District Commissioner cum Chairman  
DDMA, Baksa, Mushalpur

# DISTRICT DISASTER MANAGEMENT PLAN

## 2025-2026

DISTRICT DISASTER MANAGEMENT AUTHORITY(DDMA),

BAKSA DISTRICT

BTR, ASSAM

## Preface

Baksa district shares 89 km International border with Bhutan and is curved out of a part of Nalbari and Barpeta district. The historic Bodoland Territorial Council (BTC) accord signed on February 10, 2003 formed BTAD (Bodoland Territorial Autonomous Districts) and then BTR with five districts namely Kokrajhar, Chirang, Baksa, Udalguri and Tamulpur district.

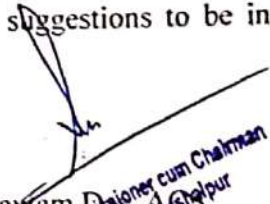

The District Disaster Management Plan 2025-26 is comprehensive to tackle any disaster that may arise in the district as stated in Disaster Management Act 2005. The purpose of preparing a District Disaster Management Plan is to compensate with DRR Roadmap 2030 for the outcome and reduce the mortality and economic loss. The District Administration with all line departments' stakeholders chalk out the DDMP for understanding the Risk, Strategic Preparedness, Response, Mitigation and Rehabilitation on any natural calamities and man-made disaster.

A close co-operation among all the Government agencies as well as non-government organizations is of utmost necessity for successfully carrying out rescue & relief work for further activities.

The District Disaster Management plan is prepared with an objective to fulfill to meet the 10 point of G20 along with SDG and DRR Roadmap goals and objective to meet the challenges during any disasters. The District Disaster Management Plan concepts are envisioning a disaster resilient roadmap for Baksa District. CEO, DDMA, Baksa, all four Revenue Circle Officers, including DDMA staffs along with all Heads of Officials put their inputs to prepare their Contingency plan cum DDMP, Baksa for the year 2025-26.

With the help and support of all the stakeholders of Revenue Circles and line departments, the DDMP, Baksa has envisaged with a vision and motto to fulfill the targets according to Govt. instruction.

I am thankful to all the line departments and other organizations that extended help and assistance in preparation of this Plan and cordially invite for their kind suggestions to be incorporated to update & improve the Plan in future.

  
Gautam Dasgupta  
District Commissioner cum Chairman  
DDMA, Baksa, Udalguri  
District Commissioner & Chairman  
District Disaster Management Authority,  
Baksa

### **7. Annexure 3: LIST OF VILLAGES AND GAONBURAH**

## **1.1: INTRODUCTION: KNOW THE REGION**

Baganpara Revenue Circle is one of the six circles of the Baksa district. The revenue circle office is almost 10 km to the east of the DC office, Baksa (From Mushalpur via Barbari PS). It has also a well-built road connectivity from GaneshMandir, Nalbari via Dhamdhama. The distance from Ganesh Mandir to the circle office is almost 26 km. Public transport facility is available in this above mentioned route only.

The Circle was created on February, 2001 (Then Nalbari District) with 47 villages, 35 of them are revenue villages, 11 of them are NC villages and one is FRNC. Before that, this newly created circle was a part of Baska Revenue Circle. When Baksa was notified as one of the districts of Bodoland Territorial Council in October 2003, it became automatically part of the Baksa district. There are 8 no. of lots in this Circle. The total area of this region is 1,28,845 bigha 2 katha 5 lecha.

*Figure 1.1: Public Facilitation Centre, Baganpara Revenue Circle*

Geographically the circle is situated at the foothill of the Himalayas. Since most of the villages of this region in high land area, hence flood is not a major problem in most of the villages.

## **1.2: FLOOD CONTINGENCY PLAN - WHY IS IT?**

Natural disaster is a part of our own earth so we can neither avoid it nor is it possible to prevent natural disaster altogether and flood is major disaster in Assam. But its effects can be reduced through systematic approach by Disaster Management initiatives. It can be an effective tool for saving valuable human lives and mitigation of human misery.

# **CONCEPT OF DISASTER MANAGEMENT**

## **2.1 DISASTERMANAGEMENT:**

The word Disaster is from a French word Desastre meaning bad or evil star. However this is a very narrow conception of disaster and in our context, any disaster means a situation in which there is a sudden disruption of normalcy within society causing widespread damage to life and property.

## **2.2 TYPOLOGY OFDISASTER:**

A disaster can be either natural (rain, flood, cyclone, storm, landslides, earthquake, and volcanoes) or manmade (war including biological, arson, sabotage, riots, accidents, fires, bomb explosions, nuclear explosions and ecological disasters). The discussion here is confined to the flood only.

## **2.3 TECHNICAL TERMS OF DISASTERMANAGEMENT**

### **2.3.1 HAZARD:**

A dangerous condition or events that threaten or have the potential for causing injury to life or damage to property or the environment. They can be categorized in various ways but, based on the origin, hazards worldwide are basically grouped in two broad headings:

1. Natural Hazards (hazards with meteorological, geological or even biologicalorigin)
2. Unnatural Hazards (hazards with human-caused or technologicalorigin)

### **2.3.2 RISK:**

Disaster risk is expressed as the likelihood of loss of life, injury or destruction and damage from a disaster in a given period of time. Disasters are sometimes considered external shocks, but disaster risk results from the complex interaction between development processes that generate conditions of exposure, vulnerability and hazard.

### **2.3.3VULNERABILITY :**

Vulnerability is defined as the extent to which a community, structure, service, or geographic area is likely to be damaged or disrupted by the impact of particular hazard, on account of their nature, construction and proximity to hazardous terrain or a disaster prone area.

### **2.3.4 CAPACITY:**

A combination of all the strengths and resources available within a community, society or organization that can reduce the level of risk, or the effects of a disaster. Capacity may include physical, institutional, social or economic means as well as skilled personal or collective attributes such as leadership and management. Capacity may also be described as capability. Some examples of capacity are: permanent houses, ownership of land, adequate food and income sources, family and community support in times of crisis, local knowledge, goodleadershipetc.

The broad objectives of the Flood contingency plan (Or disaster management plan) can be summarised by this following simple equation-

So, working on capacity building, the risk of disasters can be reduced.

#### **2.4 DISASTERS AND ITS CHALLENGES:**

Along with perennial floods, earthquakes pose a possible threat, particularly due to the fact that its time, location and magnitude cannot be accurately predicted. Moreover, the entire North-Eastern Region of India is located in a seismically active zone. The region has been witness to several violent earthquakes in the past. Challenges created by disasters particularly by the natural disasters such as floods, cyclones and high-intensity earthquakes are:

- To rescue and evacuate trapped people.
- To provide first aid to the injured.
- To take care of children, women and disabled people.
- To transfer the seriously injured and people needing urgent medical attention to hospitals.
- To restore communication network and essential services.
- To clear debris blocking roads and communication networks.
- To provide shelter and relief to homeless people.
- To arrange for food and drinking water to the affected people.
- To take immediate measure for disposal of dead bodies and animal carcasses to prevent the outbreak of epidemics.
- To take urgent measures for maintaining law and order.
- To take people to safer places in case of change of course of river due to floods.

It is a fact that natural disasters can be avoided and prevented, but only by our sincere efforts we can mitigate it through advance preparedness. Preparedness means Development, Rehabilitation, Restoration on one side and Mitigation, Rescue, Relief on the other side.

# **RULE OF ACTIVITIES IN DISASTER MANAGEMENT**

## **3.1 CIRCLE DISASTER MANAGEMENT COMMITTEE:**

Under the chairmanship of Mr. NorsingBey, ACS, Circle Officer of Baganpara Revenue Circle, the very first meeting of CDMC, Baganpara had been convened on 16-03-2017. Baganpara CDMC was constructed with the following personnel.

| SI No. | Name & Designation                        | Contact No. | Remarks  |
|--------|-------------------------------------------|-------------|----------|
| 1      | Mr. NorsingBey , ACS                      | 94351-68523 | Chairman |
|        | I/C Circle Officer, Baganpara Rev. Circle |             |          |
| 2      | Mr. JintuBaishya                          | 98540-69473 | Convener |
|        | Field Officer, Baganpara Rev. Circle      | 95774-04273 |          |
| 3      | Mr. Kailash Roy                           | 98643-36314 | Member   |
|        | BDO, Dhamdhama Developmental Block        |             |          |
| 4      | Mr. Hemanta Kr. Sarma                     | 94357-32953 | Member   |
|        | JE, WRD                                   |             |          |
| 5      | Mr. Mahesh Sarma                          | 94351-11480 | Member   |
|        | ADO, Subankhata                           |             |          |
| 6      | Mr. Sushendra Das                         | 94351-27045 | Member   |
|        | Forest Ranger, Batabari Forest Range      |             |          |
| 7      | Mr. PhaniChoudhury                        | 94018-28641 | Member   |
|        | JE, PHED                                  |             |          |
| 8      | Dr. DulalChoudhury                        | 81360-52288 | Member   |
|        | Veterinary Officer, Subankhata            |             |          |

### **3.1.1 DUTIES AND RESPONSIBILITIES OF CDMC:**

As mentioned in the Office memorandum, reference no. RGR/83/2012/Pt.II/21, the duties and responsibilities of CDMC are –

- ☐ Provide technical and professional support to the VLMCCs for the preparation of Village Master Plan (VMP) for Disastermanagement.
- ☐ Design and implement awareness generation activities on DisasterManagement.
- ☐ Review and monitor the preparedness of Govt. departments and agenciesonDisasterManagement.
- ☐ Provide feedback to the DDMA and extend cooperation to it inimplementation of Disaster Managementactivities.
- ☐ Plan, implement and monitor relief and rehabilitationoperation

□ □

Also CDMCs should meet once in two months and as many times as may be required during times of disaster.

### **3.2 RESPONSE PLAN FOR FLOODS IN REVENUE CIRCL ELEVEL:**

According to Assam Disaster manual, Response plan for floods in Revenue Circle level is given as follows-

| SL No | TASK                                                                                                                                                                                                                                                                                                                                                                                                                         | RESPONSIBILITY                                      |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------|
| 1     | On receipt of warning, mobilize the Field Officer, Lot Mondal, GaonBurah, SDRF and other agencies and resources available under Circle Officer's jurisdiction.                                                                                                                                                                                                                                                               | Circle Officer (CO) of the concerned Revenue Circle |
| 2     | Go to the specific location immediately and inform the villagers on the probability of any flood event and ask them to take necessary precautionary measures.                                                                                                                                                                                                                                                                | Field Officer, Lot Mondal and GaonBurha             |
| 3     | Flood Report should be sent to DEOC by 9 am every day in the flood season, even if there is no flood                                                                                                                                                                                                                                                                                                                         | Circle Officer (CO) of the concerned Revenue Circle |
| 4     | In case of probability of high intensity flood, evacuation of people from vulnerable areas to pre-identified safe locations and preposition of quick Response Team/SDRF/NDRF/Police Force/Sand Bags/ Boats/Tarpaulin/Tents)<br>Keep DC/SDO (Civil) informed on an hourly basis about the situation on the ground level and may request additional resources of man, material and machines if required from DC or SDO (Civil) | Circle Officer (CO) of the concerned Revenue Circle |
| 5     | Inform: Block Development Officer (BDO), so that BDO can inform PRI representatives for appropriate action.                                                                                                                                                                                                                                                                                                                  | Circle Officer (CO) of the concerned Revenue Circle |
| 6     | Open Relief Camps if required and give requisition for GR to DC                                                                                                                                                                                                                                                                                                                                                              | Circle Officer (CO) of the concerned Revenue Circle |
| 7     | Arrange for distribution of Relief                                                                                                                                                                                                                                                                                                                                                                                           | Circle Officer (CO) of the concerned Revenue Circle |

