risk in all its dimensions of vulnerability, capacity, exposure of persons and assets, hazard characteristics and the environment. Such knowledge can be used for risk assessment, prevention, mitigation, preparedness and response.

Priority 2. Strengthening disaster risk governance to manage disaster risk

Disaster risk governance at the national, regional and global levels is very important for prevention, mitigation, preparedness, response, recovery, and rehabilitation. It fosters collaboration and partnership.

Priority 3. Investing in disaster risk reduction for resilience

Public and private investment in disaster risk prevention and reduction through structural and non-structural measures are essential to enhance the economic, social,

health and cultural resilience of persons, communities, countries and their assets, as well as the environment.

Priority 4. Enhancing disaster preparedness for effective response and to “Build Back Better” in recovery, rehabilitation and reconstruction

The growth of disaster risk means there is a need to strengthen disaster preparedness for response, take action in anticipation of events, and ensure capacities are in place for effective response and recovery at all levels. The recovery, rehabilitation and reconstruction phase is a critical opportunity to build back better, including through integrating disaster risk reduction into development measures

CHAPTER- IX
RECONSTRUCTION, REHABILITATION AND RECOVERY
MEASURES

Annexure

**REVISED LIST OF ITEMS AND NORMS OF ASSISTANCE FROM STATE
DISASTER RESPONSE FUND (SDRF) AND NATIONAL DISASTER RESPONSE
FUND (NDRF)**

(Period 2022-23 to 2025-26, MHA Letter No. 33-03/2020-NDM-I Dated 10.10.2022)

S.No.	Items	Norms of Assistance
A	Response & Relief [40% of State Disaster Risk Management Fund (SDRMF) i.e. equal to 50% of SDRF allocation for the year]	
1	Gratuitous Relief	
	a) Ex-Gratia payment to families of deceased persons.	Rs. 4.00 lakh per deceased person, including those involved in the relief operations or associated in preparedness activities, subject to the certification regarding cause of death from the appropriate authority.
	b) Ex-Gratia payment for loss of a limb or eye(s).	Rs. 74,000/- per person, when the disability is between 40% and 60%. Rs. 2.50 lakh per person, when the disability is more than 60%. Subject to certification by a doctor from a hospital or dispensary of Government, regarding the extent and cause of disability.
	c) Grievous injury requiring hospitalization	Rs. 16,000/- per person requiring hospitalization for more than a week. Rs. 5400/- per person requiring hospitalization for less than a week. Note: Injured persons getting treatment under the 'Ayushman Bharat' Yojna, will not be eligible for relief under this item.
	d) Clothing and utensils/ household goods for families, whose houses have been washed away/ fully damaged/severely inundated for more than two days due to a natural calamity.	Rs. 2,500/- per family, for the loss of clothing. Rs.2,500/- per family, for loss of utensils/ household goods.
	e) Gratuitous relief for families whose livelihood is seriously affected.	Gratuitous Relief (GR) for families, whose livelihood is seriously affected will be provided to two adults members of the affected family as per actual rate of MNREGA per day or average rate of all States/UTs per day, whichever is lower. For this purpose, notification issued by Ministry of Rural Development from time to time, is to be referred for calculating average rate. The relief amount should be disbursed

