Date: July 10, 2023

Ref No: 2023/FL/AS/16

Dear Sir,

Sub: Assam Heavy Rains 2023- Near Real Time Flood Mapping using satellite data

Please refer to our earlier mail dated 08-Jul-2023 regarding mapping and monitoring of flood inundation in Near Real Time in Assam State using RISAT-1A (EOS-4) CRS SAR satellite data. Heavy incessant rains in many regions of Assam during the first week of July, 2023 has led to floods in Assam State. We have analyzed RISAT-1A (EOS-4) CRS SAR satellite dataset of 09th July 2023 (1800 Hrs) and an inundation flood inundation map for part of Assam State is prepared. The map along with a brief report is enclosed herewith for your kind information. Since the image was acquired during/immediate to the rainfall event, large extents of wet areas were also observed.

Further, we request you to visit flood page in NDEM portal (<https://ndem.nrsc.gov.in>) and Bhuvan portal (<https://bhuvan-app1.nrsc.gov.in/disaster/disaster.php?id=flood>) for better visualization of flood extent in Assam State.

In addition, the flood layer in GIS ready format and inundation statistics are transmitted to Assam State Remote Sensing Application Centre and North Eastern State Application Centre by e-mail for further value addition and dissemination to user departments.

We will continue to keep a watch on the flood situation and update the information as and when required. Your support and active interaction is highly appreciated. Please provide feedback on the information being provided.

With kind regards

Yours sincerely,

(A V SURESH BABU)

As per the distribution list enclosed in the report.

Mapping and Monitoring of Flood situation in Assam State during 2023

1.0 Background

Floods were reported in Assam due to heavy rains followed by rise in water levels of Brahmaputra & its tributaries during the first week of July, 2023. River Desang at Nanglamoraghat and River Brahmaputra at Tezpur and Neamatighat were reported to be flowing above danger level.

(Source: CWC, News media, ASDMA-Assam)

2.0 Satellite Data

Flood Disaster Team is keeping a constant watch on the flood situation and checked the satellite data coverage over the affected areas RISAT-1A (EOS-4) CRS SAR satellite dataset of 09th July 2023 (1800 Hrs) are acquired & analyzed. (Refer Table-1).

Table-1 Satellite Data acquired over Flood Affected Area

S No	Date	Satellite / Sensor	Districts affected
1	16.06.2023 (1800 Hrs)	Sentinel-1A SAR	Goalpara,Dhubri,Bongaigaon,Barpeta*, Kokrajhar,Kamrup Rural*, Chirang, Baksa,South Salmara Mancachar
2	17.06.2023 (1800 Hrs)	RISAT-1A (EOS-4)- MRS	Dhemaji, Tinsukia, Sibsagar, Charaideo, Dibrugarh
3	18.06.2023 (1800 Hrs)	RISAT-1A (EOS-4)- CRS	Golaghat, Cachar, Biswanath*, Lakhimpur, Karimganj, Sonitpur, Jorhat*, Nagaon
4	16.06.2023 to 18.06.2023	Multi Satellite/ Sensor Data	Golaghat, Cachar, Goalpara, Biswanath, Dibrugarh*, Dhubri, Lakhimpur, Bongaigaon, Kokrajhar, Barpeta*, Karimganj, Sonitpur, Jorhat*, Nagaon
5	19.06.2023 (1800 Hrs)	RISAT-1A (EOS-4)- CRS	Dibrugarh, Sibsagar, Tinsukia
6	20.06.2023 (1800 Hrs)	RISAT-1A (EOS-4)- CRS	Barpeta, Kamrup Rural, Baksa, Cachar*, Karimganj, Nalbari, Bongaigaon, Goalpara*, Darrang, Marigaon
7	21.06.2023 (1800 Hrs)	RISAT-1A (EOS-4)- CRS	Cachar, Kamrup Rural*, Darrang, Karimganj, Nagaon, Baksa*

8	22.06.2023 (1800 Hrs)	RISAT-1A (EOS-4)- CRS	Sibsagar, Lakhimpur*, Jorhat
9	23.06.2023 (1800 Hrs)	Sentinel-1A SAR	Barpeta*, Kamrup Rural, Darrang, Cachar, Nalbari, Nagaon, Karimganj, Baksa*, Marigaon*, Sonitpur*, Udalguri*, Hojai, Goalpara*, Hailakhandi, Bongaigaon*
10	25.06.2023 (1800 Hrs)	Sentinel-1A SAR	Sibsagar*, Dibrugarh
11	26.06.2023 (0600 Hrs)	Sentinel-1A SAR	Kamrup Rural*, Darrang, Marigaon, Nalbari, Cachar, Karimganj, Nagaon
12	26.06.2023 (1800 Hrs)	RISAT-1A (EOS-4) CRS SAR	Jorhat, Golaghat, Sibsaagar*, Biswanath
13	27.06.2023 (1800 Hrs)	RISAT-1A (EOS-4) CRS SAR	Sibsagar, Jorhat
14	29.06.2023 (1800 Hrs)	RISAT-1A (EOS-4) CRS SAR	Kamrup Rural, Karimganj*, Cachar, Darrang
15	07.07.2023 (1800 Hrs)	RISAT-1A (EOS-4) CRS SAR & Sentinel-1A SAR	Sibsagar*, Barpeta, Dhubri, Kamrup Rural, Dibrugarh, Dhemaji*, Charaideo
16	09.07.2023 (1800 Hrs)	RISAT-1A (EOS-4) CRS SAR	Sibsagar*, Lakhimpur*, Dhemaji

3.0 Satellite Data Analysis

Satellite data is rectified and flood inundation layer is extracted. Further, flood inundation map was composed for part of Assam state based on the analysis of RISAT-1A (EOS-4) CRS SAR satellite datasets of 09th July 2023 (1800 Hrs). The flood inundation layer is integrated with district boundary layer, for extracting district-wise flood inundation statistics which are shown in the Table-2.

4.0 Observations from Satellite Images

Based on the analysis of satellite data, the following points were observed.

- Satellite data covers part of Assam State
- Major inundation was observed in Sibsaagar, Lakhimpur and Dhemaji districts.
- The Inundation may include water accumulation in low lying areas due to heavy incessant rainfall.

Table-2:

S. No.	District	Inundated Area (ha)
1	SIBSAGAR	14964
2	LAKHIMPUR	13602
3	DHEMAJI	11585
4	DIBRUGARH	4711
5	JORHAT	4323
6	CHARAIDEO	2006
7	MAJULI	910
	TOTAL	52101

Note:

- Flood inundation may include rain water accumulation / flood water in low lying areas/ swampy areas.
- Districts with inundation less than 100 ha are not included in the statistics
- * Partially covered in satellite data.