### **3.3 ROLES AND RESPONSIBILITIES OF DIFFERENT DEPARTMENTS/ AGENCIES FOR FLOOD MANAGEMENT**

#### **3.3.1 AGRICULTURE DEPT**

**Pre Flood** The District Agricultural officer shall:

|  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|--|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | <p>1) Undertake extension measures relating to the latest result of research available from the Assam Agricultural University or from other sources on already released varieties including flood tolerant varieties and other cultural practise for agriculture in the generally flood affected areas;</p> <p>2) Advise the dates after which seed transplantation should not be undertaken; and</p> <p>3) Advise on the suitable cropping patterns</p> <p>4) By the 30<sup>th</sup> of April the district Agricultural officer will visit the generally flood affected areas and Make an assessment along with the Revenue staff of the acreage under crops and number of cultivators likely to be affected in each of the areas; Prepare a block-wise agricultural map showing areas under different crops in the generally flood affected areas and forward a copy each to the Deputy Commissioner, the Zonal Joint Director of Agriculture and the Director of Agriculture; Assess requirement of and assist DC in arranging for seeds, seedlings and manures for grants; and agricultural loans in cash and kind (seeds, seedling, manures, agricultural implements bullocks), Assess requirement and arrangement for pesticides for protection of crops after floods and tools and plants relief works.</p> <p>5) Make arrangements for raising seedling in specific government agriculture farms/nurseries. If the quantity to be raised in the government farms/nurseries is not enough, the balance should be raised by arrangement with cultivators.</p> |

## **4.1 VILLAGES VULNERABLE TO**

### **FLOOD:**

There are two rivers- Pagladia and Mora Pagladia (Diring) in Baganpara Revenue Circle. Historically flood occurred in the following villages due to the Pagladia River. Other than Gorbhitor, Bherbheri, NijBorsiral and Uttar Borsiral, other villages are not so flood prone, only flash flood occurred in the past when there is excessive rain in the Himalayas and in its foothills. Although in the region, there are hardly any embankments, hence when the water level goes high, water directly spill into the villages and destroy the paddy fields. Most of the people in this region are dependent on Agriculture, therefore their economy got affected badly when there is flood, even though it is moderate.

Also it should be mentioned that the embankment present in NijBorsiral and Uttar Borsiral villages is in working by WR department. Moreover, a strong embankment has been building up in the western bank of the river (Tamulpur and Ghograpar revenue circle) with modern technology. So there is every possibility that this time the current of the river may flush away the embankment and create havoc

amongst the villagers.

*Figure 4.1: The embankment in NizBorsiral Village*

In Gorbhitor and Bherbheri villages, when a team of the circle office Baganpara visited the vulnerable areas, what they noticed was that the village roads were in very poor condition. So during the flood, it would be a real headache for the Officials to visit the affected places. Along the river, some doubtful people encroach the lands and have been living there very dangerously. Strict action is recommended against those encroachers. The team also came to know that water spill over to low lying areas through the Village Jartaluk, Kadamtala, Nichalamari, Holapar and Ghoramara mainly. Hence it is highly recommended to build an embankment in this region to block the floodwater.

*Figure 4.2 Poor conditions of the roads in Ghorbhiton-Bherbheri area*

In the CDMC meet, it is also enlightened that along with flood, some villages Gerua, Bherbheri, Gorbhiton, Uttar Borsiral and NijBorsiral are prone to erosion.

The BDO of Dhamdhama Developmental Block also informed that no raised platform has been built in the Baganpara Revenue Circle till date.

Names of the vulnerable villages have been listed in the annexure I.

The list of the centres which can be used as the relief camps during disasters has been listed in the annexure II with the necessary details.

As the area is also not heavily prone to flood, there are no Rescue boats given by state government. There are also no country boats in this region.

The important contact no.s has been mentioned in the annexure III with necessary details.

An updated database with the names of all the villages along with all the necessary villages has also been produced which is given in annexure IV.

The map of Baganpara Revenue Circle showing the vulnerable areas has also been enclosed herewith this Flood contingency plan.

# Annexure I: List of the vulnerable Villages

| Village Name   | Name of the GB        | Contact No. of the GB | Name of the LM           | Contact No. of LM | Remarks                       |
|----------------|-----------------------|-----------------------|--------------------------|-------------------|-------------------------------|
| Gorbhitor      | Prabhat Das           | 99574-39756           | Manabendra Sarma(I/C SK) | 98591-21868       | Water is clogged for 3-4 days |

Annexure II: Name Of The centres which can be used as Relief Camps during disaster

| Name of the Centre              | Villages Covered          | Capacity | In Charge of the centre | Contact no. | Drinking Water Facility | Sanitation Facility |
|---------------------------------|---------------------------|----------|-------------------------|-------------|-------------------------|---------------------|
| Gorbhitor High School           | Gorbhitor Bherbheri       | 400      | Kamal Kalita            | 9101537806  | YES, Hand Pump          | YES                 |
| Ghorama LP/ME School            | Ghoramara Jartaluk        | 300      | Ranjit Das              | 9707119070  | YES, Hand Pump          | YES                 |
| Nichalamari Milan High School   | Holapar Kadamtola         | 300      | Jogen Rajbongshi        | 9678567930  | YES, Hand Pump          | YES                 |
| Khagrabari Arunodoi High School | Holapar Kadamtola         | 400      | Kamal Huzury            | 6002846254  | YES, Hand Pump          | YES                 |
| Kadamtala ME School             | Holapar Kadamtola         | 200      | Dipak Das               | 9101696726  | YES, Hand Pump          | YES                 |
| Sundarpur High School           | Jartaluk Holapar Guwalbil | 300      | Raju Barman             | 8876798880  | YES, Hand Pump          | YES                 |
| Swahid Dilip Huzuri LP school   | Jartaluk Holapar          | 100      | Mukut Bezbaruah         | 87238-22925 | YES, Hand Pump          | YES                 |
| Siral Vidyapith High School     | Niz Barsiral              | 300      | Samendra Baishya        | 9864043723  | YES, Hand Pump          | YES                 |
| Purbanchal ME School            | Bherbheri Uttar Barsiral  | 300      | Nayan Mani Dekka        | 8638769007  | YES, Hand Pump          | YES                 |

It should be noted that in other villages (which are not mentioned in this list), generally flash floods occurred in the past. Therefore in those villages, relief camps were not put into act, as the flood water stayed only for 3-4 hours.

Also, it is recommended that KhagrabariArunodoi High/ME School should be used instead of Kadamtala ME/LP School. The sanitation facility in Kadamtala ME/LP School is in very poor condition. On the other hand KhagrabariArunodoi High/ME School has all the necessary facilities. Therefore holding a relief centre in this school will do a world of good to the people who take shelter in the time of disaster. It should also be mentioned that, since the flood in this region is of moderate level, hence most of the people ought to stay in their home, only a small portion usually move to reliefcamps

**Annexure III: Important Contact No.s of Baganpara Revenue Circle**

| Sl No. | Name                   | Designation & Dept.                             | Contact No. |

## **Circle Level Control Room:**

The office of the Circle Officer, Barama Revenue Circle will function as Circle Level Control Room during flood.

## **Requisition and Distribution of GR etc:**

The Sector Officer with the help of Lot Mandals, Gaon Pradhan and VCDC members will prepare the list of affected people by flood after spot enquiry and submit the requisition for GR and other relief materials to Field Officer, who will then forward the same to the Circle Officer, Barama Revenue Circle. The Circle Officer will submit the requisition for GR etc. to the District Authority and receive the same. The Circle Officer will issue the GR etc. to the camp in-charge/Distribution committee under the direct control of the Sector Officer. The camp in-charge/Distribution committee will distribute GR and other relief materials among the flood affected people under the supervision of the Sector Officer.

The camp in-charge/Distribution committee will prepare APR and submit the same to the Circle Officer.

As per instruction of the Govt. of Assam, no encroachers of VGRs will be entitled to GR. The Field Officer will prepare the Flood report along with requisition for GR etc. in a prescribed format and submit the same to DDMA after issued by the Circle Officer. Moreover, the Field Officer will have to submit the daily flood report regularly.

## **Circle Disaster Management committee (CDMC)**

With a view to check flood problem and bringing out efficient governance, a Circle Disaster Management committee (CDMC) has been constituted at circle level to address all flood related issues.

The List of members of CDMC for Barama Revenue Circle is enclosed at **Annexure-I**.

### **Duties and Responsibilities of CDMCs:**

- 1) Provide technical and professional support to the VLMCCs for preparation of Village Master Plan for Disaster Management.
- 2) Design and implement awareness generation activities on Disaster Management.
- 3) Review and Monitor the preparedness of Govt. Departments and agencies on Disaster Management.
- 4) Provide feedback to the DDMA and extend cooperation to it in implementation of Disaster Management activities.
- 5) Plan, implement and monitor relief and rehabilitation operations.

### **Sub-Committee and their functions:**

1. **Agriculture Sub-Committee:-** The Sub-Committee headed by ADO/VLEW will assess the crop damage during flood. The committee will take the assistance of the Lot Mandals of the Revenue Circle in this regard. A copy of damage report prepared by the sub-committee must be submitted to the Zonal Officer immediately in each wave of flood.

During flood the ADO shall:

1. Alert all the subordinate officers and field staff. Check stock of seeds, manures implements and make arrangements for raising seedlings.
2. Immediately collect agricultural statistics along with Revenue staff about acreage under crops affected by flood, damage to crops, and number of cultivators involved.
3. Arrange distribution of agricultural inputs in consultation and render technical guidance to the needy cultivators for salvage and protection of surviving crops and raising of such varieties of crops as may be suitable during the season or in the next cropping season
4. Arrange for spraying of pesticides, where necessary; and
5. Approach the Soil Conservation Department for removal of excessive sand deposits in agricultural fields which cannot be removed by an individual farmer's efforts.
6. ADO shall constantly visit the flood affected areas to ensure effectiveness of agricultural relief and rehabilitation measures.

**2. Block Sub-Committee:-** The Block Development Officer (BDO) shall look after the renovation and repairing works of the bundhs and immediate restoration of the rural roads in the flood affected areas.

**3. Veterinary Sub-Committee:-** The Vety. Committee headed by Veterinary Officer and VFAs will visit the flood affected villages and enumerate the loss of cattle. The committee will submit the list of loss of cattle to the Zonal Officer.

During Flood the VO shall:

1. Alert the subordinate officers and field staff

2. Visit the flood affected areas immediately with a veterinary relief team and start relief measures
3. Arrange shifting of cattle to suitable raised platform and high land
4. Assist the public in taking preventive measures against any epidemic among live-stock and take measures to vaccinate all susceptible livestock against such diseases
5. Requisition and distribute feed and fodder, preventive medicines, vaccines for the animals as directed by the DC; and
6. Constantly visit the flood affected areas and ensure effectiveness of the measures.

**4. Medical Sub-Committee:-**The Medical sub-committee will be headed by SMHO

– Barama Block PHC and consists of the subordinate officers and field staff. The committee will arrange for medical aid and treatment and vaccination to relief camps and flood affected villages during flood and post flood period. The sub-committee shall keep close liaison with Zonal Officer.