		through DBT/cash(In case of exigency of the situation only) or the State Government may provide this relief in kind. State Govt. will certify that identified beneficiaries are not housed in relief camps, during the period GR is provided. Further, the State Government will provide the basis and process for arriving at such beneficiaries, district-wise. Period for providing gratuitous relief will be as per the assessment of the State Executive Committee (SEC) and the Central Team (in case of NDRF). The default period of assistance will be upto 30 days, which may be extended upto 60 days in the first instance, if required, and subsequently upto 90 days in case of drought/ pest attack. Depending on the ground situation, the SEC can extend the time period beyond the prescribed limit. Provided that expenditure on this account, in no case, should exceed 25% of SDRF allocation under this window (Response & Relief) for the year. Further, to ensure transparency, the list of persons to whom Gratuitous Relief is provided, should be uploaded on the website of the State Government. The State Government shall notify the basis and proof for the identification of beneficiaries in a transparent manner.
2.	Search & Rescue Operations	
	(a) Cost of search and rescue measures/ evacuation of people affected/ likely to be affected.	As per the actual cost incurred, assessed by SEC and recommended by the Central Team (in case of NDRF). By the time the Central Team visits the affected area, these activities may be already over. Therefore, the SEC and the Central Team can recommend actual/ near-actual costs.
	(b) Hiring of boats and other essential equipments for carrying immediate relief and saving lives.	As per the actual cost incurred, assessed by SEC and recommended by the Central Team (in case of NDRF). The quantum of assistance will be limited to the actual expenditure incurred on hiring boats and other essential equipment required for rescuing stranded people and thereby saving human lives during a notified natural calamity.
3	Relief Measures	
	(a) Provision for temporary accommodation, food, clothing, medical care, Gen-set etc. for	As per actual cost incurred, and assessed by SEC and recommended by the Central Team (in case of NDRF), for a period upto 30 days. The

	people affected/ evacuated and sheltered in relief camps.	SEC would need to specify the number of camps, their duration and the number of persons in camps. In case of continuation of a calamity like drought, or widespread devastation caused by earthquake or flood etc., this period may be extended to 60 days. Depending on the ground situation, the SEC can extend the time period beyond the prescribed limit. Provided that expenditure on this account, in no case, should exceed 25% of SDRF allocation under this window (Response & Relief) for the year. Medical care to be provided from National Health Mission (NHM).
	(b) Air dropping of essential supplies and rescue by Air Force	As per actual cost incurred, assessed by SEC and recommended by the Central Team (in case of NDRF). The quantum of assistance will be limited to actual amount raised in the bills by the Ministry of Defence for airdropping of essential supplies and rescue operations only.
	(c) Provision of emergency supply of drinking water.	As per actual cost, based on the assessment of need by SEC and recommended by the Central Team (in case of NDRF), up to 30 days, which may be extended upto 90 days in case of drought. Depending on the ground situation, the SEC can extend the time period beyond the prescribed limit. Provided that expenditure on this account, in no case, should exceed 25% of SDRF allocation under this window (Response & Relief) for the year.
4.	Clearance Of Affected Areas	
	a) Clearance of debris in public areas.	As per actual cost, for a period upto 30 days from the date of start of the work, based on assessment of need by SEC for the assistance to be provided under SDRF and as per the assessment of the Central team for assistance to be provided under NDRF.
	b) Draining off flood water in affected areas ⁱ	As per the actual cost within 30 days from the date of start of the work based on assessment of need by SEC for the assistance to be provided under SDRF and as per assessment of the Central team (in case of NDRF).
	c) Disposal of dead bodies/ Carcasses ⁱ	As per the actual cost, based on assessment of need by SEC and recommendation of the Central Team (in case of NDRF).
5	Agriculture	
(i)	Assistance to small & marginal farmers having landholding upto 2 ha	