**5. PHE Sub-Committee:-** The Sub-Committee headed by the concerned Jr. Engineer PHE. The sub-committee on receipt of requisition from Zonal Officer shall arrange for supply of drinking water to the camp inmates as well as the people of affected villages.

On receipt of flood warning, Jr.Eng. shall:

- 1) Visit the flood affected areas immediately with one PHE team and start measures for water supply and pit/sanitary latrines;
- 2) Ensure adequate stocks of: Equipment and materials for sinking tube well, ring well, pit/sanitary latrines and water purification materials in the relief camps and other places in the flood affected areas;
- 3) Assess extent of water supply measures required and deploy necessary staff. If the staff available in the district are not sufficient to cope with the situation, arrange through CPHE additional staff; and

- 4) Constantly visit the flood affected areas and ensure adequate safe water supply measures and sanitation in the relief camps.

**6. PWD Sub-Committee:-**The sub-committee headed by AEE, PWD and his staff will look after the roads, bridges and culverts under Barama Revenue Circle.

On receipt of flood warning, AEE shall:

- 1) Immediately visit the flood affected areas
- 2) Assess requirements and deploy staff for:
  - ◆ Keep round the clock vigil of the roads and bridges, threatened by floods;
  - ◆ Restore communication with in the shortest time possible in all the National Highways, state roads and district roads in consultation with the superintending engineer. In case of village roads at least pedestrian traffic has to be restored;
  - ◆ Keep proper vigil that no unauthorized cuts are made in PWD roads for draining out of flood water; and
  - ◆ Take measures for the preservation of PWD buildings and other works in the flood affected area and prevent encroachments on Government lands under his charge.
- 3) Report the submergence of roads to the Deputy Commissioner, Superintending Engineer, Chief Engineer and Secretary, PWD immediately after the occurrence indicating concisely the location and extent of submergence, the fact of closure of traffic;
- 4) Report the nature and extent of damage during flood even where there is no subsidence or after subsidence of flood water, as the case may be and if the traffic is closed as result thereof;
- 5) Press into service bail bridges and vehicles, (as available) for rescue operations and transhipment of marooned people livestock and others as may be required by the DC

6) Render technical assistance as may be required by the DC in constructing temporary huts in relief camps and in other test relief works, such as repairs to damaged village roads, culverts, bridges and new village roads.

**7. WRD Sub-Committee:-**There are several vulnerable points on the embankments of Mora Pagladia river in the area of Alagjar, Kaljhar and Niz-Juluki revenue villages are on the river in side of Barama Revenue Circle.

On occurrence of flood, the Jr. Eng shall:

- 1) Examine the physical condition of the embankments and ensure that leakage, seepage if any are promptly attended to;
- 2) Take protective measures without loss of time in case of any signs of breach;
- 3) Assist D C in the flood operation by sparing personnel equipment, vehicles, boats and launches as available

## **Jalah Revenue Circle Profile (Socio Economic & Geographic details)**

### **Overview of the Circle :**

Jalah Revenue Circle is the biggest circle by area under Baksa District Administration among all the six circles. Every year Jalah Revenue Circle experiences considerable inundation in the area with the annual flood season. The annual floods primarily affect the agricultural fields making

causing significant loss in crop production. A large number of population also are rendered homeless forcing them to take shelter in safer places. Its intensity of losses due to the recurring floods have increased over the years necessitating a comprehensive plan to arrest the probable losses to human settlements, property, land and other infrastructures including health hazards associated with floods. The river Beki is the prominent river flowing through the Jalah Revenue Circle along with other significant river i.e. Kaldia which enters the middle portion of this region. River Pahumara and Rupohi are another two major river causes the flash flood during flood season. As the major drainage system for the region is fed by the river Beki and its tributaries, Over the years the sediment deposition on the river beds has reduced the drainage capacity of the rivers. Therefore The heavy water and silt discharge to heavy monsoon rains along with the runoff water from the neighboring results in excessive spill over on the banks of the rivers and their tributaries and consequent water logging in extensive areas of the plains of this region.

JalahGhat is the H.Q. at Jalah Revenue Circle was recreated and started functioning under BTAD,Baksa District from 9<sup>th</sup> Oct,2013.

#### 1.A. Jalah Revenue Circle AT A GLANCE

The Jalah Revenue Circle, one of the six Revenue Circle of Baksa,BTAD was carved out from areas in undivided Jalah Revenue Circle,Sarupeta(Part) and Barnagar(Part) revenue circles.

#### Geographical Profile:

Jalah Revenue Circle is a plain area. In the North it is bordered by Bhutan; Barpeta district is in the south; to the east Baganpara&Baksa revenue circle and to the west is the Bekiriver&Chirang district. Some small hills dot the landscape of the area of Manash Range. The circle is connected by NH-27, Jalahghat-PathsalaRoad,Pathsala-simlaroad,India-butan highway and Jalah-Mushalpur Road. The B.G railway lines are passing through the Barpeta Road-Simlaguri;. The nearest railway junction is Pathsala.

The economy of the circle is agrarian in nature with about 78 percent of the work force engaged in agriculture. The sectorial income share of the circle shows that 68 percent of the income share accrues from agriculture. Around 60 percent of the total net cropped area is occupied by small and marginal farmers (SF/MF). The Agro-climatic condition of the district is conducive for growing various types of cereals, pulses, oil seeds, fibre crops, tuber crops and various types of summer and winter vegetables. Paddy, the main crop in the district, is grown in about 0.6 lakh ha area followed by mustard, pulses, wheat jute and various type of summer and winter vegetables and spices (chilli, onion etc.). This circle ranks first in the state in the production of Potato and enjoys a virtual monopoly in production of rabi vegetables. The secondary sector contributes 40 percent of the Gross District Domestic Product.

#### OBJECTIVES OF THE PLAN---

1. Distribution of duties amongst Govt. Officials.
2. Ascertain the availability of resources, manpower, and logistics available locally.
3. To co-ordinate the relief activities by drawing up operational plan with all concerned deptts./ agencies / NGOs to evolve a common plan for response.
4. Identify the list of susceptible places likely to be cut off or submerged during floods.
5. Identify high land / raised platforms for human and cattle shelter.
6. Ensure flow of communication network, proper weather forecasting warning level of the rivers, both upstream and downstream and accurate warning mechanism.
7. To ensure sufficient stock of essential commodities/ food stock and other essential items with proper storage facilities for immediate dispersal.
8. Identify all vulnerable roads/ bridges/embankments prone to damage/ washed away/ submerged etc. to take immediate measures for restoration of road links.

#### ADMINISTRATIVE SET-UP

##### CIRCLE DISASTER MANAGEMENT COMMITTEE:

The Cistrict Disaster Management Committe (CDMC) Jalah was constituted as per provision of Section 20(1) of National Disaster Management Act 2005 under District Disaster Management

Authority, Baksa to deal with any exigencies like natural calamity or man-made structural disturbances.

The members of the CDMC:

**Response Plan:**

**Zonal & Sector Level Relief Committee:-** Each Rev. Circle will be a Zone and each Zone will be divided into Sector in each Lot in suitable manner, Which would represent a Block area with the inclusion of respective BDOs/ADOs as the sector officer. The Rev. Circle officer will involve the local O.C and I.Cs of the Police station/ Out Posts, GaonBurahs, PRIs, other responsibility officials etc. in the Zonal/Sector Level Relief Committee and to issue Notification for the same after taking approval of Addl. Deputy Commissioner & C.E.O. District Disaster Management Authority, Baksa immediately. (Action:-Rev Circle officer)

**Boat & Boatman:-** The Circle officer will prepare a list with contact number of Boatman/ Boat owners well in advance and keep ready with them for emergency operation and submit a copy of the list to DPO, DDMA, Baksa. They will prepare plan for requirement and place demand for “Requisition Form” hiring of Boat to the ADC, Nazarat if necessary in advance. They will also advise to use the Machine/ Rubber Boats kept with SDRF, Barpeta in any emergency operation. (Action:- Rev Circle officer)

**Distribution of Relief Materials:-** The Relief Materials will be distributed on getting requisition from the concerned Circle Officer through concerned GaonBurahs, Lot Mandals in presence of PRIs for transparency. Rev. Circle Officer will take strict action if they find any mismanagement of the GR items. (Action:-Rev Circle officer)

**Relief Camp Management:** Camp management is dynamic in nature and strives for promoting a holistic approach for physical, psychological, cultural, social and emotional well-being of camp inhabitants by establishing and maintaining an inclusive overview of many aspects and stakeholders involved in the life of a camp. Therefore the following guidelines have been formulated to assist district and sub-divisional civil administration and also to non-state sector and civil society for effective and smooth management of relief camps. These guidelines are illustrative and decisions may be taken by the Camp Authorities as per demand of the situation, within the larger framework of guiding principles incorporated in the manual.

#### **Setting up of a Relief Camp:**

- (a) On receipt of report from Revenue officials, the DC/SDO(C) will order to setup a relief camp at pre-decided location as per District/ Sub-divisional disaster management plan. As far as possible, relief camps should not be set up in educational institutions.
- (b) In case new location is to be selected for the camp due to unavoidable circumstances, following points should be considered for arriving at a decision.
  - Camp should preferably be set up in an existing built up accommodation like a community hall.
  - It should be located at a safe place which are not vulnerable to landslides, flood etc.
  - It should be accessible by motor vehicles, if possible.
  - Adequate space for roads, parkings, drainage, should also be there.
  - The area should not be prone to endemic disease like malaria.

- (c) Wide publicity should be given about the location of the camp and affected people should be evacuated and brought to the camp directly.
- (d) Emergency relief materials which include drinking water, food, bedding (mattress, sheets & blankets), baby food, mosquito repellents etc should be arranged as early as possible.
- (e) Control room/ help desk should be setup in the relief camp immediately.
- (f) Proper planning and preparedness to make the arrangement smoother.

#### Shelter

- (a) The shelter should be such that people have sufficient space for protection from adverse effects of the climate.
- (b) Ensure sufficient warmth, fresh air, security and privacy for their health and well being.
- (c) The covered area available per person should be on an average 3.5 to 4.5 square meter.
- (d) Each family should be provided separate tent, if possible.
- (e) In warm & humid climates, proper ventilation & protection from direct sunlight must be ensured.
- (f) If plastic tents or sheeting are available, provision of an insulating layer or a double skinned roof may be considered.
- (g) Tents should not be constructed too closely together and reasonable distance should be kept between the camps to provide some form of privacy.
- (h) Priority should be given to widows and women headed households, disabled and elderly people in tent/room distribution.
- (i) Temporary shelter should neatly be planned and made.
- (j) Tents with slanting sides should be avoided as they leave no space for mobility. Tents with ventilation facilities may be provided to the people.

#### General Administration of the Camp

- (a) One responsible officer preferably ADC, SDO or CO should be designated as Camp officer by the DC/SDO(C) who will ultimately be responsible for general management of the Relief Camp. He will co-ordinate & supervise the works of other officer in the camp.
- (b) One Assistant Camp officer should be designated to help the camp officer.
- (c) Administrative structure of the camp should be as follows:

Camp Officer(ADC/SDO/CO)

Assistant Camp Officer

All relevant line departments for camp management like PWD (B), PHE, Health, ASEB etc

- (d) Camp officer will co-ordinate with all the officer detailed for management of various facilities in the camp.