(A)	Assistance for land and other loss	
	a) De-silting of agricultural land (where thickness of sand/ silt deposit is more than 3", to be certified by the competent authority of the State Government.)	Rs 18,000/- per hectare for each item. Above is subject to a minimum assistance of not less than Rs. 2,200/- per farmer. (Subject to the condition that no other assistance/ subsidy has been availed of by/ is eligible to the beneficiary under any other Government Scheme)
	b) Removal of debris on agricultural land in hilly areas	
	c) De-silting/ Restoration/ Repair of fish farms	
	d) Loss of substantial portion of land caused by landslide, avalanche, change of course of rivers.	Rs 47,000/- per hectare to only those small and marginal farmers whose ownership of the land is legitimate as per the revenue records. Above is subject to a minimum assistance of not less than Rs. 5,000/- per farmer
(B)	Input subsidy (where crop loss is 33% and above)	
	a) For agriculture crops, horticulture crops and annual plantation crops	Rs. 8,500/- per ha. in rainfed areas. Above is subject to a minimum assistance of not less than Rs.1,000/- per farmer and restricted to sown areas. Rs. 17,000/- per ha. in assured irrigated areas. Above is subject to a minimum assistance of not less than Rs.2,000/- per farmer and restricted to sown areas.
	b) Perennial crops/Agro forestry (Plantation in own farmland)	Rs. 22,500/- ha. for all types of perennial crops/ Agro forestry (Plantation in own farmland), subject to a minimum assistance of not less than Rs. 2,500/- per farmer and restricted to sown areas.
	c) Sericulture	Rs. 6,000/- per ha. for Eri, Mulberry, Tussar Rs. 7,500/- per ha. for Muga. Above is subject to a minimum assistance of not less than Rs.1000/- per farmer and restricted to sown areas.
(ii)	Input subsidy to farmers having more than 2 Ha of landholding	Rs. 8,500/- per hectare in rainfed areas and restricted to sown areas. Rs. 17,000/- per hectare for areas under assured irrigation and restricted to sown areas. Rs. 22,500/- per hectare for all types of perennial crops/ trees including agro forestry (Plantation in own farmland) and restricted to sown areas.

		Assistance may be provided where crop loss is 33% and above, subject to a ceiling of 2 ha. per farmer.
	Note: Assistance for input subsidy under item No. 5(i)(B) and 5(ii) will be adjusted to the extent of insurance claim received under the Prime Minister Fasal Bima Yojna (PMFBY), for the instant calamity.	
6.	Animal Husbandry - Assistance To Small And Marginal Farmers And Landless Livestock Owners	
	i) Assistance for the loss of milch animals, draught animals or animals used for haulage.	Milch Animals- Rs. 37,500/- Buffalo/ cow/camel/ yak/ Mithun etc. Rs. 4,000/- Sheep/ Goat/ Pig Draught animals - Rs. 32,000/- Camel/ horse/ bullock etc. Rs. 20,000/- Calf/Donkey/ Pony/ Mule/ Heifers The assistance may be restricted for the actual loss of economically productive animals due to notified natural calamity and will be subject to a ceiling of 3 large milch animals and /or 30 small milch animals or 3 large draught animals and/or 6 small draught animals per household irrespective of whether a household has lost a larger number of animals. (Claim for loss of animals will be considered only if number and type of animals owned by Small and Marginal Farmers/Landless Livestock Owners are registered with local/designated authorities.) Poultry:- Poultry @ 100/- per bird subject to a ceiling of an assistance of Rs 10,000/- per beneficiary household. The death of the poultry birds should be on account of a natural calamity. Note: - Relief under these norms is not eligible if the assistance is available from any other Government Scheme, e.g. loss of birds due to Avian Influenza or any other diseases for which the Department of Animal Husbandry has a separate scheme for compensating the poultry owners.
	ii) Provision of fodder / feed concentrate including water supply and medicines in cattle camps.	Large animal - Rs. 80/- per day. Small animal - Rs. 45/- per day.

	Explanation: It will also include existing Gaushalas, if authorized by the State Government by Notification or Government Order, to act as a cattle camp subject to the following conditions:- (i) During the period of calamity, District Administration will assess the requirement of cattle shelter and number of gaushala required to be notified as cattle shelter in the District/Tehsil. After obtaining the base-line information on the cattle already sheltered and the number of more cattle it can accommodate, Gaushala may be notified as cattle shelter. (ii) The notified gaushala shall maintain a separate account of the additional cattle belonging to SMF and landless labourers for the notified drought period. The consolidated list of SMF and landless beneficiaries with number and types of animals will be displayed on the notice board of Gram Panchayat, Block, Tehsil and in the office of Sub-Divisional Magistrate and District Magistrate as well as State/ District web-site for the purpose of verification and social audit. (iii) SDRF funds will only be released to such notified gaushala on reimbursement basis and will be limited to list of individual beneficiaries notified as in Sl.No. (ii) above.	Period for providing relief will be as per the assessment of the SEC and the Central Team (in case of NDRF). The default period for assistance will be for the period of calamity upto 30 days, which may be extended upto 60 days in the first instance and in case of severe drought up to 90 days. Depending on the ground situation, the SEC can extend the time period beyond the prescribed limit. Provided that expenditure on this account, in no case, should exceed 25% of SDRF allocation under this window (Response & Relief) for the year. Based on assessment of need by SEC and recommendation of the Central Team, (in case of NDRF) consistent with estimates of cattle as per Livestock Census and subject to the certificate by the competent authority about the requirement of medicine and vaccine being calamity related.
	iii) Transport of fodder to cattle outside cattle camp	As per actual cost of transport during notified calamity, based on assessment of need by SEC and the recommendation of the Central Team (in case of NDRF), consistent with estimates of cattle as per Livestock Census.
7	Fishery	
	i) Assistance to Fisherman for repair / replacement of non-mechanized boats and damaged/ lost nets. (This assistance will not be provided if the beneficiary is eligible or has availed of any subsidy/	Rs. 6,000/- for repair of partially damaged boats only Rs. 3,000/- for repair of partially damaged net Rs.15,000/- for replacement of fully damaged boats

	assistance, for the instant calamity, under any other Government Scheme.)	Rs. 4,000/- for replacement of fully damaged net (Assistance under this item will be adjusted to the extent of insurance claim, if any, received by the fisherman, under any insurance scheme, for the instant calamity).
	ii) Input subsidy for fish seed farm to Small and Marginal Farmers	Rs. 10,000/- per hectare. This assistance will not be provided if the beneficiary is eligible or has availed of any subsidy/ assistance, for the instant calamity, under any other Government Scheme, except the one time subsidy provided under the Scheme of Ministry of Fisheries, Animal Husbandry & Dairying.
8	Handicrafts/Handloom – Assistance To Artisans	
	i) For replacement of damaged main functional tools/ equipments	Rs. 5,000/- per artisan for equipments. Subject to certification by the competent authority designated by the Government about damage and its replacement.
	ii) For loss of raw material/ goods in process/ finished goods	Rs. 5,000/- per artisan for raw material. Subject to certification by Competent Authority designated by the State Government about loss and its replacement.
9	Locust Control	
	Hiring of vehicles, tractors, with spray equipments for spraying of plant protection chemicals for pest control, hiring of water tankers and purchase of plant protection chemicals for locust control.	As per the actual cost, based on the assessment of need by the SEC and recommended by the Central Team (in case of NDRF). The quantum of assistance will be limited to the actual expenditure incurred on hiring vehicles, tractors with spray equipments for spraying of plant protection chemicals for locust control during locust attack. However, expenditure on this account, in no case, should exceed 25% of SDRF allocation under this window (Response & Relief) for the year.
B.	Recovery & Reconstruction: (30% Of SDRMF i.e. equal to 37.50% of SDRF allocation for the year)	
10	Housing	
	a) Fully damaged/ destroyed houses and severely damaged houses	