- (e) A separate order should be issued by DC/SDO(C) to detail the above officers in the camp with clear defined roles & responsibilities.
- (f) officer of line department detailed in the camp may be allowed to further engage the assistants from their officer to help them.
- (g) An inspection and observation register should be maintained in the camp and it should invariably be made available to visiting team of the senior authorities.
- (h) Deputy Commissioner/SDO(C) should visit the camp as frequently as possible and hold meeting with all the officers responsible for management of the camp. They should record their observation about management of the Camp in inspection register for future reference.
- (i) As per Disaster Management (DM) Act 2005, district authority can direct any Government officer to assist in providing relief to the person affected by natural calamities. If the officer fails to comply the order he may be prosecuted and punished as per provision of the Act.
- (j) District Authority as per DM Act 2005 can requisition any resources, premises & vehicles needed for rescue & relief of disaster affected persons and suitable compensation may be provided to the owners of the same.
- (k) Negligence in assigned work should not be tolerated and immediate action should be taken against the erring officer.
- (l) One spare vehicle should be kept on standby basis for 24 hrs in the camp.
- (m) One help desk/ control room/ officer room should be designated where inhabitants can register their complaints
- (n) Loudspeaker system should be installed in the camp. Announcement may be made from camp officer regarding distribution of relief aid, food, arrangement of medical and other facilities etc.
- (o) BSNL may be asked to arrange offer telephone/ mobile facilities in the camp for inhabitants.
- (p) Camp Officer will maintain a Master Register in the Relief Camp in the prescribed format
- (q) GaonBurah, School Teacher, Lot Mondal or any trust worthy local person may be asked to prepare the preliminary list which can be scrutinized and cross checked by the camp Officer.
- (r) Each head of family should be given a ticket as prescribed in Annexure B, at the time of entry/ registration of the family in the relief camp. Any adult member of the family will have to produce the Ticket to receive any article or aid of relief. Distribution Officer will enter the amount given along with date of issue in the Ticket and put his signature on it.
- (s) All the Expenditures for setting up Relief Camp and providing facilities to the camp population is admissible under the norms prescribed by the National Disaster Response Fund (NDRF) and State Disaster Response Fund (SDRF).

Guiding principles for Management of the Camp

- a) Camp Officer should easily be accessible to the camp inhabitants.
- b) Treat every inhabitant of the camp with dignity and respect.
- c) Ideally camp management should strive to provide facilities so that inhabitants feel comfortable
- d) Make effective arrangement for distribution of food and aid to the people in the camp
- e) Special care should be taken to ensure that vulnerable people like disabled, elderly, pregnant women and children get adequate aid and supply of food and other facilities.
- f) Sufficient nos of women officers should be engaged in management of the camp and they should interact with women inhabitants to assess their special needs.
- g) Arrangement should be made to prevent abuse against women and children in the camp.
- h) Voluntary Organization& leading citizens may be encouraged and involve in management of relief camp.
- i) Psychological counselling must be arranged for the families who have lost their family members.
- j) Inhabitants should be involved in management of camp. k) Inhabitants should be kept engaged by arranging for TV, Books, News Papers, Carom Board and other means of entertainment.
- l) It should be ensured that no officer is required to work for unreasonably long hours.
- m) Officers responsible for management may be made aware that misappropriation of money or materials meant for the relief will invite prosecution and
- n) Special drive should be taken against illicit liquor sale in and around the camp.
- o) Press Release should be issued by giving contact nos. of Nodal Officer who will accept and co-ordinate with NGOs & public regarding donation in cash & kind.
- p) People should be made aware about rehabilitation program, financial support and other compensation to be provided against the loss of house, crop, cattle etc.
- q) People should also be educated about NREGA & other employment generating schemes which are available in their locality as they need not migrate to cities for Job opportunities.

#### Basic Facilities

##### (a) Lighting Arrangement and Generator Set

- A technical person, preferably from electricity or PWD(E) department should be detailed to supervise the proper lighting arrangement in and around the camp and operation and maintenance of the generator set.
- One big candle and one match box should be provided in every room/tent.
- Petromax or emergency light should be arranged in sufficient numbers in the camp.

- Approach to toilet and water source should properly be illuminated.
- Generator set of required capacity should be installed in the Relief Camp and operator must be detailed for 24 hours.
- A register should be maintained by the operator in the prescribed Format
- Adequate arrangement for illumination inside and outside of camp should be made.

#### (b) Water Facilities

- Total requirement of drinking water, water for toilets, bath & washing of clothes and Utensils should be assessed and proper arrangement should be made accordingly.
- Most of the diseases in the camps spread due to lack of purified and sufficient drinking water. Therefore serious effort should be made to ensure to supply adequate clean & purified water to the camp population. Permissible standard of TDP & other parameters for water must be maintained at any cost.
- 20 Ltrs of water should be provided to per person per day.
- One Sr. Officer of PHE Deptt. should be detailed for maintaining water supply in the camp.
- One bucket, one Jeri can or water container and one mug should be provided to every family to store the water for drinking, cooking etc.
- Ideally one hand pump should be installed for every 200 persons.
- Hand pumps or water tanks should be minimum 20 ft away from the toilets.
- Daily sample of water from tanks, taps & other sources should be collected and analysed in the district lab of PHE Deptt. Corrective measures should be taken as per result of water analyses.
- Commercially available water filter should preferably be installed. Makeshift arrangement for water purification may be avoided.
- Separate bathing units must be constructed for male & female.

#### C) Sanitation:

- Ideally there should be one toilet for 20 persons.
- Toilet should be minimum 10 mtrs and maximum 50 mtrs away from shelter/tent/room.
- For waste disposal, one communal pit of 2mX5mX2m of size should be dug for 500 persons.
- Each family should be provided one soap of 100 gram per week.
- Separate toilets should be constructed for men & women and these toilet blocks should be separately be located at reasonable distance.
- Sufficient light arrangement should be made in toilets.

- Approach from camp to toilets should be also properly illuminated.
- Sufficient stock of bleaching powder, harpic and others item should be maintained.
- One officer must separately be detailed to supervise regular cleaning and maintenance of the toilets.
- Requirement of disinfectants should be assessed regularly & sufficient stock of it week should be maintained in the camp.

#### d) Food- Storage & Distribution

- Initially for few days, cooked should be provided to the camp inhabitants. Utensils and cook may be hired from open market for cooking of the food.
- Preferably disposable plates and glasses may be used to serve the food and water for hygienic reasons.
  - As far as practicable and as per available space cooked food may be served in hall or at one place for convenience of cleaning, hygiene, disposal of waste and smooth arrangement.
- Distributed food must be of appropriate quantity and fit for human consumption.
- Food must meet nutritional needs and include pulse, cereals, egg& fats sources.
- Food should be culture specific and as per food habits of the community. People of rural area may not like bread & butter.
- Packed food like biscuit, tinned food, ready to eat meals, noodles etc. should be properly checked that they are not expired before distribution.
- As far as practicable Food Inspector must be detailed to certify the food items before they are served.
- Reputed and trusted Voluntary Organizations may be allowed to assist in cooking and distributions of meals but the relief Officer / Camp Officer will remain ultimately responsible for all arrangements.
- If cooked meal is not served, dry food like, rice, salt, pulse etc. may be distributed for one week at a time as per prescribed scale
- Even if cooked meal is provided to the inhabitants, above mentioned scale may be maintained.
- Sufficient counters with strong barricade may be made for distribution of relief articles and dry food like rice pulse, salt, etc. as it is made during general election for distribution of election materials.
- Display board should be hanged on each of the counter showing village name or ticket serial numbers of Ticket already distributed to the families during the registration.
- Separate queue may be allowed for women infirm & elderly people to collect relief aid.
- For storage of food items following guidelines should be followed:

- Dry and well-ventilated area may be designated in the Relief Camp for storage of Food items.
- Storage should be free from rodents and insects.
- Boxes/ bags must not lie directly on floor. Use pallets, boards or heavy branches, or bricks underneath piles.
- Keep products at least 40 cm away from the wall and do not stock them too high.
- Pile the bags/boxes two by two crosswise to permit ventilation. In this way, they are steadier and easier to count.
- Keep damaged boxes/bags away from the undamaged ones.
- Observe First In-First Out Expiry First Out Principle.
- Food stock and storage should personally be inspected by the Camp Officer on alternate days.
- Updated stock register should be maintained in a format as prescribed.

#### e) Clothing

- People in the camp should be provided sufficient clothing to protect themselves from the adverse effects of the climate.
- People should have one full set of clothing in roughly the correct size, appropriate to the season and the climate.
- Culturally appropriate clothing should be made available.
- Women and girls should be provided necessary sanitary protection.
- Mattress, bed sheet, gamosha, dhoti, lungi, mekhlachadaretc may be provided to the people in the camp.

#### (f) Medical Facilities & Psycho-social Support

- One Doctor along with team of paramedical staff should be detailed on roster system around the clock in the camp.
- A proper register should be maintained for roster of the duties of Doctors, Nurses & Paramedical staff as prescribed
- A separate room or tent should be made available for the medical team.
- Highest standard of hygiene must be maintained at camp to minimize the chances of people falling sick.
- As far as possible each and every inhabitant of the camp should be screened for presence of any disease immediately upon his arrival or within 24 hrs of his arrival in relief camp without fail.
- A rapid health assessment of all the inhabitants in the camp should be done on weekly basis. They may be divided in 7 groups and weekly rapid health assessment should be done of one group on a fixed day of a week.

- Diarrhoea, gastroenteritis, conjunctivitis, allergies, malaria, viral fever are common diseases in the camp. Preventive measures must be taken in camp and sufficient store of medicine must be maintained to treat them timely.
- If the camp continues for more than a month the regular health services like maternal & childcare services including immunization should be stored in the camp.
- Jt. Director, Health Services should be directed to arrange adequate stock of medicine from district store.
- Detail inventory & stock register of medicine available within store at camp should be maintained.
- No prescription will be given to the patient to purchase any medicine from outside the camp.
- All the medicines should invariably be provided free of charge to the inhabitant. If medicines are not available in the camp these may be purchased from outside by the Medical Officer & Expenditure may be reimbursed from relief fund.
- Some advance fund may be given to the medical team for purchase of medicine from outside, if required. The team will maintain proper account and keep all the vouchers, bills etc for record.
- If there are more than 500 persons in the camp, one ambulance with adviser should be stationed for 24 hrs in the camp.
- Cases of snake bites are also reported from relief camp. Necessary arrangement should be made in nearest health institution for adequate stock of anti venom injection.
- Everyone who experiences disaster is affected in one way or another physically, emotionally and mentally. Children are among those who are affected most. It is in this regard that psychological support is an important part of response in any disaster situation.
- Psychological support is best obtained from the family. Therefore, even in abnormal conditions, family should be kept together. As a means of psychological support, activities like religious activities, entertainment and recreation etc. should be arranged for the inhabitants of the camp.
- Professional Psycho-social Therapist should be arranged to provide counselling to the affected person. It should be ensured that follow up sessions are conducted, as a onetime session is not be helpful, but may even create unpleasant experiences or memories for vulnerable person.

#### g) Special Arrangement for women, Children, and Physically Challenged and Elderly persons

- Since women are more vulnerable during disaster, their specific needs must be identified and taken care of.
- Female gynaecologist and obstetrician should be available at hand to take care of maternity and child related health concern.
- Ensure that children inoculated against childhood disease within the stipulated time period.