	i) Pucca house	Rs. 1,20,000/- per house, in plain areas.,
	ii) Kutcha House	Rs. 1,30,000/- per house, in hilly areas.
	b) Partially Damaged Houses (Other than huts) where the damage is at least 15%	
	i) Pucca house	Rs. 65,00/- per house
	ii) Kutcha House	Rs. 4,000/- per house,
	c) Damaged/ destroyed huts:	Rs. 8,000/- per hut, (Hut means temporary, make shift unit, inferior to Kutcha house, made of thatch, mud, plastic sheets etc. traditionally recognized as hut by the State/ District authorities.) Note: The damaged house/hut should be an authorized construction, duly certified by the Competent Authority of the State Government.
	e) Cattle shed attached with house	Rs. 3,000/- per shed,
11	Infrastructure [Repair/restoration(of immediate nature) of damaged infrastructure]	
	(1) Roads & bridges, which may include the following activities:	Assessment of requirements: Based on the assessment of need, as per States' notified schedule of rates for repairs, by SEC and recommendation of the Central Team (in case of NDRF). In case of repair of roads, assistance will be given based on the notified Ordinary Repair (OR) and Periodical Renewal (PR) of the State. In case OR & PR is not available, then assistance will be provided as per rate prescribed in this item. However, in any case, the assistance will be provided at the rate whichever is lower. Prescribed rate are as under:-
	i) Filling up of breaches and potholes, use of pipe for creating waterways, repair and stone pitching of embankments.	➤ Repairs of State Highways /Major District Roads(MDR) - in normal areas -- @ Rs. 1.0 lakh /km ; - in hilly areas -- @ Rs. 1.25 lakh /km ;
	ii) Repair of breached culverts.	➤ Repairs of Rural/village Roads with culverts - in normal areas -- @ Rs. 60,000/- km ; - in hilly areas -- @ Rs. 75,000 / km ;
	iii) Providing diversions to damaged/washed out portions of bridges to restore immediate connectivity.	➤ Repairs of RCC Culvert/Bridge - in normal areas -- @ Rs 60,000 per culvert; - in hilly areas -- @ Rs 75,000/- per culvert.
	iv) Temporary repair of approaches to bridges/embankments of bridges, repair of damaged railing bridges, repair of causeways to restore immediate connectivity, granular sub base, over damaged stretch of roads to restore traffic.	

	(2) Drinking Water Supply Schemes, which may include the following activities:- - Repair of damaged platforms of hand pumps/ring wells/spring-tapped chambers/public stand posts, cisterns. - Restoration of damaged stand posts including replacement of damaged pipe lengths with new pipe lengths, cleaning of clear water reservoir (to make it leak proof). - Repair of damaged pumping machines, leaking overhead reservoirs and water pumps including damaged intake-outtake structure, approach gantries/jetties.	Damaged drinking water supply schemes will be eligible for assistance as per actual, subject to a ceiling of Rs 2.00 lakh per damaged scheme. Cleaning of Community drinking water wells as per actual, subject to a ceiling of Rs 10,000/ per well
	(3) Minor Irrigation Schemes, which may include the following activities: - Immediate repair of damaged canal structures and earthen/ masonry works of tanks and small reservoirs with the use of cement, sand bags and stones. - Repair of weak areas such as piping or rat holes in dam walls/ embankments. - Removal of vegetative material/building material/debris from canal and drainage system. - Repair of embankments of minor irrigation projects.	In case of repairs of minor Irrigation works, assistance will be given as per the schedule of rates (SOR) for repairs notified by the concerned State. In case SOR is not available, assistance for irrigation scheme/ canal will be provided as per actuals, subject to the ceiling of Rs 2.00 lakh per damaged minor scheme. Note:- However, in any case, the assistance will be provided at the rate whichever is lower. Assistance for restoration of damaged embankment of minor irrigation projects will be at par with the case of similar rural roads, subject to the stipulation that no duplication would be done with any ongoing schemes.
	(4) Power (only limited to immediate restoration of electricity supply in the affected areas): Damaged Poles/conductors and transformers upto 11 kv.	Regarding repair of damaged power sector, assistance will be given for the damaged conductors, poles and transformers upto the level of 11 KV and LT lines with bare conductor, as per details hereunder: ➤ The rate of assistance will be: - Rs.5000/pole; - Rs. 0.50 lakh per km for repairing of damaged LT lines; - Rs.1.00 lakh for replacement of one damaged distribution transformer.