- For safety and security of the women and children vigilance committees should be formed consisting of women.
- Women Police Officer should be stationed within the camp to record and redress any complaints made by women.
- Security measures should be taken in the camps to prevent abduction of women, girls and children.
- Widows and women headed household usually are unable to access food & other relief aid; therefore special volunteers may be engaged to take care of such families.
- Self-Help-Groups may be formed among the affected women to give emotional support to each other.
- Women participation in the management of camps is important to ensure that women's needs are met.
- Sanitary pads should be provided to the women and girls. Some women of rural areas may not be used to commercially manufacture sanitary pads therefore clean white cloths & towels may be arranged for them.

#### h) Vermin control

- Insect and rodents are the unavoidable pests in the relief camp. They spread diseases, spoil foods and other materials. They cannot be totally eliminated but there are measures to minimize the increase in their population and their effects on the lives of the displaced community in the camp.
- Fogging may be arranged to prevent mosquitoes and other biting insects.
- Traps may be placed for rodents.
- Waste segregation should be promoted and collected on daily basis.
- Enough dustbins should be provided in the camp.
- Breeding places of mosquitoes and rodents should be eliminated by keeping the surrounding clean, dry & free of stagnant water.
- Pits should be dug and waste & garbage food should be disposed of their daily.

#### I) Security

- Security, peace and order must be maintained in the relief camp. The youths in the camp may be involved for providing better security environment.
- Police personnel should be detailed on roster basis.
- Adequate employment of force should be ensured on the boundary and gate of the camp.
- Police should keep vigil on anti-social elements & criminal around the camp.
- Special police Officers (SPO) may be appointed in the camp.

- Special police arrangement should be made during distribution of the relief materials.
- Home guards may be detailed for patrolling & night watch.
- Store room should properly be guarded by the police.
- Anti-Riot squad with teargas, lathi, body protection etc. should be kept ready in nearest Police station.

#### j)Media Management and Documentation

- Camp Officer should prepare a daily report and submit to Deputy Commissioner/SDO (C) by 5.00 PM every day.
- Deputy Commissioner/SDO (C) will issue press release to prevent any rumour.
- DIPRO/SDIPRO will visit the camp regularly and take photographs for record. Some of the photographs may be released to the media also.
- DIPRO may arrange conducted tour of media persons to the camp and explain about the facilities and arrangement made there.
- DIPRO should be provided basic information by DC/SDO (C) about the management of the camps and he may provide them to media person on daily basis.

#### k)Entertainment, Recreation & IEC Programme

- All the activities in the relief camp will succeed only if inhabitants of the camps are meaningfully involved in the management of the camp.
- Camp Officer should chalk out an IEC to campaign among the inhabitants on:
  - How to maintain hygienic in the camp, how to prevent breeding of flies, mosquitoes, insects, rodents etc.
  - Information about arrangement in the camp, scale of the relief items, health facilities, helpdesk etc.
  - Rehabilitations schemes and entitlement of affected families.
- Literary clubs/ Organizations may be promoted to arrange books & magazines for camp populations.
- Camp population may be kept engaged by providing entertainment & recreational facilities to them.
- Temporary Anganwadicentres may be opened in the camp with the help of ICDS project Officers for small children.
- Temporary schools may be setup in the camp involving volunteers from the camp inhabitants. SSA may provide free textbook, stationery, SikshaMitra etc. Reputed NGOs may also be allowed to run temporary schools in the camp.

- SIRD & DRDA may be asked to arranged training for women on tailoring, soft toy making, pickle & papad making etc. and for youths on piggery, goatary, poultry, fishery, cane & bamboo items etc.

#### Closure of the Camp

- People in the camp should be encouraged to return to their homes, as the situation improves in the field. Transport facilities may be provided for the purpose.
- Family as a whole should leave the camp. No member of such family should be allowed to stay back in the camp.
- A final report may be prepared and sent to the govt with recommendation to amend the guidelines if required.
- All the registers, reports, bills, vouchers etc should be kept in a box under lock and key and should be shifted to the office of the DC/SDO (C).
- Best practices and innovative interventions should be documented and submitted to the govt.

**Relief Camp Management:-** The Revenue Circle officer will appoint a Relief camp in charge in each of the Relief Camps opened during flood. Relief Camp In-Charge will make a team including local Anganwadi Worker, ASHA worker, VLEW and other field level functionaries of various departments and keep record as per the format enclosed as Annexure-1.

**Control Room:-** The Department. Concerned will intimate any emergency information to the control room, already setup in the DEOC at D.C. office, Baksa in the emergency telephone No. 03665-236085 and toll free No. 1077. All departments will set up a control Room with separate telephone on round the hour basis in their respective H.Q. and submit name of officer/ officials entrusted to the Control Room with telephone numbers. (Action:- Department. Concerned)

**Issue of GR:-** To provide logistic to Flood affected people, Sub-Divisional level purchase committee will fix purchase rate of the commodities and accordingly open tender will be invited from traders as and when necessary . The C.O will submit requisition for GR after verification of the actual necessity for issue of GR to the affected people. They will ensure that the genuinely flood affected persons/families should get relief and that no causality occurs due to shortage of food stuff. (Action:- Rev. Circle officer)

**Storage of Materials & Rehabilitation measure:-** The Circle Officers/ BDOs will locate godowns in advance for keeping relief materials in their respective Circle areas/ Block areas. They will also identify elevated places for distributing relief materials and high places for sheltering of Man & Animal at the time of need. They will identity suitable places for shifting the flood affected families if need be. (Action:- PD, DRDA/ Rev. Circle officer)

**Involvement of PRI members:-** The BDO will convene meeting with PRI members to involve themselves to aware public what to do and what not to do in the flood period and to help in the relief operation. (Action:- BDOs)

**Water Resource Department:-** Water Resource Department will complete minor repairing of the breaches/gaps in the vulnerable areas. They will also complete all the works under SDRF & others schemes especially for breach closing/erosion protection works/ dyke construction etc. before starting of rainy season. EE, Water Resource will prepare a list of vulnerable points of the embankments and submit the same by 20<sup>th</sup> April, 2014. He will also submit a report if there is any public interruption while implementing any mitigation measures. They will train to the SOs/SAs and Khalasi's for better alertness and to constitute Vigilance Team in vulnerable areas at S.O.s level. Sector wise plan should be made by the Exe. Engineer. Daily water level record should be maintained and informed regularly by 9.00 a.m. to the District Control Room / DEOC, Baksa, Mushalpur. EE will prepare an SOP for flood response and act accordingly.

**Baksa Zilla Parishad & DRDA:-** The CEO, Zilla Parishad & P.D, DRDA, Baksa will keep stock / contract for providing Gunny Bag for emergency operations. Apart from the Department. Concerned, P.D, DRDA, Baksa will also take necessary steps to keep Bamboo, sand gravel etc. for emergency.

**Health Deptt :-** The Jt. Director, Health Service will keep ready the available service of Doctors, Nurse, Medical & Para Medical staff etc. in the PHC's & CHC's etc. during and post flood season and prepare action plan for flood measures. He will ensure to keep at least 2 (two) Mobile teams with medicine etc. and sufficient nos. of 108, 102, Adarani etc. team and Rapid action team are to keep ready to cope with the flood season. First-hand information on possible outbreak of epidemic like diarrhea etc. should be published through DIPRO/ any local media for general public. He will also take joint action with the PHE Department during post-flood period. They will inform the District administration well ahead (at least one day before) about their operation/ planning and also intimate the respective Rev. Circle officers about sending of Medical teams, requirement of Boats etc. in the field and communicate with the GB's PRI members in this regard.

**PHE Department:-** EE PHE will take necessary steps to ensure disinfection and drinking water facility and to give technical guidance in installation of hand tube well in the flood affected areas. They will keep ready required stock of quality bleaching powder well in advance and provide to the Health Department on demand if necessary. They will also take awareness campaign for not consuming contaminated water. They will give requisition of HTW to the District Administration and install only after receipt of written order from the District Administration.

**Agriculture Department:-** DAO will divide his staff and prepare flood response team in each ADO Circle. He will take necessary steps for proper distribution of seeds, seedling as immediate post-flood measure to the flood affected people. Any flood damage will be reported to the concerned Circle Officer for onward submission to DDMA. Before submitting

any Agriculture report relating to flood, it should be tallied with the report, records available with the Rev. Circle officer. They will also keep all records ready relating to damages supported by videography for the inspecting Team.

A. H. & Veterinary Department:- DVO will ensure availability of grass fodder for cattle during the flood session & stock of medicines/ vaccines etc. He will ensure the stock of adequate quantity of cattle feed in the mills. He will constitute flood response team in each Revenue Circle for timely response. He will also identify the places for carcass disposal in well advanced.

FCS & CA, Baksa, Jalah :- Deputy Director, FCS&CA, Baksa, Jalah Region will ensure the availability of required stock of essential commodities across all parts of the District. Sufficient stock of S.K Oil should be ensured and made available at nearest locality through depots, Sub- Depots, authorized Agents etc. He will also keep ready the essential commodities from FCI, Market / Supplier if necessary and will instruct the FCI authority to keep adequate stock of Rice ready. For smooth and speedy lifting and dispatch of GR items, Inspector, Sub-Inspector of FCS & CA Department will be deputed Rev. Circle wise. They will take necessary arrangements for keeping necessary / sufficient stock of wheat Bran in the respective Mills. He is also advised to conduct a meeting with traders/ agencies for fixation of rate and keeping available stock of commodities for distribution among the flood affected families at an early date.

APDCL:- They will ensure un interrupted power supply during the flood season and ready their team for checking power supply cable to avoid any unwanted situation. They will also make arrangement for supply of power to the relief camp if need be.

Inspector of Schools/ DEEO:- They will take action to spare school buildings for sheltering the flood affected people and engage Male teacher of the schools in the relief camp as and when necessary. Department concerned will ensure for cleaning the school premises and repair desk, bench etc. subsequently after leaving of sheltered people.

Transport Department:- DTO will provide all the vehicles required for Search & Rescue, Relief distribution etc. on the basis of actual requirement when necessary . He will keep ready the list of vehicle owner/ Driver with their contact number for early operation.

IWT:- The Director, Inland Water Transport Department is requested to ensure to plying of fit vessels (as per norms of IWT Department.) in the rivers of Baksa District for safety of the commuter. They will monitor the weather situation and inform accordingly to DDMA. If situation arises to stop plying of vessels, they will inform DDMA, for necessary action.

Police: - The Superintendent of Police, Baksa will keep monitoring the flood situation in the district. He will provide security to the rescue team whenever a team is deployed. requested for rendering necessary help as and when required in this regard.

Social Welfare:- DSWO will engage all the field level functionaries (AnganwadiSuprvisor, Worker. Helper etc.)of the concerned area for assessment of affected child population,

pregnant women, lactating mother, elderly people etc. and their requirement of food in the relief camps. He will also ensure to provide the baby food as per the need.

RG Proposal: - All line Departments will engage their field level staff for survey of damages with the headship of Rev. Circle officer and submit RG proposals as per SDRF/ NDRF norms within one month of the date of occurrence of the event.

Submission of Report: - Revenue Circle Officers will submit the flood SITREP by 11 a.m. to the District Control Room. They will convene a meeting with all the officers concerned under their respective jurisdiction for proper response as well as reporting. Concerned Department will engage at least one responsible officer with concerned Rev. Circle officer for early submission of report for timely and regular submission to the D.C., Baksa (Action:- Rev. Circle officer/ Department. concerned)

All line Departments will report to the Circle officers immediately about occurrence of any damages to infrastructure during flood. Rev. Circle officers will submit such report after verification to Deputy Commissioner, Baksa in the daily flood SITREP. (Action :- Rev. Circle officer/ Department. concerned)

It is also decided in the meeting that the reporting of any flood matter from any quarter should be factual.

As instructed by Deputy Commissioner, Baksa any officer/ staff should not be allowed to leave Head Quarter during flood without prior permission from D.C 's end.

# **ADVANCE CONTINGENCY PLAN FOR FLOOD RELIEF AND RESCUE OPERATION**

## **UNDER DISASTER MANAGEMENT OF BASKA REVENUE CIRCLE FOR THE YEAR 2025-2026**

### **Overview of Baska Circle:**

Baska circle covers an area of 237.272 Km<sup>2</sup> surrounded by Jalah circle in the West, Baganpara circle in the East, Barama circle in the South, and Bhutan hills in the North. There is no major river in Baska Circle. But, there are a few small streams and rivulets connecting the major river like Mora-Pagladia (Diring), Deojora, Dekadong, Kaldia, Tihu River. The economy of Baska Circle is primarily agrarian and most of the farmers depend on rain water for their cultivation. The circle experiences average rainfall of 4.100mm annually. The circle has not experienced any major flood and other natural calamities over the last few years. There is no urban area within Baska Circle but still the circle is having multistoried building and other kutcha houses. There is one 200 bedded hospital named Dr. Ravi Boro Hospital at Mushalpur, the District Hq. People of the circle are less prone to water borne diseases since Baska Circle is very less submerged under flood water. Villages like Ulubari, Nawshali, Sripurdeor, Sarumanikpur submerged under water for few hours then the water recedes back shortly while the rain stops. The area is vulnerable to storm and earthquake which may cause havoc since the houses are built with fragile structure. Baska Circle is situated in a sub-tropical region with humid climate having the average temperature of 22.3°C.

### **PROFILE OF BASKA CIRCLE:**

Name of the Circle:-Baska Revenue Circle

Name of the Circle Officer:- Shri Japheth Darngawn, ACS

Contact No. of Circle Officer:- 7503-77067

#### **Circle Level Task Force functions:**

1. The Task Force in coordination with the concerned line departments shall prepare and submit proposals for Rehabilitation Grant against storm/flood/cyclone/fire/lightening/erosion/landslide as per the SDRF norms expeditiously.

2. The Task Force shall also prepare list of beneficiaries for admissible assistance under SDRF norms for agriculture, Animal Husbandry, Handicraft/Handloom/Housing/Fishery/Sericulture and proposals for immediate restoration of damaged minor infrastructures like Primary School, Primary Health Centre, electric poles, wires, Panchayat Ghar, AnganawadiCentres etc. and submit the same to the District Disaster Management Authority, Baksa.

3. The Task Force in coordination with line departments shall prepare and submit proposals for Rehabilitation Grant against storm/flood/cyclone/fire/lightning/erosion.

#### **OBJECTIVES OF THE PLAN:**

- Distribution of duties amongst Govt. Officials.
- Ascertain the availability of resources, manpower, and logistics available locally.
- To co-ordinate the relief activities by drawing up operational plan with all concerned depts./ agencies / NGOs to evolve a common plan for response.
- Identify the list of susceptible places likely to be cut off or submerged during floods.
- Identify high land / raised platforms for human and cattle shelter.
- Ensure flow of communication network, proper weather forecasting warning level of the rivers, both upstream and downstream and accurate warning mechanism.
- To ensure sufficient stock of essential commodities/ food stock and other essential items with proper storage facilities for immediate dispersal.
- Identify all vulnerable roads/ bridges/embankments prone to damage/ washed away/ submerged etc. to take immediate measures for restoration of road links.

#### **Flood history of the Circle:**

Villages like Nawshali, Ulubari, Sarumanikpur, Sripurdeor, Chemethiapara, Katahbari, Barimakha, Bebejiapara, Bennabari, A-Block, C- Block, Choudhuritup, Chutiapara, Kotohbari, Goldingpara, Katanipara, Sarumanikpur, Nawshali, Pamupathar got submerged under water due to flash flood. The Paddy field of the village Karemura, Uzirbari, Pub- Bangnabari had been submerged under water due to absence of agriband in

the rivulets.

The paddy field of villages like Bunbari, Panbari, No. 1 Chaibari, Dakshinsupa, Barimakha, Lokpalahas undergone active gully erosion from past few years.

**Duties of Sector Officers:**

The sector officer will remain overall in charge of their respective sectors. The requirement of flood staff etc. for the flood affected people will be assessed by the sector officers of each sector personally on the basis of flood situations of their respective sector, with the help of concerned Lot Mandals and Gaonburas and submit the requirement of G.R materials to the Zonal Officer who will in turn forward and recommend the issue of G.R to the district authority. In case of relief camp is opened, the sector officer will take care to maintain a register of camp inmates which will be updated every day as per need.

Sector officer will submit day to day flood situation report to Zonal Officer during the time of flood. They will be also responsible for any laps in respect of flood management within their respective sectors.

**Duties of Field Officer, Disaster Management:**

- To visit the vulnerable site of flood prone area and create an awareness generation programme to the locality.
- On receipt of warning, mobilize the Lot Mondal, Gaonburah, SDRF and other agencies and resources available under Circle Officer's jurisdiction. Go to the specific location immediately and inform the villagers on the probability of any flood event and ask them to take necessary precautionary measures. In case of probability of high intensity flood, evacuation of people from vulnerable areas to pre-identified safe locations and preposition of quick Response team (SDRF/NDRF/Police Force/Sand Bags/ Boats/Tarpaulin/Tents)
- To collect the data from the concerned Lot Mandal and Gaonburas of the flood affected areas and inform to Circle Officer.
- Keep DC informed on an hourly basis about the situation on the ground level and may request additional resources of man, material and machines if required from DC.
- Inform: Block Development Officer (BDO), so that BDO can inform PRI representatives for appropriate action. GP Secretary and GP President for appropriate action Open Relief Camps if required and give requisition for GR to DC. Arrange for distribution of Relief.

**Assignment of duties amongst Govt. officials:**

**Water Resource Department:**

The Executive Engineer, Water Resources will visit the generally flood affected areas and shall:

**1) By the 31<sup>st</sup> of December:**

- a) Classify the different areas and localities of district on the basis of the flood hazard atlas.
- b) Re-prepare/update the map if there be any change in classification of areas shown in the map.
- c) Forward by the 31<sup>st</sup> of January the list of areas classified along with the re-prepared/updated map to the DC and SDO and other district level officers.
- d) Suggest D.C. for undertaking village work on: Digging link drains and other drains to prevent water congestion in localized depressions and Construction of bunds or repairment of bunds to protect agricultural lands against flood;
- e) Prepare detailed plans and estimates for works as may be required by DC and render necessary technical assistance to DC in execution of works.

**2) By the 30<sup>th</sup> of April:**

- a) Prepare a tentative list of flood control personnel for flood fighting, patrolling on embankments, dykes and other flood protection structures.
  - b) Arrange and store in suitable places: Materials for erecting temporary sheds at the work sites, other materials for protection from danger by floods to flood control structures.
  - c) Keep all departmental vehicles, boats and launches in fit for-operation condition.
  - d) Ensure that the embankments, dykes and other structures are in good condition.
  - e) Complete short term emergent flood protection measures in areas, such as drains, closure of breaches, construction of retirement bunds, anti-erosion measures and others.
- 3) By the 10<sup>th</sup> of May, accompany Circle Officer along with Inspector of Police for a joint verification of vulnerable areas.

**Agriculture Department:**

The District Agricultural officer shall:

- 1) Undertake extension measures relating to the latest result of research available from the Assam Agricultural University or from other sources on already released varieties including flood tolerant varieties and other cultural practice for agriculture in the generally flood affected areas.
- 2) Advise the dates after which seed transplantation should not be undertaken and advise on the suitable cropping patterns
- 3) By the 30<sup>th</sup> of April the district Agricultural officer will visit the generally flood affected areas and make an assessment along with the Revenue staff of the acreage under crops and number of cultivators likely to be affected in each of the areas.
- 4) Prepare a block-wise agricultural map showing areas under different crops in the generally flood affected areas and forward a copy each to the District Commissioner, the Zonal Joint Director of Agriculture and the Director of Agriculture.
- 5) Assess requirement of and assist DC in arranging for seeds, seedlings and manures for grants; and agricultural loans in cash and kind (seeds, seedling, manures, agricultural implements machines).
- 6) Assess requirement and arrangement for pesticides for protection of crops after floods and tools and plants relief works.
- 7) Make arrangements for raising seedling in specific government agriculture farms/nurseries. If the quantity to be raised in the government farms/nurseries is not enough, the balance should be raised by arrangement with cultivators.

**Block Elementary Education Officer:**

The Block Elementary Education Officer shall by the 30th of April:

1. Prepare a list of Government and aided schools in the very vulnerable and vulnerable areas showing particulars of buildings *i.e.*, location, accommodation in square meters in respect of each school and forward a copy of the list to Circle Office.
2. Prepare a list of teachers and other staff who may be available from each schools for flood relief work if so required by the Circle Officer and forward a copy of the list to Circle Officer.
3. Collect a list of suitable N.C.C cadets / Scouts/ NSS volunteers/ from the District Sports Office who shall be available for flood relief work if required by Circle Officer and forward a copy of the list to Circle Officer.

**Sub Divisional Medical Health Officer:**

The Sub Divisional Medical Health Officer, Health & Family Welfare Dept. will visit generally flood affected areas by the 30th of April.

- 1) Prepare: a list of hospitals, Primary Health Centres, dispensaries and others institutions located in these areas a list of doctors and paramedical staff already available in each of the areas and the number of additional hands against each category that may be required in each of the areas in case of acute floods a list of doctors paramedical staff of different category who can be withdrawn from their places of works and their services utilized for relief work.
- 2) Ensure that adequate stocks of medicines, vaccines and disinfectants likely to be necessary are kept at the district and subdivision head-quarters.
- 3) Keep ready in the district/subdivision head-quarters materials for Augmenting the hospital beds by at least 10 in case of necessity; and opening one dispensary camp for each of the very vulnerable areas.
- 4) Arrange for mobilizing at short notice two medical relief teams at the district headquarters in order to rush them for relief works.
- 5) Prepare a detailed plan for utilizing the doctors and other voluntary organizations in the district during floods if so required.
- 6) Take measures for prevention of epidemic and arrange for necessary vaccinations of the people in these areas.
- 7) Ensure that ambulances and boat clinics are operational.
- 8) The Sub Divisional Medical Health Officer, Health & Family Welfare Dept. shall arrange before the 30<sup>th</sup> of April. Awareness Programmes for the general public in the very vulnerable and vulnerable flood affected areas on health education measures which are to be implemented prior to the flood season, through specially prepared mass media, like posters, pamphlets, filmstrips and cinema shows; Print adequate numbers of health education materials and send them to the Joint Director, Health Services.
- 9) He/She should keep ready medical teams, each consisting of about 10 doctors, paramedics and supporting staff so that the teams can be rushed to the flood affected areas at short notice. The teams should be equipped to move with their own medicines, tents, food items cooking utensils lanterns and other necessities so that they can function as self-contained units without depending on other agencies.
- 10) Refresher's course for doctors and paramedical personnel covering such aspects as medical care and prevention of epidemics during natural calamities will be arranged by the Director Health Services with emphasis on special problems on care and prevention during

and after floods. The course may consist of: First-aid course by demonstration and practice; Prevention of epidemics lectures and practical demonstrations in application of insecticides and disinfectants and disposal of dead bodies and Emergency sanitation-lectures and demonstration on purification of water, disposal of sewage, construction of temporary latrines, maintenance of cleanliness

**Astt. Executive Engineer, Irrigation Department:**

Astt. Executive Engineer, Irrigation shall visit all irrigation works in his jurisdiction with special emphasis to the vulnerable areas and he will by the 30th of April:

- Check and ensure that canals and other structures for of irrigation in these areas are in good condition.