		(Note:-The above assistance will not be applicable for those items which can be re-used).
	(5) Schools Repair of damaged schools building	As per actual, subject to a ceiling of Rs 2.00 lakh per school.
	(6) Primary/Community Health Centres Repair of Primary/Community Health Centres	As per actual, subject to a ceiling of Rs 2.00 lakh per unit.
	(7) Community Assets Owned by Panchayat Temporary repair of Mahila Mandal, Yuva Kendra, Panchayat Ghar, Community Hall, Anganwadi, etc.	As per actual subject to a ceiling of Rs 2.50 lakh per unit.
C.	Preparedness & Capacity Building (10% Of SDRMF i.e equal to 12.50% of SDRF allocation for the year)	
12.	Procurement of essential search, rescue and evacuation equipments including communication equipments, etc for response to disaster.	Expenditure from the preparedness and capacity building window will be governed by the Guidelines issued separately by the Ministry of Home Affairs for the Preparedness & Capacity Building window of SDRF/ NDRF.
13	Capacity Building	
D.	State Specific Disasters	
	State specific disasters within the local context in the State, which are not included in the notified list of disasters eligible for assistance from SDRF/ NDRF, can be met from SDRF within the limit of 10% of the annual funds allocation of ~~respective window~~ the SDRF.	Expenditure is to be incurred from SDRF only (and not from NDRF), as assessed by the SEC. The norm for various items will be the same as applicable to other notified natural disasters, as listed above; or In these cases, the scale of relief assistance against each item for 'local disaster' shall not exceed the norms of SDRF. The flexibility is to be applicable only after the State has formally listed the disasters for inclusion and has notified transparent norms and guidelines, with a clear procedure for identification of the beneficiaries for disaster relief for such local disasters', with the approval of SEC.
E	Items Not Covered under SDRF/NDRF	
	a) Colleges and other educational institutions buildings b) Major/medium Irrigation Schemes c) Flood control and anti Erosion Protection work	

	d) Hydro Power Project/HT Distribution systems/Transformers and sub stations e) High Tension Lines (above 11 kv) f) State Govt Buildings viz. departmental/office building, departmental/residenti quarters, religions structures, patwarkhana, Court premises, play ground, fore bungalow property and animal/bird sanctuary etc. g) Long term/permanent restoration work h) Procurement of equipments/ machineries under NDRF i) National Highways j) Sectors such as Telecommunication and Power (except immediate restoration power supply), which generate their own revenues, and also undertake immedia repair/restoration works form their own funds/resources, are excluded.
--	--

Note:-

- (i) For assistance under NDRF for items at S. Nos. 2 (a), (b), 3 (a), (b), (c), 4 (a), (b), (c), 6 (ii), (iii), and 9, while actual expenditure is allowed, the State Government will provide the item-wise details of expenditure to the Inter-Ministerial Central Team (IMCT)/ Central Government.
- (ii) Ex-Gratia payment of Rs 50,000/- per deceased person, to next of kin of the deceased person, including those involved in the relief operations or associated in the preparedness activities, subject to the cause of death being certified as COVID-19, as per the guidelines jointly issued by the Ministry of Health and Family Welfare and the Indian Council of Medical Research on 3rd September, 2021, will be given as per guidelines on minimum relief issued by the National Disaster Management Authority (NDMA) dated 11.09.2021.

This ex-gratia assistance will be applicable from the date of first COVID-19 case reported in the country and will continue till de-notification of COVID-19 as a disaster or till further orders, whichever is earlier, to next of kin of the deceased due to COVID-19.
- (iii) There will be a Mid-Term review of the norms after 2 years, based on price level index.
- (iv) The State Governments are to take utmost care and ensure that all individual beneficiary-oriented assistance is necessarily/ mandatorily disbursed through Direct Benefit Transfer in the bank account of the beneficiary.
- (v) The scale of relief assistance against each item for all notified disasters including 'local disaster' should not exceed the norms of SDRF/ NDRF. Any amount spent by the State for such disasters over and above the ceiling, would be borne out of the resources of the State Government and not from SDRF.