**Pre Flood**

As per the Disaster Management Manual 2015

- Check against unauthorized construction likely to damage any structures of irrigation department
- Assess requirements and arrangement of tools and plants and other stores
- Keep vehicles, tractors and bull-dozers under the division in good, running condition
- For relief work in vulnerable areas. Prepare tentative list of works; and coordinate with other department i.e., WR/P&RD/Agriculture to carry out necessary works without which the existing irrigation infrastructures may be damaged by flood.
- Check provisions already made in approved schemes for these areas.

**Public Works Department (Roads and Bridges):**

**Response:**

- Clean and remove debris from communication infrastructure to ease flow of goods and emergency supplies.
- Undertake emergency repair of roads/communication and shoring of buildings.
- Create/Provide emergency access in areas which communication links are lost/damaged severely during the event.
- Undertake construction of temporary structures and supporting structures to provide basic services to the affected population.
- Removal of debris flow, conduct clearance operations and reestablishment of roads and bridges.
- Construction of emergency structures to control flood risk.

**Recovery & Rehabilitation:**

- Participate in conduction of structural damage assessments.
- Guide urban authorities and line agencies on structural repair works and package development of repair/reconstruction scheme for housing and social infrastructure.
- Undertake detailed damage assessment of critical infrastructure.
- Advise reconstruction/recovery of infrastructure
- Coordinate, monitor progress and prepare report- repair, reconstruction and strengthening/retrofitting of infrastructure
- Prepare estimates and undertake repair /strengthening works

- Supervise the civil work activities and ensure safe construction practices are streamlined during Recovery / Reconstruction phase.

#### **Public Health & Engineering Department:**

##### **Response:**

- Provide immediate safe drinking water supply in disaster affected areas.
- Provide immediate safe drinking water supply for conduct of response activities at hospitals, emergency shelters, schools designated as shelters, relief camps.
- Provide latrines/sanitary latrines in Relief Camps quickly.
- Provide hygienic measures to keep Relief Camps free from outbreak of epidemics/health hazards.

##### **Recovery & Rehabilitation:**

- Assist line departments and agencies in identification sources of potable water.
- Undertake swift actions to restore damaged lines.
- Undertake regular checks to determine key potable parameters of the water supplied.
- Restore all service for pre-disaster phase and maintain check on vital quality including bacteriological parameters.

#### **Transport Department:**

##### **Response:**

- Facilitate movement of emergency personnel and equipment to the affected sites.
- Facilitate movement of emergency supplies; water, food and fuel
- Facilitate movement of emergency medical supplies and first responders to affected sites.
- Move population to safe areas and back on clearance from the administration.
- Facilitate smooth movement of services in disaster affected areas, without causing disruption along regular routes.
- Maintain and operate round the clock connectivity to all areas.
- Control and restrict vehicular traffic movement to disaster affected areas.

##### **Recovery & Rehabilitation:**

- Provide recovery support to line agencies
- Assess damage to transport infrastructure
- Coordinate in the reinstatement of transport services and infrastructure

#### **Food and Civil Supplies Department:**

##### **Response:**

- Coordinate with local authorities and transport essential supplies to disaster affected areas and pre-determined locations (relief centres)
- Provide tailored food packets to people with special needs
- Mobilize air/land/inland water transport for supply to far off destinations or regions which are inaccessible.

**Recovery & Rehabilitation**

- Provide food supply to relief centres and kitchens till lifted off by the district/local administration.
- Issue duplicate ration cards.
- Maintain price of basic commodities in disaster affected areas.
- Curb unfair practices

**Block Development Officer:**

The BDO, Baska Development Block shall make a field assessment of vulnerable villages under Baska Rev. Circle and take necessary steps for protection of MGNREGA roads and complete ongoing schemes, if any. She will also coordinate with field level functionaries such as Gram Sevaks, VCDL chairman/members etc.

**Inspector of Police:**

- The Officer in Charge, Mushalpur Police Station shall be responsible for security of property and maintenance of law and order in the affected areas and ensure the same in areas under other Out-posts. Post disaster, police will ensure maintenance of law and order against theft in the disaster affected areas. Police will also coordinate search and rescue operation and all other assistance to the affected people in case of earthquake and flood. They shall arrange for security at the relief camps/relief material distribution sites and assist the authorities for evacuation of people to safer places. They shall make due arrangements for post mortem of dead persons, and legal procedure for speedy disposal and regular updation of the list of missing and dead persons.

**Veterinary Officer:**

- The A.H & Veterinary Department shall assess requirement of fodder, vaccines, medicines, vaccines, disinfectants etc., and shall maintain adequate stock of the aforementioned requirements in the vulnerable areas and also maintain a register of stocks of aforementioned requirements. The department will also identify suitable high grounds for sheltering livestock. It would also mobilize two or more veterinary teams for emergency relief works. Measures should be put in place for prevention of epidemic among animals. A veterinary map should be shared with the undersigned showing the locations of hospitals, dispensaries and first aid centers within Baska Rev. Circle. The veterinary teams mobilized for flood relief work should immediately visit the flood affected sites and start relief works.

**Fishery Development Officer:**

- The FDO, Fishery Department shall identify and map the flood affected areas where pisciculture is practiced and assess and evaluate the impact of flood in the fisheries. All necessary guidelines as per SDRF norms shall be adhered to and proposal for grant of necessary relief be submitted to the Circle Officer.

#### **Child Development Project Officer:**

- The CDPO, Mushalpur shall arrange for necessary baby food and nutritional food for lactating mothers for distribution to the flood affected. He will also arrange for necessary provisions for building of creche in the relief camps.
- Make arrangements for Mobile units of maternity and child welfare centres likely to be necessary in the affected areas. Draw up nutrition programmes for children below 6 years and expectant/nursing mothers in the flood prone areas through the Anganwadi Centres.
- Provide community education (material support and activities) on promoting early initiation and exclusive breastfeeding and timely quality complementary feeding for young children and also special nutritional needs of pregnant and lactating mothers, hand washing, safe water, hygiene and sanitation.
- Ensure appropriate management of moderate to acute malnutrition of children and supplementary feeding for vulnerable groups including pregnant and lactating women according to identified needs.
- He should have the pre assessment of elderly people, differently abled people (physically handicapped), pregnant women, lactating women, children below 10 years, 6 years from the flood affected vulnerable places under Baska Revenue Circle.

#### **Circle Inspector, Handloom & Textile:**

The Circle Inspector, Handloom & Textile department shall inspect the flood affected villages and will take stock of the numbers of looms /tools damaged during flood and submit proposals for compensation for such artisans as per SDRF norms within 2 (two) days from the date of occurrence of flood and storm.

#### **Circle Demonstrator, Sericulture:**

The Circle Demonstrator, Sericulture department will inspect the sericulture farms in flood affected villages and submit proposals for compensation as per SDRF norms within 2 (two) days from the date of occurrence of flood.

#### **Sub Divisional Engineer, APDCL:**

- The SDE, APDCL shall inspect the pre- identified relief camps and install electricity where ever required.
- Take up restoration plans of supply following an interruption across services/communication to all service agencies for preparedness measures and installation of back-up measures.
- Determine fragility of infrastructure to hazard risks and determine mitigation and non-structural mitigation actions
- Establish mitigation fund and prioritize actions for risk reduction within the power sector.
- He shall report any electrical damage due to storm or flood (natural calamities) along

with the co-ordinates and GI tagged photographs and send to Circle Level Task Force group within 24 hours from the period of occurrence for uploading in the DRIMS portal.

**List of vulnerable places:**

Naoshali, Ulubari, Sarumanikpur, Lokpala, A Block, B Block, C Block, Karemura, Pamupathar, Pakhamara

OFFICE OF THE

DISTRICT AH & VETERINARY OFFICER, BAKSA::: MUSHALPUR

DEPARTMENTAL FLOOD MANAGEMENT AND CONTINGENCY PLAN 2024 , A.H.& VETERINARY  
DEPARTMENT, BAKSA

**Chapter-1:- Introduction**

- **Profile of the Department:-**District A.H. &Vety. Deptt.,Baksa with its Head Quarter at Mushalpur is a well establishment with 7 nos. of dispensaries and 21 nos. of Vety. First aid centres scattered at different corners of Baksa District. This Department has been playing vital and major role during flood and epidemic for last several years. Besides loss of livestock and poultry during flood or any kind of disaster is seriously viewed by this deptt. as 99% of the total population of Baksa District rear livestock and poultry for their livelihood, source of food , economic development , self-employment and immediate source of income.
- **Objectives of departmental Flood management Plan:-**
  1. To rescue human being, livestock and poultry during flood.
  2. To provide relief and rehabilitation to the affected livestock and poultry.
  3. To provide shelter to the affected livestock and poultry.
  4. To provide feed and fodder and pure drinking water to the affected ones.
  5. To ensure good health coverage of the affected ones by means of treatment, vaccination, proper care and management during pre ,during and post flood period.
  6. To ensure safety and security of the affected livestock and poultry.
  7. To ensure compensation to the livestock and poultry owners in case of loss/death of animals as per Govt. norms.

**Chapter 2:- Hazard and vulnerability scenario,**

- **Prevalent Hazards in the District(Natural and Manmade):-**
  1. Flood/ Flash Flood.
- **Likely Geographical extent and magnitude/ severity:-**
  1. Flood and flash flood:- They occur when there is heavy rainfall for several days/ months during rainy season. Situation aggravates when there is erosion, breach of embankments and change of course of the rivers and rivulets. When rivers and rivulets engulf large number of villages/areas rendering thousands of people, livestock and poultry homeless and inundating vast areas of grass land, fodder and others resulting in acute shortage of poultry and livestock feed and fodder. Diseases

## Chapter 1

### Department of Agriculture: an Introduction

The Department of Agriculture has the mandate to plan, develop, utilize and manage state's resources efficiently and effectively for fostering a developing/ developed environment for the farm and the farm entrepreneur with the objective of enhance farm income and ensure food security to all. To achieve this objective, the Department formulates Agriculture Policies & plans and undertakes implementation, monitoring of agricultural projects through the different directorates and its ancillary organisations. The Agricultural district is headed by the District Agricultural Officer. The functions of the district are carried out through following set up.

### Organizational Set - up District Level

With headquarters at Mushalpur, Baksa District. The District is divided in 2(two) Agricultural Sub-divisions with supporting agriculture extension functionaries.

**District Profile:**

As a result of the historic BTC (Bodoland Territorial Council) accord signed on February 10<sup>th</sup>, 2003, BTAD (Bodoland Territorial Autonomous District) was formed with four districts namely Baksa, Chirang, Kokrajhar and Udalguri. Baksa district was carved out of Nalbari, Barpeta, Kamrup and a small portion of Darrang district.

Baksa district is in the north-western part of Assam with the district headquarter at Mushalpur, which is 105 Km away from state capital Dispur, Guwahati and 20 Km away from National Highway no.31 towards north. The main mode of connectivity with the district is by Road. The district headquarter is linked to the National Highway 31 mainly at two junction points namely Barama and Kadamtola. It shares its border with Tamulpur district in the east, Barpeta, Nalbari and Kamrup districts in the south and Chirang district in the west. The district also shares the privilege of having International Boundary with Bhutan in the North. The gentle and gradual slopes can be seen stretching from the foot hills of Bhutan and reaching out to the southern tips of Barpeta, Nalbari and Kamrup district.

**VEGETATION:**

The vegetation of the district is characterized mainly by lush green forest and varieties of flora and fauna with a mixed topography of plains and foothills. The world famous Manas National Park stands out as the glaring example of the bio-diversified feature of the district.

**CLIMATE:**

The climate of the district is sub-tropical in nature with warm and humid summer followed by cool and dry winter. The average rainfall of the district is found to be 76 mm in the recent years.

**DEMOGRAPHY:**

The Baksa district is inhabited by both Bodo community i.e Bodo-Kachari (including Sarania-Kachari, Madahi etc), and Non-Bodo community i.e Koch-Rajbonshi, Adivasi (Tea Tribe), Nepali, Bengali and other religious minorities.

**GENERAL INFORMATION ABOUT BAKSA DISTRICT :**

## Chapter 2

### A profile of agriculture in the District and its vulnerability to Natural Disaster

Baksa district, being situated at the foot hills of Bhutan (North bank of Brahmaputra) is crisscrossed by few rivers, namely Rupahi, Pahumara, Tihu and Pagladia. From the point of Agriculture, the Baksa District is sporadically flood prone (Gobardhana and Barama Block). It also touched by seasonal hailstorm, leading to crop destruction at high level. However draught related disaster is recorded at moderate intensity. In relation to Insect/pest and Disease related vulnerability and Disaster, the effect is moderate.

---

#### Hazard & Vulnerability Scenario (Agriculture)

- \*\* Prevalent hazard in the District (Natural/ Man-made) :
  - A. Deforestation, leading to soil Erosion.
  - B. Flood/ Drought
  - C. Hail Strom
  - D. Pest & Disease infestation and related Pesticide poisoning
- \*\*Likely geographical extent and magnitude/ severity :
  - Not Identifiable
- \*\*Magnitude of the likely losses due to Disaster
 

|                     |   |          |
|---------------------|---|----------|
| Flood               | : | High     |
| Storm               | : | High     |
| Draught             | : | Moderate |
| Insect/pest/disease | : | Moderate |

**Insect pest management occurring due to heavy rainfall/ flood****Rice**

\*\*Generally, the pests like swarming caterpillar, *Spodoptera mauritia* appear after a long dry spell followed by heavy rainfall. The pest also occurs after the receding of the flood.

The recommendation to control the pest is as follows.

\*\* Regular surveillance to locate appearance of swarming caterpillars.

\*\* When they cross the ETL viz., one larva / hill the pest menace can be brought under control by spraying the crop with Chlorpyrifos 20 EC @ 2 ml/lit. of water or Quinalphos 25 EC @ 2 ml/lit. or Triazophos 40 EC @ 2 ml/lit. or Dichlorvos 76% SL @ 12.5 ml./10 lit. of water.

\*\* To prevent migration of larvae from one field to other, the bunds of the field should be dusted heavily with chlorpyrifos 1.5% D @ 25 kg/ha.

\*\* The brown plant hopper (*Nilaparvata lugens*) and white backed plant hopper

(*Sogatella furcifera*) cause severe loss in *Kharif* paddy during September to November. The pests havoc could be minimized (below ETL i.e. 5-10 hoppers / hill) by spraying monocrotophos 36% SL @ 2 ml / lit. of water or triazophos 40 EC @ 2ml/lit. of water.

\*\* Insecticides should be applied in the afternoon hours preferably.

**Sugarcane**

\*\* In flood situation, the stalk borer and white fly will attack the crop. Wherever

possible, the drainage of excess water from the field may be undertaken. After drainage, spray the crop with imidacloprid 17.8% SL @ 3ml / 10 lit of water or Dimethoate 30 EC @ 2ml / lit of water. To manage the internode and top shoot borer, release the parasitoid, *Trichogramma chilonis* @ 50,000 adults/ha, 5-6 times at 7-10 days interval at evening hour. De-trashing of older leaves may be done to reduce stalk borer and mealybug infestation.

**Vegetables**

\*\* In these crops due to high humidity the black aphid population may increase. The pest population will be decreased by application of neem formulation (1500 ppm) @ 5 ml/lit of water when the populations is low or spraying the crop with dimethoate 30 EC @ 2 ml/lit of water or imidacloprid 17.8% SL @ 3 ml/10 lit of water, if the population is high.

\*\*Regular surveillance work should be taken up in all crops to know the incidence of various insect pests and initiate the control strategies.

### Disease Management

- \*\* Cloudy weather with intermittent drizzling during *kharif* may result in severe occurrence of bacterial leaf streak and bacterial blight in rice. It is advised to spray the crop immediately after each rainstorm with streptocycline (0.015%) or plantomycin (0.1%) or bactrinol (0.15%).
- \*\* Post flood affected areas where vegetable is grown are likely to be affected by bacterial wilt disease. Therefore, total package of practices starting from planting need to be followed as given below.
- \*\* Mix the soil with stable bleaching power @ 25 kg/ha at the time of final land preparation and transplant seedling after 5-7 days.
- \*\*Seedling root dip for 30 minutes in 0.015% streptocycline or 0.15% plantomycin.
- \*\* Perform soil drenching to the base of the plants with a solution of carbendazim (0.15%) and streptocyclin (0.015%) at 10 days after planting (DAP), 25 DAP and 40 DAP coinciding with intercultural operations.
- \*\* Spray Metalaxyl 8% + Mancozeb 64% (Ridomil MZ) @ 0.2% against downy mildew diseases of cucurbit crops.
- \*\* A protective spray with mancozeb @ 0.3% may be given to pulse crops (greengram and blackgram) against *Cercospora* blight disease.

**List of Officers with Designation under DAO Baksa:**

## Chapter 8

### Response Plan

#### District Agricultural Officer, Baksa

Crop production in the state is much dependent on the Monsoon. Thus, everyday rainfall is recorded at the block headquarters (wherever available) and evaluated for impact on crop stand. Natural disasters are closely watched, especially during kharif season, since 2/3rd of the crops are grown rain fed. Regular monitoring of crop weather reports at least once every week at the district level gives a first-hand indication of occurrence of natural calamities. However, in case of flash flood/ hailstorms etc., the entire reporting system is activated almost immediately and firsthand (eye estimate) reports of damage generated within 24 hours. Basing on the reports from the respective Sub- divisions, the response mechanism as regards technical support, Agri-input supply, pest and disease outbreak measures are kept in readiness. The ameliorator measures start as soon as possible after the extent of damage is assessed in real time basis. The extension functionaries at the grass root level take a note of the damages and report them almost every day during such an emergency.

#### Appointment of Nodal Officers

##### Level Name of the Nodal officer(s):

A District Control room has been setup in the District Agriculture Office Baksa, Mushalpur under SDRF norms.

| Sl. No. | Name of Officers with designation          | Duties Assigned                                                                            | Mobile No. | Time of duty | Functions                                                                                                                                                                                                                                                                                                                                            |

## **FLOOD PREPAREDNESS REPORT**

### **Barama - Chapaguri Division (Irrigation), Mushalpur, Baksa**

#### **Introduction :**

Disaster mitigation refers to the activities which actually eliminates or reduce the vulnerability or the chance of occurrence or the effects of a disaster. Preparedness is a state of being ready to react promptly and effectively in the event of an emergency. Preparedness measures to be undertaken depend upon the analysis of hazard severity and vulnerability. Preparedness for any emergency requires a plan, therefore it is essential to identify the resources available and the ways to utilize them during a disaster. Thus, the preparedness plan is to provide a systematic way of responding to an emergency situation. The response and recovery mean the ways to immediately react during and after the disaster. The functioning of the rescue and recovery unit differs for various disasters. Broadly the rescue and recovery refer to rescue and evacuating the trapped lives and properties, providing first aids, taking care of children, elders and disabled, restore communication networks and essential services, provide food, water and shelter etc.

Depending on the anticipated threat by the disaster, immediate short term temporary measures are taken for protection of the project infra-structures. As for example, making temporary bunds, bamboo pall siding work reinforced by earth filled gunny bags etc. Thus, a plan is chalked out for immediate preparedness against the disaster. Normally when the flood recedes a permanent long-term measure are taken up.

#### **Administrative Arrangement:**

- Control Room will be set up at SE/EE Office at district level for smooth communication with DDMA/District Administration.
- SMS/WhatsApp/Email will be used for reporting of the incidents of disaster and the extent of damage to the higher authorities at the state levels and communications to the field levels.

#### **Financial Arrangement:**

- The state may prepare separate budget for disaster management for the restoration of the departmental infrastructures.
- Calamity relief fund as kept aside at Govt. of India level and their release in phases to the state in the wake of disaster as per the recommendation of the inter-ministerial team of GOI.
- The state may try to generate fund for disaster preparedness activities more efficiently as per NRDWP guidelines permit.

### ROLE AND RESPONSIBILITIES AT DISTRICT LEVEL

- When early signs of disaster appear in any part of the district, SE or EE will submit a special situation up date to Deputy Commissioner indicating the position in respect of irrigation infrastructures in the district.
- SE/EE will inform the field level officers to review emergency stocks and contingency plans to be able to respond in a timely manner.
- SE/EE upon receipt of early warning signals from the state must start the monitoring of water levels in the rivers and apprise of the position of irrigation infrastructures in the district.
- SE or EE will be in constant touch with the local IMD and other agencies of the district for information on impending disaster.
- SE or EE will ensure setting up of district emergency control room in his office for daily monitoring of the situation under the guidance of DDMA.
- SE or EE will share all emergency contingency plan with the district level DDMA for effective co-ordination during emergencies.
- SE/EE will co-ordinate with the block and village panchayats/administration on early warning signs.
- SE/EE will instruct AEE/AE to check the irrigation infrastructures in their jurisdiction and submit status report.
- SE/EE will call a meeting with his staff after early warning signals are received from DDMA/DC.
- He must identify the critical zones and send signals for taking pre-disaster awareness Programmes.

### ROLE AND RESPONSIBILITIES AT BLOCK LEVEL

- AEE will ensure that supply of materials and spares may be required by the SO/AE in charge of the irrigation scheme,
- AEE will prepare an alternative contingency plan for emergency responses during the disasters.
- AEE will create a roster of field personnel for carrying out emergency repairs and restoration of water supply systems.
- AEE will utilize the service of master trainer at block level to train the field staff and water user's association members.
- AEE will communicate with the Circle Officer/ BDOs regarding the disaster related scenario in his jurisdiction.
- AEE will communicate with the district level officers (SE/EE) regarding the status of irrigation schemes vis-à-vis the disaster situations/emergencies.
- AE/SO will create a list of potential suppliers for emergency procurement.
- AE/SO will control the field staff for regulation of gates in the scheme.
- AE/SO will monitor water level in the river and mark the danger level.
- AE/SO will communicate the early danger signal to the district office/block office/AEE.
- AE/SO will maintain data on repair status of the irrigation schemes.
- AE/SO will prepare cost estimates for the damaged irrigation infrastructures.
- AE/SO will take appropriate measures in consultation with the WUA members for protection of crops in the field.
- AE/SO will draw a contingency plan to tackle the emergency situation of any type of disaster. He will seek technical expertise from the superior officers.

  
18/10/25  
Executive Engineer  
Barama-Chapaguri Division (Irrigation)  
Mushalpur, Baksa
